Will Rogers Remarks:

BEVERLY HILLS, Aug. 28.—[To the Editor of The Times:] Just found out by the papers today why Coolidge wouldn't run again. His humiliation over his son John turning out to be a saxophone player was too much for him, but wait till he finds out John may belong to a fraternity. That would be the last straw.

I don't know anything about politics and nothing about machinery, but I do know that since General Motors have gone Democratic that my Buick won't pull a hill and it is the same hill that it used to go up on high before Raskob went into politics.

Yours,

WILL.

American Trio Arrested

Doris Stevens and Eight Associates Try to Crash Luncheon

Kellogg-Briand Pact Party Disturbed as Women Picket Doumergue

RAMBOUILLET (France) Aug. 28. (AP)—Doris Stevens, American feminist leader, at the head of a group of eight women, put unexpected color into a lunch given by President Doumergue to Secretary of State Kellogg and other signers of the Kellogg-Briand pact today by trying to make her way into the presence of the President in behalf of the equal rights cause. Miss Stevens herself and three of her colleagues lunched on sandwiches, beer and mineral water at the police station, having been conducted there with some vigor by officers attached to the Presidency, because two of them, Miss Stevens and Mrs. Loring Pickering, had left their identity cards at home.

Betty Gram Swino of Portland, Or., and the wife of an English correspondent, an ardent sympathizer, was taken along because she refused to move on when ordered. The fourth woman to throw in her lot with the Americans was Fanny Bu-

Pirates Fire on British Ship

HONGKONG, Aug. 28. (AP)—Pirates armed with rifles fired on the British steamer Baron Maclay, anchored off Whampoa, yesterday.

Local authorities then placed a guard aboard the ship and sent troops to the north bank of the river, whence the shots were fired. The troops killed one of the pirates and captured another.

Thoughts are more powerful than dynamite.

NEW ALARM IN EUROPE

Italy and Spain Upset Things

Proposed Alliance Threatens Entirely New Line-up to Maintain Balance

Mussolini Looks Coldly on Anglo-French Sentiment and Attempts Coup

LONDON, Aug. 28. (Exclusive)—A startling aftermath of the Anglo-French agreement and the Kellogg pact is seen here in the proposed Italian-Spanish treaty of alliance, which it is believed would transform the entire European situation and draw up new alignments with Paris and Rome, the opposing centers, backed by Great Britain and Spain, respectively.

Despite the fact that the draft of the treaty which Premier Mussolini has submitted to Spain with the object of replacing the existing friendship pact externally is an innocuous document well within the League of Nations Covenant, the mutually defensive agreement is regarded as a definite renunciation of the waning British support for Italy as well as an adroit linking up of two of France's most powerful neighbors.

It is known that Italy has viewed coldly the increasing British and French rapprochement which is believed to be death blow to Premier Mussolini's Balkans aspirations.

Also the dwindling British support of Italy's Mediterranean, Arabian and Abyssian policies led Il Duce to angle for more tangible Spanish support at a strategic moment, when Spain is slightly huffed at not being invited as an original signatory of the Kellogg pact, as well as at the lack of assurance for her Council aspirations at Geneva.

It is declared that Spain is highly flattered by Mussolini's attentions, fully realizing that it was its neutrality in the last war which enabled France to concentrate on the east.

The sole obstacle appears to be the Spanish King's sympathies and it is considered that the deciding voice may come from the Vatican to which Fascist diplomatists now are said to be turning their warmest attentions.

HEAVY RAINS BRING FLOOD IN ARIZONA

Houses Fill With Water and Rail Tracks Washed Out by Tropic Downpour

TUCSON (Ariz.) Aug. 28. (AP)—Houses were flooded to a depth of eight feet and thousands of feet of railroad track stood under water in the vicinity of Hayden Junction and Burns early today, following torrential downpours of rain starting at midnight, according to reports reaching Tucson this afternoon.

A telephone message from Hayden stated that rain which began falling at midnight was the heaviest in years and lasted until daylight this morning. Tourists traveling over the Globe-Hayden road were delayed by numerous boulders which had been washed on the highways for miles along the hillsides.

Reports from Southern Pacific officials said that a levee on the north side of the tracks at Hayden Junction broke and the flood water inundated many of the railway buildings, some to a depth of eight feet. The tracks were under water in some places for a distance of thirty feet to several hundred feet. Three bridges were washed away before waters in arroyos subsided. A report that a large section of the ore tracks between Hayden and Ray had been swept away, lacked confirmation in Hayden this afternoon.

Flyers "Lost" in Lindbergh Plane

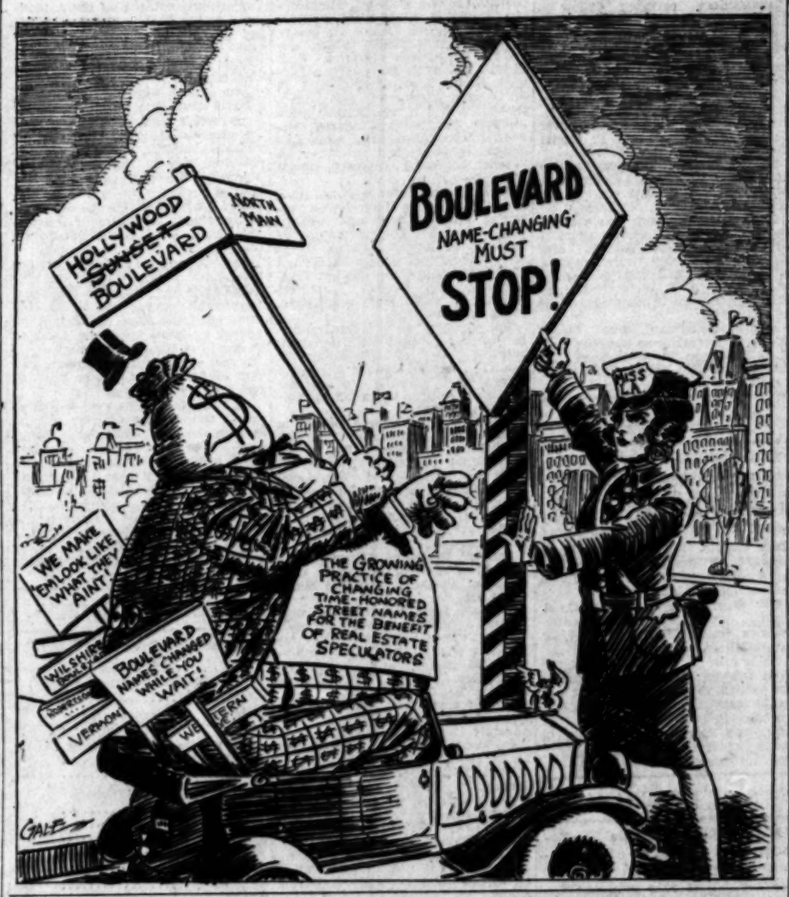
CURTISS FIELD (N. Y.) Aug. 28. (AP)—M. M. Merrill, diminutive boss of the Curtiss flying service, and Edwin Ronne, manager of the Buffalo airport, left the up-State city at 4 p.m. yesterday to fly an orange Curtiss Falcon belonging to Col. Charles A. Lindbergh to New York, but they failed to arrive.

Most flyers leaned to the theory that a forced landing was necessitated by engine trouble. The plane had been left at Buffalo when Lindbergh burned out a bearing in the motor and repairs had since been made.

Railroad Value Fixed as Basis of Rate Making

WASHINGTON, Aug. 28. (AP)—Final valuation of the Rio Grande Southern Railroad was established for rate making purposes by the Interstate Commerce Commission today at $3,322,800 as of June 30, 1919.

Isn't It Time to Call a Halt?



UNIONS FIGHT SINGING FILMS

Playhouse Owners Ordered to Hire Orchestras; Vitaphone Showmen to Resist Hold-up

CHICAGO, Aug. 28. (Exclusive)—Unionists here today issued an ultimatum to fifty moving-picture theater owners who plan to install Vitaphone and Movietone equipment. The union leaders maintain the devices threaten to put most of them out of employment. The ultimatum came in the form of new contracts embodying terms by which the union proposes to force the film-house owners to keep members of the Chicago Federation of Musicians at work, whether they are needed or not. The Exhibitors' Association, comprising the management of the film houses, spurned the new contracts and declared it will fight to run its own businesses in a businesslike way.

According to Jack Miller, president and business manager of the Exhibitors' Association, a meeting was held in the headquarters today at which this decision was reached.

A conference between representatives of the film house managers and James C. Petrillo, president of the union, has been scheduled for tomorrow in the hope that a compromise may be reached. The old contracts expire Sunday night.

FIFTY AFFECTED

Mr. Miller said that fifty of the Class 6 houses already have or will have soon Movietones or Vitaphones, which will lessen the demand for orchestras. Class 6 houses, he said, are houses conducting seven night performances a week and two matinees and charging less than 50 cents general admission.

"The union demands that where we install Movietones and Vitaphones we also shall employ six musicians," Mr. Miller said. "Our contract, which has a week to run, calls for the employment of only four for a period of at least forty-four weeks a year. We cannot renew that contract or guarantee to employ as many as six musicians. We will propose that owners employ, say, four, but not for forty-four weeks a year.

WOULD "GO BROKE"

"We want the right to engage musicians whenever we need them, but we don't want to be bound to a long-term contract. It will cost us each $700 a week for the Movietone. Six musicians would cost $600 a week. Forty-three houses already are bankrupt in Chicago and all of us would go broke if we complied with those terms."

James C. Petrillo, president of the Chicago Federation of Musicians, said the union would hold stanchly to its demands.

The contract dispute that resulted in a strike of musicians and stage hands at the Illinois Theater Monday night and resulted in halting the opening performance of the show there was settled today.

The play, "Whispering Friends," had its opening performance tonight with the full orchestra of thirteen musicians in the pit, consummating a victory for the union.

COMPROMISE REACHED

After a lengthy conference today with Petrillo, Harry J. Powers, president of the theater, announced that an agreement had been reached whereby the full orchestra would continue through the run of the present show and following that only five men would be employed in the orchestra pit.

The dispute arose over the opening of the theater a week earlier

(Continued on Page 2, Column 5)

SIX BODIES RECOVERED FROM RUIN

Collapse of Buildings in North Carolina Injures Dozen Additional

SHELBY (N. C.) Aug. 28. (AP)—Six bodies had been recovered early tonight from the wreckage of three buildings that collapsed today in the business district of the town. Twelve are known to have been injured, some seriously, and other bodies may be in the debris.

The known dead are Miss Ora Eskridge, Guy Green and Alex Hoyle, employees of the First National Bank, one of the buildings that gave way, and Zeb Blanton and his son Carl, farmers, who were customers at the bank.

Among the injured are George Blanton, acting vice-president of the bank.

Excavations under the Hadley tailor shop are thought to have caused the collapse. Seventeen men are said to have comprised the crew at work. Five of these were brought out alive, two unhurt, and the others have not been accounted for. Some of them are thought to have lost their lives. The other building that gave way was that of the Goode Grocery Company, next to the bank and tailor shop. All were two-story brick structures.

Law Group Will Meet in America

STOCKHOLM, Aug. 28. (AP)—The next session of the Institute of International Law which has just concluded its 1928 meeting here, will take place in the United States, probably Washington.

The Carnegie endowment fund for international peace has offered to defray the expenses.

Eucharist Meet Draws Throngs

SYDNEY (Australia) Aug. 28. (AP) Ecclesiastics of high rank and laymen prominently identified with the Catholic Church are pouring into Sydney hourly to attend the eucharistic congress opening here next week.

They come not only from well-known countries, but from all sorts of out-of-the-way places.

SMITH WILL CAMPAIGN IN CALIFORNIA

Stumping Tour of Entire State by Governor Within Five Weeks Announced

SAN FRANCISCO, Aug. 28. (AP)—Gov. Smith of New York will invade California on a whirlwind speaking tour within the next five weeks, said an announcement today by Justus S Wardell, San Francisco Democratic leader.

Wardell, who returned today from a conference with Democratic leaders in the East, said Smith will make one speech in San Francisco and another in Los Angeles, and possibly others both in Northern and Southern California. He said the candidate will make his California headquarters at the home of former Senator Phelan at Los Gatos.

"It has been decided by the Democratic board of strategy to make an intensive and determined fight to carry Hoover's home State, California, for the Smith-Robinson ticket in November," said Wardell. "This fight will be conducted through the Democratic State Central Committee, and the campaign will begin immediately."

Wardell said reports had convinced the Democratic chiefs that Smith sentiment is growing throughout the State, and that California might be carried by a determined effort.

New Zeppelin's Tests Begin Soon

MADRID, Aug. 28. (AP)—Col. Herrera, technical director of the Seville-Buenos Aires Aerial Line, announced today that the dirigible Count Zeppelin, constructed at Friedrichshafen, Germany, will begin its test flights about the middle of September.

It is planned to use the Count Zeppelin in inaugurating the line between Seville and the Argentine capital.

Col. Lindbergh Fools Crowd

SEATTLE, Aug. 28. (AP)—After circling over the city for some minutes, apparently undecided where to land, Col. Charles A. Lindbergh completed a flight from Medford, Or., to Seattle by landing on Bain Point aviation field at 3:01 p.m. today. He was greeted by Lieutenant-Commander James Price. A crowd was awaiting Lindbergh's arrival at Boeing municipal field.

CONVICTS RECAPTURED

QUINCY, Aug. 28. (AP)—Ray Johnson and Herbert Ryan, San Quentin convicts, who escaped the Plumas county road gang yesterday, were later lodged in jail here through the efforts of a brakeman on a freight train the pair had boarded in an attempt to escape.

BEAN TRAILING SHAW IN RACE FOR SUPERVISOR

Johnson Beats Randall for Senate; Incumbent Judges Nominated; Bonds Lack Two-Thirds

Returns at midnight from yesterday's primary election gave the following indications:

R. F. McClellan and Henry W. Wright, incumbent County Supervisors in the Fourth and Fifth districts, have long leads over their nearest opponents, R. E. Houck and Harry G. MacBain, respectively. In the Second Supervisorial District the incumbent, J. H. Bean, is behind Councilman Frank L. Shaw.

ELECTION RETURNS

Following are Los Angeles city and county returns on yesterday's primary election as compiled up to mary election as compiled up to 1 o'clock this morning. These figures are semiofficial but incomplete.

U. S. SENATOR
(1224 Precincts Out of 2708)

Johnson (Rep.)	24,670
Randall (Rep)	8,720
Moore (Dem.)	8,994

CONGRESS
Ninth District
(50 Precincts Out of 1287)

Evans (Rep.)	314
Reynolds (Rep.)	95

Tenth District
(50 Precincts Out of 1423)

Crail (Dem.)	356
McCarthy (Dem.)	212

(Crail unopposed for Republican nomination.)

DISTRICT ATTORNEY
(1224 Precincts Out of 2708)

D'Orr	7,270
Fitts	63,154

SUPERVISOR
Second District
(323 Precincts Out of 515)

Bean	9,393
Shaw	11,863

Fourth District
(135 Precincts Out of 563)

Houck	4,882
McClellan	7,156

Fifth District
(259 Precincts Out of 596)

MacBain	9,275
Wright	12,622

RICE-WRAY RECALL
(81 Precincts Out of 7155)

McAllister	4,417
Rice-Wray	2,898

$1,000,000 STATE BUILDING SITE BONDS

Yes	19,457
No	15,998

SUPERIOR COURT
Office No. 3
(650 Precincts out of 2708)

Bledsoe	4,601
Bullock	17,770
Doran	16,397

Office No. 5

Edmonds	20,636
LaPlante	2,421
Stafford	10,784

Office No. 7

Beecher	15,984
Blake	17,347

Office No. 13

Monigomery	15,778
Westover	18,063

Office No. 16

Aggeler	22,549
Wharton	9,892

STATE SENATOR
Thirty-first District

Carter	273
Cassell	157

Thirty-fifth District

Ames	69
Evans	119

Thirty-seventh District

Allen, Henry A.	51
Allen, Newton M.	121
Farlinger	6
McKinley	66
Rochester	167

(Continued on Page 2, Column 5)

For United States Senator Hiram Johnson, incumbent, is far ahead of Charles H. Randall, Los Angeles Councilman, for the Republican nomination. Scattering returns from 4088 precincts in all parts of the State give Johnson 175,206, Randall 28,678.

Apparently all the incumbent Superior Judges are nominated. Most of them have majorities, though Judge Doran is slightly behind Georgia Bullock for Office No. 3, Samuel R. Blake is ahead of Judge Beecher for Office No. 7 and Myron Westover is leading Judge Montgomery for Office No. 13.

Lieut.-Gov. Fitts has a tremendous lead over Paul D'Orr for District Attorney and is obviously elected.

Councilman Rice-Wray, against whom a recall was directed, was considerably behind his chief opponent, McAllister, and may be defeated. Serious legal complications may invalidate the result.

The $1,000,000 State building site bonds have a majority vote but so far not the two-thirds necessary to carry.

The charter amendment giving a 10 per cent preference to ex-service men and their wives or widows had a majority.

Scattering and incomplete returns indicate victory for most of the incumbent members of the State Legislature and defeat for the Parrot candidates. Some of the races, however, will be close.

VOTE IS LIGHT

Despite a fairly brisk rush of voters during the late afternoon, the vote in yesterday's election was one of the lightest in the history of the State—not more than 30 per cent of the registration being represented at the polls.

This condition was due to the absence of a contest for United States Senatorial nominations and for various Congressional seats. In many polling places the tally of ballots at noon yesterday indicated that not more than 12 per cent of those eligible to vote had exercised the privilege.

On the whole, according to reports to Registrar of Voters Kerr, voting in the county was comparatively heavier than in the city of Los Angeles.

The county's 2708 polling places were opened at 6 a.m. and closed at 7 p.m. They were operated by more than 16,000 election officers, this small army of officials representing a very large percentage of the total number of citizens who participated in the election.

Many candidates, being unopposed, were elected in yesterday's primary.

In a number of other instances the outcome was regarded as virtually certain. Several warm contests developed for local Superior Court judgeships, for the Board of Supervisors and for the State Legislature.

UNOPPOSED

Partisan candidates in yesterday's election who are unopposed, and who therefore will get the nomination, include: United States Senator, Minor Moore, Democrat; Lena Morrow Lewis, Socialist; Representative in Congress, Ninth District, James B. Ogg, Democrat; Christian Sorenson, Socialist; Representative in Congress, Tenth District, Joe Crail, Republican; Harry Sherz, Socialist; State Senate, Twenty-ninth

(Continued on Page 2, Column 4)

RECALL FIGHT TO COURTS

Effort to Oust Councilman Rice-Wray Runs Into Legal Snags

Confusion in the special municipal recall election in the Sixth Councilmanic District, where, according to figures available at midnight last night, James G. McAllister had defeated Councilman Rice-Wray, indicated that the matter eventually must go to the courts. Frank Jones was a poor third in the race.

The voters, apparently confused by the provisions of the recall election law, were voting both to recall Rice-Wray and to re-elect him, while meantime a conflict between the City Charter and the State Constitution arose to further involve the situation.

Under the City Charter, according to City Clerk Dominguez, all votes, either on the recall or for candidates, must be counted, and he is operating under that provision. The Constitution, however, declares that a voter must cast his ballot on the recall or else his vote on the candidate is not counted.

In Precinct No. 192, at Forty-first street and Western avenue, it was reported, twenty-one ballots were thrown out because the voters votad both to recall Rice-Wray and to re-elect him. Clerk Dominguez, as a city official, counted the votes according to the charter, but meanwhile was taking precautions in the event of a spirited court contest on the result.

The protest of 18,000 property owners against the construction of Section No. 6 of the Slauson avenue storm drain, which they believed was ignored by Councilman Rice-Wray, inspired the circulation of the recall petition. After the period of circulation it was deemed sufficient and the special election was called.

The recall ballot, which is separate from the State and county ballot, is divided into two portions. At the top the voter is asked to stamp a "yes" or "no" answer to the question: Shall Councilman Rice-Wray be removed from office? The lower section carries the names of Rice-Wray and his opponents, with instructions to vote for one. This lower section is appended on the theory that if Rice-Wray is recalled the office shall be filled at the same election. The high man is declared elected.

Councilman Rice-Wray was elected to office in June, 1927, defeating the incumbent, E. E. Moore. He was elected with the aid of the city administration. McAllister is in the real estate business and has resided nine years in the district. Jones has lived there eight years and is a deputy in the Bureau of Assessments.

Big Vote Polled by Republican Candidates Indicates G.O.P. Strength in State

LACK OF CONTESTS CAUSES LIGHT SOUTHLAND VOTE

Riverside Gives Spirited Battle for State Assembly Seat; Returns Tallied Slowly

A light vote was cast in the primaries throughout Southern California yesterday, with exception of a few counties in which special interest was created by spirited contests of local nature, principally races for County Supervisor.

In State Assembly contests few changes are indicated, most of the incumbents carrying substantial leads. The outstanding exception is in Riverside county where Chester Kline, Jacinto editor, was leading John Wherrell, candidate for re-election. In Kings county W. E. Martin, a young farmer and new aspirant in political circles, claimed the Democratic nomination but failed to wrest the Republican nomination from Augustus Jewett, Republican incumbent.

The following incomplete reports were obtained up to midnight:

SAN LUIS OBISPO

SAN LUIS OBISPO, Aug. 28. (Exclusive)—There are no indications of spirited contest in San Luis Obispo county, and scant interest has been manifested. In the Second District, where Supervisor E. W. Black was opposed by J. W. Greene, incomplete returns indicated that Black is leading Greene by a safe margin. The Third District showed more animation and a closer race; incomplete returns giving John Norton 996 and his opponent, J. C. James, 822.

KINGS

HANFORD, Aug. 28. (Exclusive) Augustus Jewett, Republican incumbent, was renominated in the primaries today for Assemblyman from the Fifty-fourth District. W. E. Martin, filed on both tickets, won the Democratic nomination, but failed to win over Jewett on the Republican ballot.

Sherman E. Rallsback of the Fifth District, embracing this city, and Thomas E. Cochrane of Corcoran, of the Second District, are named Supervisors without opposition.

ORANGE.

SANTA ANA, Aug. 28.—William Schumacher of Buena Park was leading for election to the Orange County Board of Supervisors from the Northern District as complete returns came into County Clerk Backs tonight. Schumacher was running strong in Anaheim and his principal opponent, D. S. Lineberger of Fullerton, former Supervisor, was piling up majorities in his home town. Lineberger's vote, combined with that of W. H. Kennedy of Stanton, was thought by some to indicate Schumacher and Lineberger will engage in a run-off election.

In the Santa Ana supervisorial district Charles Chapman was running slightly ahead of J. L. McBride, City Councilman, with Fred Ross far in the rear at midnight.

The returns did not indicate whether Chapman and McBride will run again, but it seemed probable that they will contest at the general election.

E. B. Collier, Stanley Reinhaus, George Scove, Charles Swanner and Jack Wallace are leading for the six Republican Central Committee places in Santa Ana, with Herman Zabel bringing up in the rear.

George Edgar, Horace Head, J. L. McBride, B. Z. McKinney, J. O. Mitchell, Charles Overshiner and Ben Tarver are bunched for the six Democratic Central Committeemen places, with the result in doubt.

Incomplete returns from the Fourth Supervisorial District, about half of the vote being counted, give N. T. Edwards, 1287 against ninety-four for Dr. C. D. Ball in the race for the State Senate from Orange, Riverside and Imperial counties. Edwards lives in the Fourth District. Ball is expected to draw his heaviest strength in Santa Ana. Indications are that there is a heavy swing to Edwards along the beaches.

SAN DIEGO

SAN DIEGO, Aug. 28.—Voting throughout the county was light and incomplete returns gave the following results.

In the First District the race for Supervisor showed that Mildred Greene, incumbent, is leading over Edgar F. Hastings, Gilbert F. Cunningham, Edward N. Jones, Frederick Klicka and Daniel J. Martin.

In the Second District it is indicated that E. A. Hornbeck has a safe margin over Alexander Murray for Supervisor.

In the Third District the four-cornered fight for Supervisor indicated that Felix Landis will prove victorious over Leroy H. Aul, Meredith Conway and Roy Trussell.

For Superior Court Judge a three-way contest between Shelly H. Higgins, Charles B. DeLong and Lloyd Griffin was dwindling down to a walk-over for Griffin.

In the Seventy-ninth Assembly District, which is located in the city, William E. Harper is leading over his two opponents, Stanley T. Howe and Ralph N. Wallace.

The Eightieth District, representing the county, showed that Crowell D. Eddy will prove successful over Arthur Terry and Robert T. Whitaker.

TULARE

VISALIA, Aug. 28.—Partial returns covering thirty precincts showed that in the Third Supervisorial District Charles J. Hausch, the incumbent, was practically elected and the way in which he had been running indicated there would be slight question as to the ultimate result. His closest runner-up was Rev. Rufus Conley, pastor of the local Church of God, who practically concedes the election to Hausch.

In the city of Tulare, in fourteen of the twenty-nine precincts, including most of the doubtful portions of the city, R. C. Sturgeon, the incumbent, had a strong lead over his nearest opponent, Harry Newman. Alex Whaley ran a poor third. Tulare produced a red-hot election.

In the First District, which includes Porterville, F. M. Pfrimmer, who was unopposed, received a heavy vote.

Judge Frank Lamberson, seeking a return as Tulare judge, was without opposition, but received a large complimentary vote.

KERN

BAKERSFIELD, Aug. 28.—With several candidates competing for most of the offices, close contests featured the primaries today and at least two places will be fought out in the November election. At midnight, returns were in from ninety out of 187 precincts.

For Supervisor in the Fifth District, Chairman Ira Williams, incumbent, and Richard Ashe will go on the November ballot, winning over Robert B. Smith and Thomas W. Marsh.

In the First District, J. B. McFarland, incumbent, and William R. Willomes were nominated over Charles H. Likely and E. Curtis Clark.

In the Fourth District, Stanley Abel, incumbent, held a comfortable lead over J. C. Barrett, O. F. Sweigart and C. A. Williams.

For Superior Judge to succeed Judge H. A. Peairs, who is retiring, Rollin Laird, W. A. McGinn and William B. Beazley were running a close race, with Laird slightly in the lead. J. W. Wright was running fourth. All candidates are local attorneys.

For Assemblyman, Mrs. Grace Dorris apparently was winning over R. L. Patterson, incumbent, on both the Republican and Democratic tickets.

SAN BERNARDINO

SAN BERNARDINO, Aug. 28.—The principal contest for San Bernardino county in the primary today was for a seat on the Superior bench. On returns from 170 out of 276 precincts, Superior Judge F. A. Leonards of Redlands was leading by a large margin former Judge Jesse Olney of Adelanto.

For Supervisor, Chairman C. S. Crain, incumbent, was leading Charles Phillips, Hodge rancher, by several hundred votes.

Supervisor John Anderson of the First District; George F. Biggin of the Fifth Supervisorial District; Assemblyman Isaac Jones of Ontario for the Fifty-fifth Assembly District, and Assemblyman Archie E. Brock of the Fifty-sixth District had no opposition.

SANTA BARBARA

SANTA BARBARA, Aug. 28.—Returns from sixty-three of the seventy-nine precincts involved, show a nip-and-tuck race between Mrs. Lena L. Smith and George L. Bliss for Assemblyman, with scant figures being shown for two other candidates, E. O. Campbell of Goleta and Nat Weinberg of this city.

Earlier reports covering practically all of the city, gave Mrs. Smith a very small margin over Bliss, but reports from the county then showed Bliss with a slight lead. Seemingly, this has been changed by the returns from points not originally considered, for Mrs. Smith had 1612 votes to her credit against 1584 for Bliss.

In the third Supervisor District, J. L. Stevens seemed to have a safe margin over William Hamilton.

The first district gave promise of a five-to-one lead for Thomas Din Densmore over Howe Deadrick.

RIVERSIDE

RIVERSIDE, Aug. 28. — The late returns covering the greater portion of this county demonstrated that Chester Kline, Jacinto editor and former State Senator, is an almost certain victor over John Wherrell, candidate for re-election.

In the State Senator race, Nelson Edwards continued to pile up a safe lead over Charles T. Ball. Both are Orange county men.

In the Supervisorial race in the Second District, J. Harold Wilson was high man, with W. C. Moore running second and John W. Albright definitely out of the contest. Wilson and Moore will be the candidates at the November election.

The third district elected J. E. McGregor, the incumbent, over his two opponents E. E. Kightlinger and J. A. Packard.

In the First District, T. C. Jameson of Corona, was not opposed.

IMPERIAL

EL CENTRO, Aug. 28.—In the most heated contest of the Imperial county primaries, Vaughn N. Thompson was practically assured of re-election to the Superior Court bench over S. P. Williams, local attorney. With an indorsement of Thompson from the American Conservation Club, this race assumed interest over all others, and Thompson held a 40 per cent lead, with only a few scattered precincts unreported.

In the Imperial county vote for State Senator, Nelson T. Edwards was only eight votes ahead of Charles D. Ball, with about half of the votes reported. Both men are from Orange county.

Henry Jackson, incumbent, held a 2-to-1 lead over George R. Butters for County Supervisor from the Brawley district, with half of the votes in.

VENTURA

VENTURA, Aug. 28. — In the Ojai-Ventura avenue district for County Supervisor, T. S. Clark, incumbent, defeated W. R. Kingston by a large majority.

In the Oxnard District, A. L. Dingeman, automobile dealer, defeated Ferd Roussey by approximately a three-to-two lead. In the Ventura City District, T. G. Gabbert, veteran chairman of the board, was not opposed.

For Assemblyman, Dan Emmett defeated John Thille. Walter H. Duvall was not opposed for State Senator.

BUGS DECIDED CAPITAL SITE

Scientist Says Washington Won Over Philadelphia Due to Mosquitoes

PHILADELPHIA, Aug. 28. (AP)—Congress sits by the Potomac instead of the Schuylkill because of bugs. Dr. R. C. Williams, Jr., president of the American Entomological Society, says Washington was selected as the capital instead of Philadelphia because of ravages of mosquitoes carrying yellow fever.

INCUMBENTS MOSTLY WIN

Few Real Upsets Indicated in Primary Results

McClellan and Wright Are Victors; Bean Loses

Johnson Beats Randall for United States Senate

(Continued from First Page)

District, Joseph Pedrotti, Republican; Assembly, Sixty-third District, E. G. De Staute, Democrat; Sixty-fourth District, Frank White, Socialist; Sixty-sixth District, Saul Elstein, Socialist; Sixty-eighth District, Harry Sewell, Republican; P. J. Cooney, Democrat; Sixty-ninth District, David H. MacDougall, Prohibition; Seventy-first District, Edward Purpus, Democrat; Alick Anderson, Socialist; and Seventy-third District, Edward F. Hubbard, Democrat.

Judicial candidates, who are nonpartisan, and who were elected yesterday because they were unopposed, include, District Court of Appeals, Presiding Justice Works and Associate Justices Craig and Thompson; Superior Judges McLucas, Craig, Gould, Yankwich, Schauer, Tappaan, Desmond, Sproul, Fricke and McComb.

The effort of certain local political interests, allied with northern political bosses, to seize control of the Los Angeles county legislative delegation apparently was defeated. Early returns indicated the following results:

Assemblyman Carter appeared to have defeated Attorney Harrison Cassell for the nomination in the Thirty-first Senatorial District.

In the Thirty-third Senatorial District former Speaker Merriam of Long Beach was assured of nomination over the incumbent, Senator Taylor of Pomona, and Wayne F. Bowen and F. J. Potter.

Senator Evans of Monrovia was far ahead of Neal Ames, his only opponent, in the Thirty-fifth Senatorial District.

A close fight featured the race in the Thirty-seventh Senatorial District, where Senator Newton Allen was slightly behind Assemblyman Rochester, and trailed by J. Stanley Parlinger, L. C. McKinley and Henry Allen.

In the Sixty-first Assembly District, Assemblyman Crawford apparently had scored a victory over his opponents, Peter Hornbrook and M. M. Mier.

Assemblyman Little of Santa Monica last night had an overwhelming majority over the city administration candidate, Harry Insley, in the Sixty-second District.

Assemblyman Woolwine was leading in the Sixty-third District closely pressed by E. E. Noon and trailed by Edwin Loucks and E. G. De Staute.

Assemblyman Lyons, in the Sixty-fourth District, appeared to have retained the nomination against both Frank Hennessey and William Raab.

In the Sixty-fifth District Assemblyman Baum appeared to have defeated W. H. B. Gadd and Frank Cordano.

A neck-and-neck race developed in the Sixty-sixth District, where the young electrician, Clarence Wakefield, seriously threatened to break the grip of the city administration candidate, William M. Byrne. Lawrence Bloom and Jay Smith trailed the leaders.

A close contest, with the result in doubt, featured the campaign in the Sixty-seventh District, where Kenneth Newell opposed Eleanor Miller, the incumbent.

Assemblyman Scofield of the Sixty-ninth District was leading the field, composed of William Vacher, Paul Kenney and Walter Galley.

Assemblyman Keaton of Long Beach won the nomination in the Seventieth District hands down against Clarence Dickison and Edward Diehl.

With a total of eight candidates for the Republican nomination in the Seventy-first District Hugh McNary and Frank McGinley pressed to the head of the ticket with the result in doubt. William Powell, Frank Gillett, Davis Burke, Wallace Copping, A. S. Wilcox and Harold Hansen completed the list.

Assemblyman Badham retained the nomination in the Seventy-second District against B. B. Brainard.

In the Seventy-third District James E. Stockwell was ahead of Charles H. V. Lewis, with Charles Alston and Sidney Dones bringing up the rear.

Assemblyman Roberts appeared to have defeated his opponent, Joseph Bass, in the Seventy-fourth District.

A hot three-cornered fight in the Seventy-fifth District apparently was won by Emory Arnold against Ralph Blakeslee and Ralph Baker.

MARKET BULLS GO ON RAMPAGE

(Continued from First Page)

Eaton Axle, Fleischmann, Glidden Company, International Nickel, Loose Wiles Biscuit, May Department Stores, Stanley Company of America and Victor Talking Machine.

A few stocks fell by the wayside. Loft Candy suddenly dropped 4½ points after a long succession of new high records. International Harvester, Freeport Texas, Otis Elevator, Jersey Central and Warren Brothers also succumbed to selling pressure.

ILL HEALTH BLAMED FOR SUICIDAL ACT

Ill health yesterday drove Charles S. Bennett, 60 years of age, to end his life. His widow, Mrs. Elizabeth Bennett, told police at her home at 1425 South Los Angeles street, that her husband had been in ill health for some time and had carried a weapon with which he often threatened to kill himself.

BONDS GAIN AND STILL MAY CARRY

State Building Issue Gets Majority But Falls Short of Two-thirds Needed

The $1,000,000 State Building bonds, while having a substantial majority at midnight, did not score the necessary two-thirds majority but were gaining and may possibly win yet.

Scattering returns on the amendment to the County Charter, granting veterans a 10 per cent advantage in civil-service examinations, indicated that it received a favorable majority.

The bonds received widespread support from citizens and organizations which wish to see a modern monumental structure, housing the various elements of the State government, rise in the Civic Center alongside the new City Hall and Hall of Justice. The sum of $1,250,000 of State funds for the construction of the building already is available from bond funds voted two years ago.

San Francisco and Sacramento both have acquired land and donated it to the State for buildings. Los Angeles was asked to do the same, and the plan of raising the money by bond issue was selected as the least troublesome method, as the cost would be spread over a period of forty years, rather than at one time by tax levy.

Spirited arguments over the merits of the County Charter change enlivened the campaign. Many civil-service leaders and organizations attacked the amendment on the basis that it was an entering wedge for the breakdown of civil-service principles, while its defenders pointed out that both the State and city civil-service departments grant the veteran an extra 10 per cent to his examination marks.

UNIONS TO FIGHT SINGING FILMS

(Continued from First Page)

than usual for its fall and winter season. The contract entered into last year, calling for the employment of thirteen musicians at the theater, had a week yet to run.

As the play did not require music Mr. Powers declined to continue the employment of the musicians.

This conflicted with the union rule that if a play opens with an orchestra it must retain that orchestra throughout the entire run of the play.

Skeleton Clears Lost Child Case

EUREKA, Aug. 28. (Exclusive)—A mystery more than a year old was cleared up today with the finding of the skeleton of 5-year-old Lucille Davenport, daughter of Leo Davenport of Eureka, who was lost July 3, 1927, while her parents were camping at Bull Creek, in the Redwoods near here.

Archie Smith, tie maker, discovered the skeleton at Grass Hopper ridge, three miles from the place her parents camped last year. It was indicated the girl had crawled beneath a fallen redwood and had died of exposure.

PAIR HELD WITH STILL

HANFORD, Aug. 28.—In a raid on a fruit shed two miles south of town Sheriff Francis Kimes and deputies today discovered a copper still in operation and seized it with a small quantity of grape brandy and mash. Joe Ortis and Leonardo Limas were arrested.

JOHNSON LEADS BY WIDE MARGIN

Senator Renominated Easily Over C. H. Randall

Present Congressmen Also Are Victorious

Six Representatives Without Any Opposition

SAN FRANCISCO, Aug. 28. (AP)—Senator Johnson held an overwhelming lead over his Republican opponent for the Senatorial nomination, Charles H. Randall, in the California primary when the returns were tabulated tonight. The vote from 4088 precincts of the 9082 in the State gave: Johnson, 175,206; Randall, 28,678.

Minor Moore of Los Angeles, the Democratic candidate for the Senate, was unopposed, he had polled 17,760 votes.

For the Prohibition party Senatorial nomination Wiley J. Phillips of Los Angeles had polled only 194 votes. Randall also ran on the Prohibition ticket and also had 194.

ELEVEN ELECTED

Lena Morrow Lewis of San Francisco, the Socialist Senatorial candidate, had polled a small vote.

Eleven Representatives in Congress also were nominated at today's primary.

Congresswoman Florence P. Kohn of San Francisco was unopposed for re-election in the Fourth (San Francisco) District. Other unopposed Republican Representatives were: Harry L. Englebright, (Second District,) Nevada City; Charles F. Curry, (Third District,) Sacramento; Richard J. Welch, (Fifth District,) San Francisco, and Phil D. Swing, (Eleventh District,) El Centro. Representative Clarence F. Lea, Democrat, of Santa Rosa, was unopposed for re-election in the First District.

Albert E. Carter was unopposed for the Republican nomination in the Sixth District, but was contesting for the Democratic nomination with Burton Hall. Returns from this contest were inconclusive late tonight.

Cecelia C. Casserly of San Mateo, a daughter of the late Michael Cudahy of Chicago, sought the Congressional nomination in the Eighth District. She opposed Representative Arthur M. Free on both the Republican and Democratic tickets. The vote from 110 precincts of the 709 in the Eighth Congress District gave: Casserly (Rep.) 1062; Free (Rep.) 3204, on the Republican ballots; Casserly (Dem.) 906; Free (Dem.) 893 for the Democratic nomination.

BARBOUR LEADING

In the Seventh Congress District 112 precincts out of 322 gave Henry E. Barbour 1015 votes on the Democratic ticket, while John H. Fairweather had 530 votes on the same ticket. Representative Barbour was unopposed on the Republican ticket.

In the nonpartisan judicial contests, Justice Joseph S. Koford had received 20,566 votes from 635 of the 2807 precincts in the First Appellate District for the presiding judgeship. His opponent, Frank T. Deasy, a San Francisco judge, had polled 16,325 votes.

Returns from all but three of San Francisco's 1003 precincts, for United States Senator, gave: Johnson, 45,760 and Randall, 4831.

SUPERVISOR FIGHT IN FRESNO CLOSE

FRESNO, Aug. 28.—In the principal contest of the primaries today, Robert E. Lockhead was leading by 300 votes out of forty-three precincts over Constable George E. Machen for Supervisor from the Second Fresno county district. Trailing them were James H. Chambers and B. C. Palen.

In the Third District P. H. McMurtry, incumbent, held a two-to-one lead in returns from twenty-two precincts over James B. Thompson. McMurtry succeeded Johnson four years ago when the latter resigned from the board.

For Assemblyman in the Fiftieth District, M. S. Meeker was leading on both the Republican and Democratic tickets. Charles Foster, incumbent, was running second, but was being pushed so closely by Mrs. Esther R. Goodrich on the Republican ticket that Meeker was conceded a strong chance to win. All are registered as Republicans and must carry their own ticket to claim election. Two others, Alex E. Nelson and James M. Thursen, were trailing.

For Assemblyman in the Fifty-first district, Z. S. Leymel, incumbent, had a two-to-one lead over Herbert McDowell, who opposed him on the Republican ticket. In the Fifty-second District, S. L. Heisinger held a good lead over Julian J. Neilson.

BOMBERS ABANDONED AS TRAINING SHIPS

SAN ANTONIO (Tex.) Aug. 28. (AP) With the abandonment today of the Martin bomber as a training plane for students of the bombardment section of the advanced flying school at Kelley Field, the last of the wooden type military airplane was eliminated from use at army flying schools here.

BAY REGION MAN HAS BUSY DAY

Runs for Assembly Same Day Wife Starts Divorce and Merchant Forgery Cases

BERKELEY, Aug. 28. (AP)—Reginald Johannesen was one of the busiest men in the bay region today.

He was running for Assemblyman, answering charges of neglect and cruelty in a divorce action started by his wife, and also answering forgery charges filed by W. A. Cassin, local merchant.

NEW DEAL PROMISED BY FITTS

District Attorney's Office to be Reorganized, Pledge of Elected Candidate

In a formal statement expressing appreciation for the landslide proportions of the vote that swept him into office as the next District Attorney in Los Angeles county, Lieut.-Gov. Fitts last night reiterated his determination to enforce the law vigorously and impartially during his incumbency as the county prosecutor. His statement, in which he announced plans for reorganizing the District Attorney's office follows:

"It is with a full heart that I learn of the confidence and faith that the citizens of my home have reposed in me today. In announcing the fact that I had agreed to become a candidate for District Attorney of Los Angeles county I stated that I had arrived at my decision with extreme reluctance.

"I know from the years I have spent in the prosecution of crime in this county of the tremendous and sacred responsibility that goes with that office. I know of the power of the underworld and I am aware of the continuous and tremendous drive made against the occupant of that office if he does his duty. But without any reservation whatever I will do my duty to the best of my ability.

"I go to the duties of that office without a pledge on earth, publicly or privately, except that I will personally observe the law and personally enforce the law. That is the oath I will take and the oath I will keep. This means that I will maintain a clean office and an honest office.

"I pledge that with all my strength and might I will attempt to reorganize the office of the District Attorney in order to equip it to meet without flinching the onslaught of the criminal element in our midst.

"It is my earnest hope and ambition to leave to the people of Los Angeles county a prosecuting office as efficient, honest and fair as is to be found in the United States. Each day I will prayerfully enter on the duties of my office in the earnest hope that my incumbency of the District Attorneyship will contribute something toward the protection of the lives and property of the honest, decent and law-abiding citizens of this county."

AMERICANS SEE ALIKE ON ARM

United States and Canada Stand Together

Protest Emasculated Plan League of Nations

Convention Offers Retrogression Step

GENEVA, Aug. 28. (AP)—The United States and Canada stand together today to obtain the widest possible publicity concerning the manufacture of armaments.

Their representatives, Hugh Wilson for the United States and Dr. W. A. Riddell for Canada, expressed their disapproval of a draft report to the commission now trying to frame a convention for control and manufacture of arms on the ground that it did not go far enough.

Both delegates favored giving the same publicity to arms manufactured by governments as that made in private establishments.

Dr. Riddell declared that countries depending largely on private manufacture should not be required to furnish statistics if corresponding data concerning government manufacture were permitted to withhold such figures. Mr. Wilson said he had grave doubts whether the American government would accept the publicity provisions as drafted. He said he thought the project might deem it a retrogression rather than a step in advance.

The draft provisions will be submitted to the Council of the League with observations attached and the Council and the Assembly must decide whether with the proper reservations differences of opinion should be referred to a conference for its discussion.

The amount of tonnage passing through the Panama Canal in the last overtopped that of the Suez Canal.

Fig Land

Growers say Chatsworth is one of the best fig locations in California. Four-year-old trees produce 2 to 3 tons to the acre at $150 a ton.

Deep soil—right climate—fine healthy trees—fine fruit—expanding market.

Fruit shipped as far as New York. Canned or pickled it goes everywhere. Two fig canneries here. Figs are a profitable crop.

We own 200 acres—use 60 for floriculture and bulb houses—from which we ship Asparagus Plumosus all over America. We will sell 150 acres that we do not need for our business—same soil as we are using. 1200 feet on S.P. Coast line track.

Very deep, rich, well-drained, alluvial soil. Abundance of cheap water.

Soil and climate excellent for Alfalfa, Baby Lima Beans, Kadota figs, Valencia oranges, Walnuts, deciduous fruits, vegetables, dairy business and poultry. Poultry very highly developed here.

On one side is a big poultry development—on another is the Mulholland orange grove—and on another 100 acres of Kadota figs. On our own we have 110 acres of alfalfa and balance in Baby Lima beans. All splendid and profitable crops.

Attractive location for residence. Value of investment in land here will grow rapidly.

Quick run to State University via Beverly Glen—and to ocean via Topanga. When S. P. tracks are moved we will have rapid transit to center of metropolis.

Shall be pleased to have your inquiry. Courtesy of agents.

ACCORD IN SIGHT IN RAIL DISPUTE

Settlement Announced by Mediation Board

Union Heads Sign Agreement on Western Lines

Ratification by Employees' Committees Needed

WASHINGTON, Aug. 28. (AP)—Differences between western railroads and employees organized in the Brotherhood of Railroad Trainmen and the Order of Railway Conductors are expected to be reconciled by an agreement announced here today by the United States Board of Mediation, which has been discussing the questions at issue with representatives of both groups since July 22, last.

The proposed settlement, details of which can not yet be made public under the law, must be ratified by the Association of General Committees on behalf of the railway employees before it goes into effect. A. F. Whitney, president of the Brotherhood of Railroad Trainmen, will present it to the association at a meeting in the Midwest in the near future. He signed it for his organization and E. P. Curtis signed it as president of the Order of Railway Conductors.

Announcing the agreement, Chairman Samuel E. Winslow of the board of mediation said denial of approval by the employee representatives would continue the dispute as heretofore, with it having "to be treated in accordance with law." He revealed, however, that the employee organizations have agreed to allow the board of mediation "a reasonable opportunity to proceed under the law so far as the calling of a strike before any further action has been initiated on the part of the employees."

Wages and working rules were the major questions involved in the dispute, which affected 70,000 employees of eighty railroads covering 98 per cent of the mileage west of Chicago. Proposals of the employees for pay increases ranging from 10 to 18 per cent brought an offer by the railroads for increases averaging 7 1-2 per cent provided that certain working rules be abandoned. While accepting the wage compromise the employees had declined to drop the working rules.

AUTO AND RADIO ROUT LODGE

Fraternal Organizer Sees Change in Tastes of Average Man

TIFFIN (O.) Aug. 28. (AP) Membership in fraternal orders is being hard hit by the automobile and the radio, according to State Senator Clark of Urbana.

"The former lodge man now takes his family automobile riding or remains home to listen to the radio instead of going to lodge meetings," Clark, State organizer for the Junior Order of United American Mechanics, said in his report to the State convention here today.

FEMINISTS IN FRANCE JAILED

(Continued from First Page)

nand, a French agitator for women's rights.

The women were released about 3:30 o'clock after all President Doumergue's guests had gone. They went back to Paris. Secretary Kellogg and Ambassador Herrick, as well as others of the President's guests, were unaware of the incident.

A group composed of Miss Stevens, Mrs. Pickering, Mrs. Swino, Miss Bunand, Maria Loschi of Italy, Miss Nini Plock and Mme. Van Hedern of Germany, with Mmes. Auscaler and Netter of France, arrived before the gates of the Presidential chateau jibt as Secretary Kellogg's car drove up. They unfurled a banner on which was inscribed: "We demand an equal-rights treaty."

One end of the banner was guarded by a woman holding an American flag and another woman with the French colors was on the other extremity. A police officer on duty at the Rambouillet chateau made a running jump and grabbed the banner, handing it to a gendarme and ordering the group of women to disperse. The women stood their ground and the officer confiscated the flag, repeating his order that they move on. The answer this time was a forward movement toward the chateau gate. Another plain-clothes man came up, put his broad chest in the way and the advance was checked. Thereupon the officer demanded the occasion for what he called "this most untimely and ill-advised manifestation."

ORDERED ARRESTED

Miss Stevens replied that the committee on international action of the National Woman's party of the United States, of which she is chairman, was bent on seeing President Doumergue and presenting to him a proposed treaty to establish the equality of men and women throughout the world.

"Who are you and where do you come from?" the officer asked.

"From America, from England, from Germany, from Italy and even from France," was the reply.

"Well," retorted the officer, "let those not French understand that one does not call on the President of the republic in this manner. Let them take their banners and unfurl them at home if they want to, but they cannot be tolerated here."

The result of this was another vigorous push toward the gate, thereupon the women were asked for their identification papers. Miss Stevens and Mrs. Pickering had left theirs at home.

"Take them to the police station," was the order.

Miss Stevens and her colleagues communicated their plight to friendly spirits outside through a window. Refreshments were smuggled in and by the same means the feminists made known their side of the case. They complained that the officers manhandled them and showed black and blue marks on their wrists and arms to prove excessive energy on the part of the gendarmes and detectives.

RADIO REPLACES DIVINER'S ROD

Locates $100,000,000 Worth of Oil Fields

Minnesota Professor Says Wildcatting Obsolete

Industry Seeks Permits for for Sixty Stations

BY MARTIN CODEL
[Copyright, 1928, by North American Newspaper Alliance.]

WASHINGTON, Aug. 28. (Exclusive)—New oil fields valued at $100,000,000 have been discovered in California and in several Gulf States through the medium of radio, according to Prof. C. M. Jansky, Jr., in charge of radio work at the University of Minnesota. The Minneapolis man was in Washington today to urge favorable action by the government on sixty applications for construction permits for radio stations to be used by the oil industry in connection with geophysical explorations.

The day of "wildcatting" is becoming a thing of the past due to more systematic study of the earth's structure to determine its compositions and to locate mineral deposits. "The geologist and the engineer," said Mr. Jansky, "are rapidly replacing the man with the divining rod." The success already achieved with radio in locating petroleum deposits was said to hold great promise also for finding other mineral substances like iron and copper.

METHODS EXPLAINED

Radio is used in geophysical exploration in two ways, according to Prof. Jansky. It is used to transmit time signals in connection with seismic waves, that is, for the purpose of timing the occurrence of some phenomenon such as the instant of an explosion. This is the method in extensive use today, and this is the method which a representative of one of the largest oil producing companies in the country said was responsible for discovering at least thirty "salt domes" with a value of $50,000,000 in Texas, Louisiana and Mississippi.

The other method is the transmission of radio energy through rock structures to observe the field of force created. The geological character of the territory may be determined by the behavior of the waves. Prof. Jansky says this method holds great promise but is still in an experimental stage. Prof. Jansky is particularly interested in explorations to be conducted near Bakersfield.

Petroleum frequently is found adjacent to "salt domes" which Prof. Jansky describes as "material of a given geological structure protruding upward and having the general conformity of a dome."

SOUND WAVES TIMED

The method by which geologists and engineers locate these domes, even though they may be 3000 feet below the surface of the earth, is based upon the knowledge of the varying velocities with which a sound wave or shock travels through the earth. Sound travels about 1080 feet per second through the air and 6000 feet per second through ordinary rock near the surface of the earth, but through a salt dome the velocity is sometimes as high as 16,000 feet per second.

Dynamite explosions cause compression waves whose velocity is measured by means of the seismograph. The exact timing of the speed of the sound waves can only be computed, however, by means of automatic radio signals timed with the dynamite charge and received at the known radio velocity of 186,000 miles per second at the receiving location. Calculations by the engineers can quickly show whether the sound wave velocity is greater than 6000 feet per second. When it is, the natural assumption is that during part of its course, at least, the wave has passed through a salt dome formation. A complete "size-up" of a particular field is obtained by repeating the experiment in changed locations until a given area has been thoroughly surveyed.

Bank Bandits Kidnap Cashier

SHIDLER (Okla.) Aug. 28. (AP)—Harold Bobbit, cashier of the Shidler National Bank, was kidnaped by two bandits who robbed the bank of $2000 today.

Mrs. Tweed and Count Married

Not for Steve Brodies

Steve Brodie achieved notoriety by jumping off Brooklyn Bridge and not drowning.

We have nothing to offer the man or woman whose financial philosophy is "*Steve Brodie took a chance, why shouldn't I?*" *But for the saver who wants to build up his capital* with increased speed and proper safety—we offer a time tested method that is simple and convenient.

CONSIDER THESE FACTS:

Three generations of Californians have placed their savings in this institution. No saver has ever failed to get promptly every due dollar.

Today more than 33 thousand discriminating savers, after investigation, have chosen Pacific States Savings.

This number includes not only individuals but firms and corporations, title insurance companies, insurance companies, banks, and other institutions with excellent facilities for determining where safety lies.

Of course, you prefer 6% if you can get it without sacrificing safety. Write for our booklet "Our 40th Year"—and read the simple facts that have actuated so many thousands of others to become Pacific States Savers.

6% Age Strength Safety

Simple and Convenient:—Save as you please. Stop when you please. No entrance or withdrawal fees. Convenient withdrawal facilities. Interest starts at once.

Agnés Creates the 1928 Poke Hat

Featuring French Soleil in New Rich Tones

MADAME Agnés, whose millinery innovations are eagerly awaited each season by women of recognized chic, has designed a soleil poke that is not only supremely wearable, youthful and flattering, but is a triumph of smart sophistication.

Replicas Made in Our Own Work Rooms

A HOME . . .
with the kindly touch of years . . . in
MIRAMAR ESTATES

ONLY the years can trail the ivy about our casements. Only time can breathe into walls and niches and nooks that immortal soul called Memories. But what havoc time has wrought with the average American home and its setting? Only too often, grime and soot besmirch the walls, and encroaching commercialism camps at our very door steps.

In Miramar Estates you may build for the ages. The circumstances which everywhere else cause people to build and sell and build again, simply do not exist here. Everything is permanent. Everything is lovely. Everything is conducive to establishing a hearthstone that will endure for generations.

In Miramar Estates your children and your children's children may dwell by the ocean's side. Here, in the decades to come, the wooded hills and romantic canyons will possess the same irridescent charm that you even now may enjoy. Here, amid wholesome surroundings, and guarded by far-seeing restrictions, you may endow your home with the personality which time alone can develop.

Little by little, estates are being released to desirable citizens whose position and personality will perpetuate the exacting standards expected of such a splendid residential community.

MIRAMAR ESTATES No. 43
110 feet facing toward the ocean $7,000, unobstructive view forever. $35,000 home under construction on adjoining estate

TO REACH MIRAMAR ESTATES, drive out Beverly Boulevard to the entrance, 500 feet from the ocean.

RASKOB TO BID FOR CORN BELT

He Plans to Stalk Midwest With $500,000 Fund

Kernel of Idea Disclosed as He Visits St. Louis

Democrats Now Expect to Spend $4,000,000

ST. LOUIS, Aug. 28. (AP)—The Democratic party will spend $500,000 in a drive for support in ten corn belt States and $600,000 in radio campaigning, John J. Raskob, chairman of the Democratic National Committee, said here today. Raskob and a number of other party leaders were here for conferences with leaders from eight Middle Western States.

The budget of the National Democratic Committee, Raskob said, calls for $4,000,000. This is an increase of $1,000,000 over the budget announced in New York July 26, he said.

"The Republicans have set their goal as from $3,000,000 to $4,000,000, but I have information that it is between $6,000,000 and $8,000,000," Raskob said.

Turning to farm relief, Raskob said the East "has never understood the farm problem."

"I have never met a man, including myself, who understood the McNary-Haugen bill," he said. "Gov. Smith has arranged for a survey of the problem by a capable economist and, if elected, he will be able to recommend an agricultural program which will win the support of the East and the applause of the West."

PROFESSOR'S WIFE DIES

PALO ALTO, Aug. 28. (AP)—Mrs. Margaret H. Elmore, 66 years of age, wife of Prof. Jefferson Elmore of Stanford University, died at her home on Stanford campus last night.

PARTY WOMAN LABELS 'AL'

BIRMINGHAM (Ala.) Aug. 28. (AP) "Al Smith, Bowery wet," and "Herbert Hoover, bone dry," were the subject of word pictures painted before a meeting of the Jefferson County Women's Christian Temperance Union today by Mrs. Jesse W. Nicholson of Chevy Chase, Md., president of the National Women's Democratic Law Enforcement League.

Mrs. Nicholson said she spoke as one of the thousands of Democrats branded by party leaders as "bolters."

"We did not bolt," she declared. "We were deserted and we mean to oppose the cause of our desertion, Tammany's candidate, Gov. Smith. We do not think he is a Democrat. He is a believer in privilege and a Bowery wet trying to pose as the Right Honorable Thomas Jefferson under the sublime patronage of 'Tammany the corrupt.'

"We believe he is the incarnation of the forces of nullification and a betrayer of the Eighteenth Amendment and as Governor of New York has been the consistent servant of the liquor interests."

Asserting that Tammany Hall has "opposed every Democratic candidate for the Presidency since the days of Samuel J. Tilden," Mrs. Nicholson charged that "Tammany organized the wet minority and captured by secret diligence the undefended precinct caucuses, the county and State conventions and last the Houston convention, while the unorganized majority was in attentive and asleep.

"Tammany believes in stealing, trading, buying and selling elections and now has the impudence and audacity to thrust upon the people a candidate and demand that the Democrats support their sachem or be read out of the party.

"As a southern woman and a Democrat, I beg you to lay aside party fealty and stand for your home, your children and your country by voting against Alfred E. Smith, Tammany's candidate."

SMITH PLAN ON BOULDER DAM SCORED

Swing Asserts Democratic Nominee Would Scrap All Completed Work

EN CENTRO, Aug. 28. (AP)—Representative Swing, one of the authors of the Swing-Johnson bill for construction of Boulder dam on the Colorado River, in a statement here today strongly condemned the stand taken by Gov. Smith, Democratic Presidential candidate, on development of the river.

"I am greatly disappointed in Gov. Smith's announced position on the Boulder dam problem," said Swing. "His proposal is nothing short of scrapping all the work that has been done to date. He definitely proposes to withdraw the Federal government and turn the entire problem back to the seven basin States.

"He proposes a new seven-State treaty as the basis of any development on the river, ignoring the fact that for five or six years past the same States have been deadlocked and unable to reach any agreement on this very same subject. With an ignorance of the project that passes understanding he declares that the Federal government's only interest is in the matter of navigation.

"He thus denies any and all hope of the Imperial Valley and the Lower Colorado River basin obtaining Federal relief from their flood menace, thus discriminating between the treatment he is willing to accord the Mississippi River and that which he recommends for the Colorado. There is only one thing for the friends of Boulder dam to do, and that is to support Herbert Hoover for President."

CURTIS POINTS TO FARMER AID

Republicans Stated to Have Helped Agriculture

Various Measures Cited in Syracuse Address

Democrats' Attitude Draws Fire of Nominee

SYRACUSE (N. Y.) Aug. 28. (AP) Republican efforts on behalf of agriculture in the party's seven years of post-war administration were detailed today by Senator Curtis, the Republican Vice-Presidential nominee, and compared with the position of Democrats in Congress, particularly on the tariff.

Speaking at the invitation of the American Farm Bureau to a New York State Fair assemblage, the Kansas Senator confined his prepared remarks principally to the agricultural situation. He cited the passage of the Emergency Tariff Act, the extension of farm credits through the Intermediate Farm Credit Act of 1923 and through the War Finance Corporation and the enactment of legislation authorizing organization of co-operative associations, as among the accomplishments of the Republican administration.

TREATY PRAISED

The nominee also praised the Kellogg treaty for the renunciation of war which was signed yesterday in Paris, predicting its general approval in this country and adherence to it by every nation in the world. As Republican leader of the Senate, Senator Curtis will be called on next session to ask formal ratification of the pact.

"The peoples of the world are happy today," he said, "because upon yesterday the representatives of fifteen nations approved the Kellogg plan and signed a treaty renouncing war. It is a splendid treaty for it creates no burdens and involves no entanglements. It is based upon and supported by public opinion.

"The peoples of the world are anxious to stop wars and I feel sure that within a short time every nation in the world will adhere to the treaty. With the great powers renouncing war the smaller nations will be willing to keep out of wars.

"It will be generally approved in this country because from the earliest days in our history our government has favored the employment of arbitration for the settlement of international disputes."

FARM RECORD

Taking up the record on farm legislation back in 1918 when the Republicans won control of Congress, the Senator described the condition of agriculture then as "acute" and requiring "quick relief." He recalled passage of the Emergency Tariff Act and its veto by President Wilson. He told of the act extending farm credits through the War Finance Corporation and of the veto of it by President Wilson.

"When President Harding came into office on March 4, 1921, he and the members of the Cabinet and Republican members of Congress realized that early action on legislation to relieve the farmers should be had," he declared, "so the Emergency Tariff Act was passed and signed.

"In the Senate only seven Democrats voted to increase the duty on wheat from 30 to 40 cents a bushel. While thirty-one Republicans voted for the increase only two Republicans voted against it and twenty-six Democrats voted against it. Only nine Democrats voted for the final passage of the Emergency Tariff Act and thirty-four Republicans voted for it. Twenty-six Democrats and four Republicans voted against it.

"That the Emergency Tariff Act was of great help to the farmers and stockmen was certified to by every man interested in farming and stock raising who appeared before the Committee of Finance during the hearings on the Fordney-McCumber tariff bill in 1922. That it was disliked and considered injurious by those who were importing farm products was shown by the testimony of all the importers of such products and by those of other countries who raised farm products to export to this country.

"Soon after President Harding was inaugurated a law was enacted authorizing the War Finance Corporation to extend further credits to aid in carrying and disposing of agricultural products and to provide credit for agricultural purposes. There was much complaint on the part of the live-stock producers of the country against the packers, and after careful consideration the Congress enacted a law to regulate interstate and foreign commerce in live stock and dairy products, poultry and eggs. This has proved to be a wise, sound and sensible law.

"A measure authorizing the organization of co-operative associations of producers of agricultural products was passed.

OTHER LEGISLATION

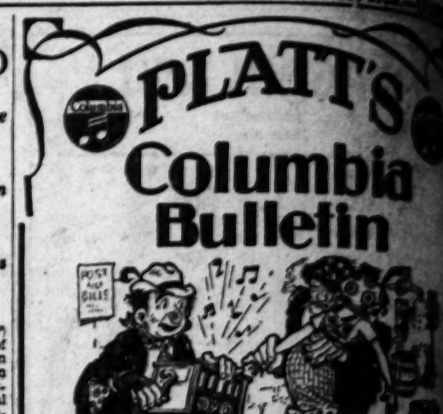
"The Farm Loan Board was unable to meet the demand upon it for loans and I introduced a bill authorizing the government to purchase $50,000,000 of the bonds which enabled it to resume loaning on farm property. This bill was passed and signed by President Harding, thus increasing their working capital.

"The act on March 4, 1923, to provide credit facilities for agriculture and live-stock industries is of the greatest importance, and puts the agricultural producers for the first time on an equal footing with other industries in regard to credit facilities. Under the law the loan limit of the Federal Land Banks was limited to $10,000. This was increased to $25,000.

"The Intermediate Farm Credit Act of March, 1923, gave to the farmer longer credit, and provided for loans on stock, crops and to co-operative associations. Twelve intermediate credit banks were established just as there were twelve Federal Reserve and Twelve Farm Loan banks."

YELLOWSTONE TRAVEL PASSES 200,000 MARK

LIVINGSTON (Mont.) Aug. 28. (AP)—Tourist travel to Yellowstone National Park has passed the 200,000 mark this season, figures compiled by the park authorities show. The total to date is 200,060, or 25,000 more than last year at this time.



"Sidewalks of New York"

That old favorite—everybody's humming it again! And you'll like the way the Shannon Quartet (not old new York name, that) sings it. Marvelously recorded on Columbia—made the new way, electrically—the records without scratch. On the reverse side the quartet sings "On the Banks of the Wabash, Far Away."

International Society *makes the* Blindfold Test

MILLICENT, *Duchess of Sutherland* chooses OLD GOLD

WHILE having tea with several American friends, someone suggested that it would be amusing to try the blindfold cigarette test, now so popular in America. I volunteered as the subject, and while blindfolded, smoked the four different makes of cigarettes . . . each brand making its appeal "incognito." Without the least hesitation, I named Cigarette Number 3 as the best—and it proved to be an OLD GOLD. I am not at all clairvoyant, nor am I a particularly good guesser. I identified my favorite cigarette, OLD GOLD, because its delightful smoothness and coolness immediately distinguished it, to my taste and throat, from the other brands.

Millicent Sutherland

MILLICENT, DUCHESS OF SUTHERLAND, daughter of the Earl of Rosslyn. She is deeply interested in social questions, and is widely known as a writer of notable books and plays. She is one of the most brilliant and active women in England.

The Duchess made the blindfold test at *La Maison du Monastere*—her beautiful country place in France. The Duchess was asked to smoke one each of the four leading American brands, clearing her taste with coffee between smokes. Only one question was asked: "Which one do you like best?"

© P. Lorillard Co., Est. 1760

What is this quality that tells . . . even in the dark?

OLD GOLD'S *honey-like smoothness* . . . that's the net of it. But this cool and fragrant charm can come only from the *heart-leaves* of the tobacco plant. No heavy, coarse *top-leaves* . . . no withered *ground-leaves*. That's why OLD GOLDS are different, *better* . . . why you can pick them with your eyes closed.

Made from the *heart-leaves* of the *tobacco plant* . . . . . .

SMOOTHER AND *BETTER*—"NOT A COUGH IN A CARLOAD"

...y to Carry Fight to ...ew York State

... Confer on Getting Eastern Vote

...ngland Grateful for ...oreign Trade Tips

...ERT R. ARMSTRONG
...Times" Staff Correspondent
...SHINGTON, Aug. 28. (Exclu-...Herbert Hoover tomorrow ...ce with eastern and west-...publican leaders in an at-...to plan an intensive sixty-...s of the campaign begin-...Saturday.

...ot only will confer with the ...l heads of the party organi-...ed with Chairman Work and ...e of the speakers' bureaus ...ready, as well, the plans for ...mpaign in New York State. ...fidence on the New York ...n is here regarded as of the ...portant on the week's pro-...m. Hoover will go over the ...state war map with H. Ed-...Mitchell, the new State ...n of New York, and William ...r, chairman of the Hoover-...Campaign committee of New ...k. The conferences will tend to ...rdinate all activities and result ...whirlwind campaign to get out ...Republican votes. Hoover him-...will make one or more speeches ...New York State about October 15.

...ERENCES ON PROGRAM

...The general questions of ...ical matters will be discussed ...day by R. B. Nutt, treasurer of the ...Republican National Committee, ...ho will come from Cleveland, O., ...Colonel Milbank, the eastern ...easurer, who will come from New ...k, and the western treasurer, ...Frank W. Merriam, formerly head of the ...Los Angeles State Chamber of Com-...rce.

...Besides Chairman Work, James ...Moffett, manager of the Chicago ...Tribune, and Representative ...Simmons, manager of the eastern bu-...au of speakers and Representa-...tive Ossian Sweet of Minnesota, chair-...man of the western speakers' bu-...reau, will map out a barrage of cam-...paign speeches east and west. ...Tomorrow Hoover will hold his ...first newspaper conference at 3 ...o'clock in his new personal head-...quarters in the Moran house at ...1727 Massachusetts avenue. It was ...the home of the Chinese delegation ...to the peace disarmament con-...ference in 1920 and is owned by a ...prominent Democratic woman, Mrs. ...Evalyn Walsh McLean.

...HOUSE NOT READY

...The Massachusetts-avenue resi-...dence was leased for Mr. Hoover ...before it became apparent that the ...Republican house, tendered to the ...Republican nominee by the late ...Mrs. A. Pellingham, before his ...death, would not be available for ...occupancy.

...It has been decided that Mr. ...Hoover will not deliver a Labor ...Day address, as had been suggested ...earlier. He desires to keep his pro-...gram of speeches for at least ...two weeks. Later on in the cam-...paign he probably will deliver a ...number of particular interest to ...labor.

...Among eastern leaders, among ...whom John S. Richardson of Bos-...ton was in charge of the pre-...liminary campaign for Mr. Hoov-...er, Massachusetts, are expected ...later in the week to go over ...the program for thorough co-ordi-...nation of the efforts of all the Re-...publican groups in the East.

...The country districts of Pennsyl-...vania, which hold the balance of po-...litical power over the cities, are ...already aroused for the first time ...in years and will cast a heavy vote ...for Hoover, according to Repre-...sentative McFadden of Pennsylva-...nia, who called on Chairman Work ...today.

...DEMOCRATS RIDICULED

...Mr. Hoover ridiculed the Demo-...cratic hope that the vote of Philla-...delphia and Pittsburgh will over-...come the usual large Republican ma-...jorities in Pennsylvania.

..."Pennsylvania will be organized ...as never before in this campaign," ...said the Pennsylvania Representa-...tive. "We will have every county ...in the district organized and expect ...to cast the heaviest vote in the ...state's history.

..."Under the leadership of the ...Governor changes the farmers of Penn-...sylvania are looking to Hoover to ...solve the farm problem. There is no ...farm problem in Pennsylvania. Our farm-...ers realize that Hoover is the man ...best suited to take care of their ...farming problem.

..."Perhaps the greatest appeal for ...support made by the Republican ...party and its nominee is the pro-...tective tariff. Our State is almost ...solid for the protective theory. We ...know that we need it for the pro-...tection of our people and our voters ...have no desire to give up a party ...that has a candidate pledged to this ...principle for a party and a candidate ...many of whom profess to be newly ...converted. There is no assurance ...that under the Democratic party ...the candidate can adhere to the ...protective-tariff theory if they ob-...tain control of the government. We ...have not forgotten the similar prom-...ises made in the Cleveland cam-...paign and the resulting free-trade ...laws that were brought before Con-...gress and passed under Democratic ...leadership.

...STATE OWES DEBT

..."Massachusetts realized its debt ...to Hoover the Republican vote in ...that State would be nearly unanim-...ous," Representative Rogers told ...Chairman Work. The Massachu-...setts woman Representative urged ...the pressing of Hoover's work for ...the industries of Massachusetts as ...Secretary of Commerce, declaring ...that if this were generally known ...the State's debt of gratitude would ...be paid promptly and with interest. ...Hundreds of thousands of dol-...lars of new foreign business has ...been brought to Massachusetts ...through the activities of the trade ...commissioners of the Department of ...Commerce sent out by Secretary ...Hoover to the far-flung markets of ...the world," said Mrs. Rogers. "The ...shoe industry, the boot and shoe ...industry and the hide and leather ...industry have developed new world ...markets of which they had never ...dreamed until Secretary Hoover ...showed the way. I know of this ...personally because it is one thing to ...listen I have given particular atten-...

ROY WEST PULLS MEAN TRIGGER

Secretary Scores 100 Per Cent in Match With Coolidge—He Just Shot Once

SUPERIOR (Wis.) Aug. 28. (AP)—Roy O. West, newly appointed Secretary of the Interior, established a real trap-shooting record today. He scored 100 per cent in a competition with President Coolidge. But Secretary West is extremely modest about it.

"You see," he said, "I only shot once. It hit the darn thing so I thought I'd better call it a day. I didn't want to impair my amateur standing."

Our industries were economically sick immediately after the World War. We needed a doctor and we went to Secretary Hoover. He diagnosed our ailment with the perception of a genius and brought about the salvation of these industries by developing new markets."

WORK TO VISIT MAINE

Secretary Work, on invitation of State organization leaders will confer with Maine leaders at Augusta, Saturday. Chairman Work will meet with National Committeeman Joseph W. Simpson, National Committeewoman Mrs. Guy P. Gannett, State Chairman Daniel F. Field, Vice-Chairman Mrs. Eva C. Mason and the thirty-two men and women members of the Maine State Committee and the thirty-two county committeemen and women. Gov. Brewster, Hon. William T. Gardner, Republican candidate for Governor; Senators Hale and Gould, Representatives Beedy, White and Nelson, Donald F. Snow, candidate for Congress in the Fourth District, and other Maine Republicans who have been active in the conduct of the campaign.

On his visit to Maine, Chairman Work will be accompanied by Franklin W. Fort, secretary of the Republican National Committee and Earl H. Kinsley, national committeewoman from Vermont, assistant to the chairman. Following the conference, Chairman Work will return to Washington. Secretary Fort will remain in Maine to deliver a series of speeches and Mr. Kinsley will go to Vermont for a conference with the Vermont State Republican Committee.

Hoover Sure of Wyoming, Says Leader

NEW YORK, Aug. 28. (AP)—Wyoming was claimed for Herbert Hoover today by L. C. Hinkle, Republican State chairman of Wyoming. The tariff and dry issues, he said, will give the Republicans a majority.

"Everything produced in Wyoming needs the protective tariff," he said, adding that in his opinion the Republicans are the only ones who can be trusted to keep it on the books.

"The people of Wyoming will not be fooled by opposition party promises to keep their hands off the protective tariff."

"Wyoming will vote dry," he asserted, and closed his statement with a declaration for cutting immigration "down to the lowest point possible."

Davis Back to Stump Midwest as Hoover Ally

SEATTLE, Aug. 28. (AP)—Secretary of War Davis announced here last night that he will take the stump for Herbert Hoover through the Middle West.

"It will be a hard fight, but I am sure we will win," he said. "The campaign will be decided on Hoover's qualifications and his strong appeal to the women voters."

Secretary Davis arrived aboard the battleship Pennsylvania from Honolulu yesterday afternoon accompanied by his two daughters, Alice and Cynthia.

Secretary Davis expects to leave tonight for Washington, where he will remain until called into the field to campaign for Mr. Hoover.

SMITH ALL AT SEA ON ITINERARY

Nominee Has Not Decided Where or When He Will Start on Stumping Tour

NEW YORK, Aug. 28. (AP)—As he shapes up plans for his Presidential campaign stumping, Gov. Smith is keeping in mind a lesson he believes many a candidate for public office in the past has learned to his sorrow—it's unwise to disappoint crowds.

And it is this conviction, coupled with a desire to cover as much ground as possible without dissipating his strength and voice, that is making it difficult for the Democratic nominee to determine just where he should go and how many speeches he should deliver.

August is almost gone, and his plans are still in the making. He disclosed to newspaper men today that his managers are preparing three tentative itineraries, and he said that until he can size them up it will be impossible even to announce where he will strike first.

MINING MAN SUCCUMBS

WILMINGTON (Del.) Aug. 28. (AP) Word was received here today of the death in Cape May, N. J., Sunday of J. Harvey Whiteman, 84 years of age, who for many years was president of the Tonopah Mining Company.

Majestic RADIO
was the sensation of the
San Francisco Radio Show

THE thousands of radio enthusiasts who attended the Radio Show held in San Francisco's great Civic Auditorium last week saw Majestic All Electric Radio "steal the Show." Never before in the history of the radio industry has so much interest been shown in the product of a single manufacturer.

In Los Angeles, next week, the great Radio Exposition sponsored by Radio Trades Association of Southern California will be held in the Ambassador Auditorium. You should, if you are interested in seeing the great strides made by the radio industry, attend the Los Angeles Radio Show. There the latest radio developments will be on exhibition. There will be entertainment every minute. Kenneth G. Ormiston, Technical Editor of Radio Doings, will demonstrate Television. Your favorite radio stars will appear in person.

It will be the greatest and most instructive radio exposition ever held on the Pacific Coast. You'll be interested in the new sets presented for your approval.

Listen In
Majestic Concert Orchestra
K.H.J
8 TO 9 THURSDAY NIGHT

We urge you to come and see them . . . to see for yourself what is new in radio.

It is only natural that Majestic All Electric Radio, the sensation of the radio industry, should command attention in the Los Angeles Radio Show as it did in San Francisco. The unparalleled popularity of this "much talked about" radio will cause people to literally swarm to the various Majestic exhibits. And, after they have seen Majestic radio, heard the amazingly life-like tone of the now famous Majestic Dynamic Power Speaker . . . compared Majestic, part by part, with other receivers on display, and then inquired its cost, they'll KNOW why more than 60 carloads of this new radio have been sold in less than 3 months.

The Times Free Information and Resort Bureaus

MAIN OFFICE—CORNER FIRST AND BROADWAY

are for the accommodation and benefit of persons seeking interesting routes of travel, desirable hotels or rest, recreation and recuperation at seashore, mountain or desert hotels and resorts. Particulars are furnished by competent attendants and by correspondence to the general public regarding rates and attractions of railroad and steamship lines, motor stage lines, travel by air, hotels and pleasure and health hotels and resorts. Descriptive circulars and transportation literature are kept on hand for inspection and distribution. This service is absolutely free.

Make Your Resort and Hotel RESERVATIONS

FREE OF CHARGE AT THE

Times Information and Resort Bureau, Times Bldg., Bdwy. at First St., or at The Times Branch Office, Information and Resort Bureau, 621 South Spring Street. Telephone MEtropolitan 0700.

"Direct-U"

Have you had difficulty in finding some particular advertised product? Have you had to hunt from store to store to find something you had seen advertised? The Times has established a new department, called "Direct-U," which has collected data about thousands upon thousands of trade-named (advertised) products and stands ready to tell you just where you can find the thing you want.

The Times is glad to help its readers and advertisers through this new service—so make free use of it—there is no charge, of course.

All you need do is phone the Los Angeles Times—MEtropolitan 0700—and ask for "Direct-U" Department.

Resorts

Give yourself 2 weeks like this!

AND HOW YOU'LL EAT & SLEEP!

SWIM • DANCE • KODAK • LOAF • HIKE • FISH • RIDE •

Ride, fish, hike, climb, swim at Yosemite. Relax in mountain sunshine, and loaf! Enjoy the open-air concerts and the famous nightly firefall. Then how you'll eat and sleep, at Camp Curry, Glacier Point Hotel, or the luxurious new Ahwahnee!

Dangerous Age Put at 18 in Maternity Record

CHICAGO, Aug. 28. (Exclusive)—That the home girl is confronted by the same moral hazards as the working girl but is more susceptible to them is shown in the results of a survey of women's social work carried by the Salvation Army. The results were made public today by Lieut.-Col. Annie J. Cowden, who is in charge of the organization's work in the central territory.

Of the women who come under the supervision of the institutions maintained by the Salvation Army the greater percentage come directly from the shelter of the home or home influence.

DANGEROUS AGE

From the limited scope of the work these conclusions were made:

The dangerous age is 18.

The home itself in many cases is fraught with the greatest moral hazards as proved by the revelation that more home girls, school girls and domestic servants were found to have given birth to illegitimate children than the members of any other class.

The study, which covered a six months' period, is based on the record of the occupations, ages and numbers of girls and women admitted during that time to midwestern Salvation Army home and maternity hospitals.

MATERNITY CASES

Out of 653 cases admitted as maternity cases, the survey shows that the ages ranged from 10 to 33. The greatest number, an even 100, were girls 18 years of age.

The report shows these figures regarding the different occupations:

Two cooks, three beauty parlor assistants, three electrical operators, four seamstresses, four college girls, five laundresses, nine teachers, eleven nurses, twelve telephone operators, twenty-two clerks, thirty-five office workers, forty-five factory girls, sixty-one waitresses, 110 school girls, ninety-nine home girls, and 214 maids and other domestics.

Calles Calls Governors to Hear Address

MEXICO CITY, Aug. 28. (AP)—Explaining the arrival in Mexico City of military governors from all the States, Secretary of the Interior Cortes Gil said they were invited by President Calles to be present at the opening of Congress and hear his last address as Chief Executive. Civil governors of the States also will be present.

El Universal says it has learned in authoritative circles that the President's speech will be of the utmost importance. He will deal with the problems arising from Gen. Obregon's death and appeal to the military leaders to find a solution to the question of succession to the Presidency, the paper says, urging them to do so with patriotism and disinterest.

Walker Leaves Fortune in Art

MINNEAPOLIS, Aug. 28. (AP)—A valuation of $1,620,000 was placed on the estate left by T. B. Walker, pioneer Minneapolis lumberman and at one time rated as one of the richest men in the country. Under the terms of the will, filed for probate here today, the estate will be divided among five sons and a daughter.

The Walker Art Institute which houses the famous Walker art collection, built up through sixty years of effort, is left in the hands of a corporation. According to Josiah E. Brill, in charge of probating the estate, the collection is valued at $100,000,000.

The five sons and the daughter who will share in the estate are Gilbert M. Fletcher, Willis J., Archie D., and Clinton B. Walker and Julia W. Smith.

KNELL SOUNDED FOR TAX SYSTEM

Riley Says California Will Change Method

New Way to Assess Utilities and Business Sought

Action Expected After State Commission Reports

SEATTLE, Aug. 28. (Exclusive)—Abandonment of what he terms the present vicious State system of taxing public utility and other corporations surely will result when the findings of the California State Tax Commission are reported to the 1929 Legislature, States Controller Riley predicted in an address before the National Tax Association here today.

Riley's prediction was the high point in his review of the tax system, with the defects attendant upon its revision, which included a discussion of the tax muddle to be considered at the special session of the California Legislature on September 4, next.

INEQUALITIES ARISE

Referring to the so-called inequalities that have grown up under the present tax system, Riley said:

"Substantial changes have occurred in the development of utility properties since 1910, and a gross receipts tax that accomplished substantial equity then must of necessity grossly discriminate now. The change in rate from 4 per cent in 1910 to 7 per cent in 1921 intensifies that discrimination.

"An attempt to equalize the burden of taxation as between those who now pay upon a gross receipts basis would necessitate as many classifications as there are individual corporations paying the tax, an admittedly absurd program if carried into effect. It is probable that many utilities are unaware of the precise situation or perhaps they prefer to suffer known injustices to those that may be imposed.

EQUALIZATION IMPOSSIBLE

"Concretely stated, the gross receipts tax cannot equalize as between like corporations paying the tax, and it is not susceptible of equalization as between nonoperative and operative property, nor can if equalize as between classes of utilities.

"In discussing the effect of separation upon nonoperative property certain developments not directly bearing upon the subject must have attention.

"We have found that it is impossible to ignore the relative burden as between the utilities and common property, notwithstanding the acknowledged fact that utility taxes appear in the rates for service and in many instances the utilities are convenient tax collectors for the State.

"The people demand equality of burden and, as before stated, the present system does not contemplate equality. Moreover there is no ready method of determining equality of burden; nor is there any relation between the value of property taxed and a tax upon gross receipts; nor does the gross receipts tax relate in any fashion to net income.

LEADERSHIP LOST

"Through the operation of this system we have lost all leadership in tax matters. The Federal courts have ruled that the measure of the State tax was in substance the needs of the State, irrespective of the burden on common property, provided the rates were not in fact confiscatory; therefore, there was no necessity on the part of the State to make comparative studies and ascertain the burden of taxation as between the two groups of taxpayers.

"The board of equalization, which formerly had officiated as a centralized authority, having been relieved of practically all its duties as a result of the separation, there remained no agency of State government definitely charged or concerned with State taxes. Each county levied an assessment according to its local ideas.

"As a result of separation of sounce we have degenerated into fifty-eight independent taxing units without ability to make comparisons of any kind or nature. Fortunately counties have, in the main, competent assessors who have exercised sufficient courage without centralized authority to sustain their action, thereby preventing a complete breakdown of the entire tax structure."

MILAN GREETS NOBILE

MILAN (Italy) Aug. 28. (AP)—Gen. Umberto Nobile, commander of the Italia expedition, was warmly greeted by a large crowd at the railway station today on his arrival at this city, which furnished the funds for his North Pole flight.

ANGRY HUSBAND ADMITS KILLINGS

Sacramentan Confesses Two of Four Slain by Him

Police Hope to Link Him to Shooting of Others

Wife Getting Divorce Places Blame on Jealousy

SACRAMENTO, Aug. 28. (AP)—Asserting they have gained from him the admission that he shot two of the five men killed or wounded here last night, the police and District Attorney's office endeavored today definitely to link Percy Barnes, 35 years of age, railroad employee, as the perpetrator of the entire bloody affair.

The authorities declared Barnes admitted killing Clarence Muncy, railroad employee, said to have been the intended husband of Barnes's wife, who is getting a divorce. The police likewise said that Barnes admitted shooting to death Charles Curtis, his brother-in-law.

As for the other three victims, Charles Klein, Barnes's brother-in-law; Leonard Gearhart, Mrs. Barnes's cousin, and M. H. Larkin, motorist who was shot while trying to aid the dying Klein, Barnes named L. R. Coburn, a neighbor, as responsible for these shootings.

TWO OTHERS DIE

Klein and Gearhart died of their wounds; Larkin was shot through the shoulder and is not in a serious condition.

Barnes told the police he and Coburn went to Mrs. Barnes's home, where Muncy was shot, then continued together through the series of shooting affairs.

The authorities said they give no credence to Barnes's assertion that he had an accomplice. After questioning Coburn for three hours the District Attorney's office declared he gave an apparently good alibi regarding his movements last night and that he probably will be released.

The authorities believe Barnes holds a grudge against Coburn and implicated him in the crime for revenge.

Barnes was calm and nonchalant during the hours he was being questioned. He gave no signs of nervousness except that his blue eyes shifted from side to side constantly. A faint smile played on his face throughout the inquiry.

INSANITY PLEA

Later in the day Barnes told the police he wishes to engage an attorney and that he plans to fight on the grounds of insanity.

In the meantime Mrs. Della Barnes and her 4-year-old daughter Beverly are being held in jail as material witnesses. The two were taken to the jail last night shortly after the shooting of Muncy as a precautionary measure. It was feared that Barnes would attempt to kill his wife, as the police report he threatened to do recently.

Intense jealousy and the belief that her relatives had assisted in bringing about their separation were the reasons assigned by Mrs. Barnes for the killings.

Mrs. Barnes said that she had been in fear of Barnes for several weeks, believing that he would carry out his threats to kill her. Mrs. Barnes obtained an interlocutory decree of divorce last December. About two months ago Barnes was arrested for disturbing the peace in connection with threats against his wife, the police said. He was given a ninety-day suspended sentence.

"Last Saturday my ex-husband came to the laundry where I work and threatened to kill me if I didn't return to him," Mrs. Barnes asserted today.

STORY RELATED

She said further:

"He told me he would give me until yesterday, the day he was to make the monthly payment for the support of our child, to make up my mind. He promised to return at that time.

"However, he did not come to the laundry yesterday and I rode home with Clarence Muncy, with whom I had been keeping company."

Then she told of Barnes going to her home, of the argument between Muncy and Barnes and the shooting of Muncy.

"Insane jealousy caused Barnes to shoot Muncy," Mrs. Barnes said. "He was jealous of every man I knew and warned me about going out with them.

"The only reason I can give for his having killed his brother-in-law and my cousin is that he believed they had encouraged our separation. He was particularly angry with my brother, Charles Curtis, because he was keeping our little girl. However, I did not know he had any grudge against Klein and Gearhart."

Miss Boll Rules Proposed Flight

LONDON, Aug. 28. (AP)—Mabel Boll is the real commander-in-chief of the Junkers plane in which she, Charles A. Levine and Bert Acosta hope to make the trans-Atlantic east-to-west hop, Levine disclosed to the Associated Press this morning.

"This is entirely Miss Boll's venture," Levine said. "She organized the whole thing in America and I came over merely to help her purchase the plane. Of course, I'll fly back with her if she leaves in time. I must be back in America for business reasons by September 10, and if we can't take off before September 4 I must go by boat."

Levine and his party went to Croydon again this morning for a test flight.

LIQUOR POSSESSION BRINGS QUICK FINE

REDDING, Aug. 28. (AP)—Arrested at 12:30 a.m., Ernest Ray and Lester Peoples, the latter of Long Beach, were taken at 2 a.m. before Justice of the Peace Callison of Fall River Mills, and within ten minutes had paid fines of $200 each for possession of liquor, the quickest piece of law enforcement on record in Northern California.

Sketched from life at Fashion Park

TARN BLUE

It's still too new to be popular ...but...

Carrington, our Style Scout, tells us the Prince of Wales now wears it frequently and the exclusive London tailors are featuring this color for fall.

He suggests that the prince started this vogue for blue at Epsom when he wore a blue grey shirt with the formal morning coat. Later...at Ascot... vests of this new blue were seen. And now...suits of this color have made their appearance.

All of our windows this week...are devoted to a display of this new tone of blue...Tarn Blue...in both suits and accessories.

Be sure to see the windows...then come in and slip on one of the suits. See what an easy color it is to wear.

SANTA FE WILL ACQUIRE ORIENT

Railway Granted Permit to Buy Rest of Stock

Kansas City Road Outlet to Mexican Border

Merger of Lines Agreeable to I.C.C. Policies

WASHINGTON, Aug. 28. (AP)—The Interstate Commerce Commission today approved the application of the Atchison, Topeka and Santa Fe Railway Company to acquire control of the Kansas City, Mexico and Orient Railway Company by purchase of its capital stock.

Already owning subscription rights to 15,561 shares of the Orient's capital stock, the Santa Fe Railway was authorized to acquire the 20,439 remaining shares at $415.50 a share; to total $14,507,800.

The Orient Railway extends 735 miles from Wichita, Kan., to Alpine, Tex., and all of its property, including cash and current assets, will be placed under control of the Santa Fe Railway by the transaction.

In announcing its decision the commission said that competition between the two lines "is confined almost entirely to the territory between Wichita, Kan., and Cherokee, Okla., where the two railroads are close together," and added: "Not more than 5 per cent. of the total Orient traffic is competitive with the applicant's lines."

The two roads would be complementary and supplementary to each other. They come in contact eight times, and practically every point of contact affords opportunities by which the applicant could use portions of the Orient's line as a cut-off and thereby effect savings in distance as high as 285 miles, the decision says.

KANSAS BUSINESS MAN PUT BIG DEAL THROUGH

WICHITA (Kan.) Aug. 28. (AP)—Charles H. Smyth, pioneer business man of Wichita, was the broker who sold the Kansas City, Mexico and Orient Railroad to the Santa Fe and is to collect the commission on the $15,000,000 deal.

For years Mr. Smyth, an Orient shareholder, worked with officials of three railroads, the Missouri Pacific, Rock Island and Santa Fe, finally getting an agreement from the English and American interests in the Orient to sell and from officials of the Santa Fe to buy. This agreement was reached in December, 1927, and the deal was closed on May 19, last.

North Dakota's Governor Dead

BISMARCK (N. D.) Aug. 28. (AP)—Gov. Sorlie of North Dakota died here this morning. Death was caused by heart disease from which the Governor had been critically ill for the past three days.

Gov. Sorlie's death brings to the executive chair Walter Maddock, Lieutenant-Governor, who is a dirt farmer.

NEWER AND BETTER SLOGANS; THAT'S WHAT AMERICA NEEDS

BERKELEY, Aug. 28. (AP)—The phrase "Let me write America's slogans and I care not who makes its laws" is the modern, or perhaps American, version of the statement of the man who said he could control a nation's destiny if he could write its songs.

Dr. Ira B. Cross, professor of economics at the University of California, in an address here last night said America is a slogan-loving nation, and that it even replies to arguments with verbal bursts of slogans.

"America, as a nation, is one of economic illiterates whose people are thinking things that are a hundred years out of date," he said. "Endeavor to reason with a man on a political question and he will answer with a 'full dinner pail' slogan that required no though. You can lead people anywhere by slogans, because they require no thinking.

"We quote Washington on his slogan of entangling alliances, never thinking that in a century and a half conditions have changed. We don't like to throw away old ideas and we resent new ones and persecute those who advance them."

Taking up some of the popular slogans, he pointed out some of their fallacies. The "buy-at-home" slogan is urged by business men who do not practice it and the only way to keep the people of a city buying at home is to give them prices, service and selections of goods equal of better than those offered elsewhere.

"Politics and prosperity do not go hand in hand," he said. "The party in power does not make prosperity, and economic reserves are liable to come under any administration, be it Republican, Democratic or otherwise."

SUN GIVES HOOVER ITS ADHERENCE

New York Paper Asserts Californian Will Give Better Government

NEW YORK, Aug. 28. (Exclusive) In an editorial well adorned with encomiums for Gov. Smith, the New York Evening Sun, an independent Republican newspaper, today came out in support of Herbert Hoover for the Presidency.

Platforms and acceptance speeches, says the paper, present a reasonably clear idea of the case in which decision must be rendered on November 6, next. "In reaching the belief that this decision should go to the Republicans, the Sun is influenced by the larger issues and these alone," it goes on. "It has due regard for the remarkable history and accomplishments of Gov. Smith. It is not the man with whom we find fault, but the history and the policies of his party and certain views to which, as a Democrat, he subscribes and which he seeks to promulgate."

The Sun points out American prosperity under Republican administrations and depression under Democratic; the tariff as a fundamental of Republicanism; the economic miracle of rising wages and falling commodities under Coolidge's regime and the tax and public debt reduction under his Secretary of the Treasury as points recommending Mr. Hoover to the voters of the country, inasmuch as he is experienced in the Coolidge brand of government and has promised to carry it forward if elected. The Sun doubts that the Democrats are sincere in their recent adhesion to a protective tariff policy. The paper praises the country's diplomatic successes of the past few years, particularly in the Western Hemisphere.

TOWN GIVES NEW CLEW TO ROCKFORD

Danish Government Says Lost Flyers Thought to Have Been Heard in Air

COPENHAGEN, Aug. 28. (AP)—Possible proof that the Rockford-to-Stockholm flyers, Bert Hassell and Parker Cramer, reached the east coast of Greenland was contained in a communique issued by the Danish government today saying that a noise like that of an airplane had been heard by the native colony at Akigasemish.

The village, says the announcement, is located at latitude 67.30 on the east coast of Greenland. The government had received no precise information as to the time.

The Danish Governor of Greenland informed the government that he would make an investigation of these fresh reports. Search for the missing men is proceeding along the coast and through the interior of the southern region of Greenland.

The Danish explorer, Knud Rasmussen, is aiding in the work and has appealed to the population to watch and report new developments.

Officers Expel Good Samaritan

Efforts to save the occupants of the exclusive Hollywood La Leyenda Apartments at 1737 North Whitley avenue from what he thought would be certain asphyxiation, caused Ray George of the St. Francis Hotel to be expelled by Hollywood police from the apartment-house late last night.

George told police he was the first to discover a broken ammonia pipe on the second floor of the five-story structure and proceeded up and down the halls arousing the sleeping tenants. The sleepers objected, however, more to the cries of George than they did to the escaping ammonia fumes. They called the police and George was returned to his hotel.

No damage resulted from the broken pipe, a part of the apartment's refrigeration system.

Flotsam Hints Fate of Plane

SEATTLE, Aug. 28. (AP)—Pieces of airplane upholstery and several tourist post cards, supposedly from the British Columbia Airways plane which disappeared Saturday morning with six persons, were picked up on the beach several miles southwest of here today.

Lieutenant-Commander L. L. Bennett, directing the Coast Guard search for the missing monoplane, tonight declared he is satisfied that the fragments of upholstery are from the giant passenger ship. He ordered the search renewed in Port Discovery, where the articles were picked up by George A. Smith, fire warden, and Dr. E. E. Gleason, retired dentist.

DEMOCRATIC INCUMBENTS NOMINATED

South Carolina Congress Delegates Win in Primary; Many Reject Party Oath

COLUMBIA (S. C.) Aug. 28. (AP)—South Carolina Democrats voting in the biennial primary election, which usually is equivalent to election, today renominated every member of the present delegation to Congress.

There was no voting for State officers other than solicitors of the Circuit courts, all State offices being put on a four-year basis two years ago.

In three of the seven Congress districts the incumbents were unopposed. Butler B. Hare, in the Second District; Fred Dominick, Third District, and J. J. McSwain, Fourth District.

Incomplete, but conclusive, returns from other districts showed that Representatives Thomas S. McMillan, William F. Stevenson, Allard H. Gasque and Hampton P. Fulmer, had been renominated.

Reports from all sections of the State indicate that numerous voters were turned away from the polling places because of refusal to take the oath binding them to vote for the State national candidates at the November election.

ACQUITTAL OF WOMAN APPLAUDED

Dignified Scottish Court Rocks With Cheers When Verdict Comes

GLASGOW, Aug. 28. (AP)—Incidents almost unprecedented in a British court occurred today when Christian Ballee, 28 years of age, was acquitted of a charge of culpable homicide in connection with the death of her husband. The jury included several women and these wept unrestrainedly with many women in the courtroom as they rendered the verdict.

The accused was carried shoulder-high on leaving court. She had testified that her husband was wild when intoxicated and that he had come home drunk. He demanded a meal when she had no food in the house for her four children. He threatened her and broke a chair, whereupon she struck him with a knife. He died on the way to a hospital.

Investigation of Mine Bomb in Ohio Begun

COLUMBUS (O.) Aug. 28. (AP)—Investigation of an explosion at the Murray mine of the Sunday Creek Coal Company near Nelsonville, which partially wrecked the entrance, was started today by the Ohio National Guard under orders from Gov. Donahey. Officials of the company asked for an inquiry.

The blast occurred last night. Seven men were entombed for a short time by the explosion. The mine is operated on a nonunion basis.

The second bombing within two days occurred at Bellaire today when the home of William Baker, a nonunion miner, was destroyed. No one was injured. It was believed the bomb was hurled from a passing automobile. Baker shot two union sympathizers when attacked by miners armed with stones.

Federal agents are investigating the bombing yesterday of the home of Frank August, a nonunion miner of Wegee.

State University Course Wanted in Aeronautics

BERKELEY, Aug. 28. (AP)—Petitions asking for creation of a department of aeronautics at the University of California were circulated on the campus here today.

The plan proposed calls for a four-year course and would offer a degree of doctor of aeronautics on graduation.

Connally's Lead Still Increases

DALLAS (Tex.) Aug. 28. (AP)—Representative Connally's majority over United States Senator Mayfield, his opponent in Saturday's run-off primary, mounted slowly toward 60,000 today as belated returns came into the Texas election bureau.

When the bureau closed for the night all but five counties holding elections had reported, but only 140 of these had submitted complete figures. Connally's total mounted to 305,314 during the day, while Mayfield's increased to 246,499.

FRENCH EXPLAIN NAVAL ACCORD

Agreement With Britain Said to Be Entirely in Open

Limit on Large Cruisers Held Out as Ultimate Aim

Present Cut in Small Craft Declared Unlessinible

GENEVA, Aug. 28. (AP)—The essence of the provisional naval agreement between France and Great Britain, in the opinion of French circles expressed to the Associated Press today, is that an attempt should be made to reach the international agreement limiting the construction of large cruisers and large submarines but that for the moment limitation of smaller units should not be attempted.

In thus summarizing the accord, French circles denied categorically that the agreement contains any secret clauses and they joined British quarters in characterizing as untrue reports that it provides for associated French and British fleets.

REPLIES AWAITED

France and Great Britain still await replies from the United States, Italy and Japan before publishing the text, and M. Loudon, Netherlands Minister to France and president of the preparatory disarmament commission, is awaiting the results of correspondence between the five naval powers involved before deciding on the date of the next meeting of the commission.

The accord is described here as an effort to achieve something possible and practical by continuing what is regarded as the underlying idea of the Washington naval conference, the limitation of powerful and offensive fighting machines.

NOTHING FINAL

In British quarters it is emphasized that there is nothing final in the accord with France.

It is explained that the agreement was placed before the other naval powers in the hope that it would be accepted as the basis of a discussion by the disarmament commission and, assuming that it eventually is accepted by the commission, can go forward only as a recommendation for the consideration of a later international conference.

FOUR CLING HOURS TO BOAT'S KEEL

One Youth Succumbs in Effort to Save Others; Three Finally Rescued

CHICAGO, Aug. 28. (AP)—Two couples, children of wealthy parents, clung to the keel of an overturned sloop in Lake Michigan for eleven hours last night. Then one of them, a sophomore of Cornell University, slipped away to his death in an effort to save the others.

Two more hours went by and one of the girls started to swim for shore, three miles away. She swam for an hour in circles, and Coast Guards rescued her, blue with cold, blind from the sun and delirious. In turn they rescued the remaining couple.

The boy who drowned was Fred Rummler, 21 years of age, son of Eugene A. Rummler, a patent attorney. His companions, when they could talk, said he died to save them. The girl who tried to swim is Marjorie Prince Oleson, 17, daughter of John P. Oleson, vice-president of the First National Bank of Chicago.

The other couple are Shirley Donlee, 18, daughter of George P. Donlee, a broker, and Harold Tarrant, 20, son of J. H. Tarrant, meat dealer. Miss Conlee is a resident of Kenilworth. The others' homes are in Winnetka. All had been childhood playmates and friends through New Trier High School.

Court Quashes Blasphemy Trial

BOSTON, Aug. 28. (AP)—A warrant charging Dr. Horace M. Kallen, New York sociologist, with blasphemy at a recent Sacco-Vanzetti memorial meeting was withdrawn by Judge Murray in Municipal Court today. The warrant was issued when police took exception to an utterance of Dr. Kallen that "If Sacco and Vanzetti were anarchists, Jesus Christ was an anarchist."

Judge Murray took this action pending a further investigation of the matter, but it is thought the charge will be dropped.

Kansas G.O.P. Backs Dry Law

TOPEKA (Kan.) Aug. 28. (AP)—Militant support of the Eighteenth Amendment and an effort to revise the State taxation system was pledged by the Republican party of Kansas in the platform adopted by the State party council this afternoon.

Other planks in the platform indorsed Herbert Hoover for President and Charles Curtis for Vice-President, and pledged a thorough investigation and revision of public utility rates.

Pearls Lost on Night Club Trip

SARATOGA SPRINGS (N. Y.) Aug. 28. (AP)—A necklace of 103 assorted pearls, valued at $100,000 and belonging to Mrs. Jerome Louchheim of Philadelphia, was reported as missing or stolen to police here today.

Mrs. Louchheim wore the pearls to a night club and had them while there, she told police, but found them missing when she reached home. Mrs. Louchheim said she was driven to and from the club in a private automobile.

HOOVER'S FARM PLAN DEFENDED

Watson Says it Offers Concrete Solution of Growers' Problems

FRANKFORT (Ind.) Aug. 28. (AP) United States Senator Watson in a speech prepared for delivery here today, said his party has clearly outlined a means of solving the farm problem while the Democrats have yet to offer "a concrete plan for the guidance of the people on this subject."

The Senator held that there are only two ways of handling the crop surplus—to purchase it in accordance with the terms of the McNary-Haugen bill, sell it abroad at whatever price can be obtained and distribute the loss over the producers of the particular crop in question; or to take the money directly from the Treasury and buy the surplus, store it until a shortage occurs and then feed it into the market in accordance with the demand.

The speaker declared that the Democratic platform is against taking money from the Treasury to buy surplus crops and that Gov. Smith, the Democratic Presidential nominee, is opposed to the other solution.

Herbert Hoover, Republican Presidential candidate, Senator Watson added, clearly interpreted the Republican platform plank on the subject to mean the appropriation of money from the Treasury to set up a board to buy the surplus crop and deal with it as their judgment seems best at that time.

"This is a fixed, definite program of action and if given a fair trial will solve the problem," Senator Watson added.

STEAMSHIP LINES GET MAIL JOBS

Postmaster-General Lets Contracts Over Seven Ocean Routes

WASHINGTON, Aug. 28. (AP)—Postmaster-General New today awarded contracts for carrying the mail over seven ocean routes under authority conferred on him by the Jones-White Merchant Marine Act. The contracts will begin October 1 and run for ten years.

All awards were made at the maximum rates allowed by the act, ranging from $2.50 to $8 a nautical mile for ships classified as to speed and tonnage.

The successful bidders who obligate themselves to construct new ships during the term of the contracts follow:

New York to Copenhagen, American Scantic Line, New York.

New York to Maracaibo, Atlantic and Caribbean Steam Navigation Company, New York.

New York to Vera Cruz, New York and Cuba Mail Steamship Company, New York.

Galveston to Santo Domingo, Lykes Brothers Steamship Company, Galveston, Tex.

Portland to Manila and Portland to Dairen, States Steamship Company, Portland, Or.

New York to ports on West African Coast, American-West African Line, New York.

Prince Wears Pair of Kilts

ABERDEEN (Scotland) Aug. 28. (AP)—The Prince of Wales, on his way south from Balmoral Castle, where he had exchanged good-bys with the King, appeared in kilts today before a great crowd which watched him lay the corner-stone of a new hospital here. This was his last official engagement in Great Britain before leaving with his brother, the Duke of Gloucester, on an African tour.

The Duke of York, also in kilts, was another participant in the ceremony. Both received rousing receptions.—The Prince and his brother will leave London September 6, next, for Egypt and intend to remain in Africa until early in January.

Alaskan Flyers Given Federal Cross of Honor

WASHINGTON, Aug. 28. (AP)—The Distinguished Flying Cross has been awarded to the pilots and mechanics who participated in the Alaska air expedition of 1920, which made the trip from New York to Alaskan points as far as Nome, covering the 4500 miles in fifty-three hours and thirty minutes.

The awards were made to Capt. St. Clair Street, now at Wright Field, Dayton; Lieut. Clifford C. Nutt, Brooks Field, Tex.; Lieut. Clarence E. Crumrine, Wright Field, Dayton; former Lieut. Erik. H. Nelson, Boeing Airplane Company, Seattle; former Lieut. Ross C. Kirkpatrick, whose mother lives at Avalon, Cal.; former Sergt. James D. Long, Billings, Mont., and Master Sergeant Joseph E. English, Langley Field, Va.

Customs Fleet Will Get Busy

NEW YORK, Aug. 28. (AP)—The largest customs fleet in the country has been ordered organized for service against smugglers in New York Harbor. Eight fast patrol boats will go into operation Saturday, customs officials said, in an attempt to stop increasing smuggling of diamonds and narcotics.

The boats have a speed of twenty-two miles an hour and will carry unmounted machine guns. Three of the boats were built especially for the service, the others being seized rum runners. They will be operated in twelve-hour shifts, four at night, four in the daytime.

3 final days of Barker Bros. SUMMER SALE

NEWS OF SOUTHERN COUNTIES

WOMAN MISSING IN MOUNTAINS

Mrs. Hale of Long Beach Strangely Disappears

Early-Morning Hike Ends in Complete Mystery

Officials and Vacationists Search Hills in Vain

SAN BERNARDINO, Aug. 28.—Missing since she left her cabin in Green Valley on the crest of the San Bernardino range at dawn Monday morning to watch the sun rise over the peaks, Mrs. R. A. Hale, 46 years of age, of 3076 Lime avenue, Long Beach, is feared lost or dead. Deputy sheriffs, forest rangers and scores of vacationists to whom Mrs. Hale's daughter Margaret appealed for aid when her mother failed to return to the cabin, were continuing the search late today. No clew as to her whereabouts or how she disappeared have been obtained, it was admitted.

Mrs. Hale, in poor health and afflicted with "sinking spells," went to the mountains a week ago with her daughter and Mary Walters of 629 Linden avenue, Long Beach, for an outing. Believing that it would benefit her failing health, Mrs. Hale arose early each morning and hiked across the hills to a crest overlooking picturesque Green Valley to watch the sun rise above the pine-clad mountains.

Mrs. Hale arose at dawn Monday, her daughter said, and slipped out of the cabin quietly so as not to disturb the others. The daughter spoke to Mrs. Hale, joking about her early rising.

When Mrs. Hale failed to return for breakfast the party became alarmed and made a futile search for her. By nightfall they called the Sheriff's office, asking help. Deputy Sheriffs Carl Hansen and Emmett Shay directed the search throughout the night, continuing their work today, but without success. The daughter is directing the search with scores of vacationists, who answered her appeal for aid.

ROMANCE OR KIDNAPING SUSPECTED IN DISAPPEARANCE

REDONDO BEACH, Aug. 28.—Romance or kidnaping is believed to be back of the disappearance of Juanita Mendez, 18-year-old Mexican girl, who has been missing from her home in the Redondo Villa tract eight days. Juanita is the daughter of Concepcion Mendez and was employed in a flower shop on Redondo-Riverside Boulevard. Her closest confidante, a 9-year-old sister, Guadalupe, knows only of a quiet Mexican boy who she believes to be living in the vicinity of Torrance, with whom Juanita loved to dance at the weekly community dances at the Villa Tract Chamber of Commerce, and a handsome American who was a perhaps too-frequent customer at the little shop where she was the only attendant.

Neither suitor is known to her family or friends, but the fact that she left word at the store that she would not be returning to work in the afternoon has led officers to the conclusion that her disappearance was planned. When last seen Juanita was wearing a dark green dress and bright red shoes and had no hat, coat or money with her.

Evans Unafraid of Tennessee

GLENDALE, Aug. 28.—Prospects for swinging the State of Tennessee into the Hoover column at the November election are most encouraging, according to the reports received here from friends of Congressman W. E. Evans, who is directing the Hoover campaign in that State. Congressman Evans writes that he has been touring Tennessee by automobile and holding conferences with Republican leaders, and that he is finding a steadily growing Hoover sentiment everywhere.

Elimination of the existing rivalry between some of the Republican factions in Tennessee, he says, will result in many more votes being polled for Hoover, and many of the Democrats of that State are already swinging away from the Smith standard.

POMONA PROPERTY LEASED

Parcel Bought for $1000 in 1903 in Deal to Net Nearly $1,000,000 in 99 Years

POMONA, Aug. 28.—A milestone was reached in the growth and development of this city today when S. F. Stewart, local capitalist, announced the leasing of his property at the northeast corner of Second and Locust streets, in the heart of the business district, to the United Realty Company with headquarters in Los Angeles and New York City.

Under the terms of the lease, the first ninety-nine-year lease ever signed in this city, the realty company must construct a large new building, with 130 feet frontage on Second street and 120 feet on Locust street, the building to be of outstanding construction and architecture. It is believed that the building, when completed, will house a new chain store concern, although this information cannot be verified at the present time.

Stewart purchased the property from Capt. J. T. Brady, late Pomona pioneer, in 1903 for a cash consideration of $1000, while the total cash payments during the ninety-nine-year lease on the same parcel will net almost $1,000,000.

Construction on the new building will start on September 15, following the removal of two older structures on the property. These are to be torn down immediately to make room for the new building.

UNIVERSITY LOOKS FOR RECORD LIST

Redlands Expects Capacity Enrollment; Dormitories Already Fully Engaged

REDLANDS, Aug. 28.—The University of Redlands will have a capacity enrollment this year with a long waiting list. This was shown today when it was announced every dormitory room has been taken for weeks. Registration will open September 15 and will be concluded by Thursday, September 20, when the first classes will be started.

There is to be a larger enrollment of recent graduates from high schools of Redlands, San Bernardino, Riverside and Colton than ever before in the history of the university.

Tuition has been increased from $100 to $115 per semester, the additional $15 to take care of gymnasium fees. The new gymnasium is to be used by every student in the school and is splendidly equipped with every facility. Rooms for faculty members in the gymnasium have also been provided.

The private water system of the University is nearly completed. The pipe has been laid on the campus and work on the large reservoir has been nearly finished.

All girls attending the university are required to live in the dormitories unless they stay with their parents or relatives in Redlands or near-by towns. Because of the lack of dormitory space for men they are permitted to live off the campus.

EARLY PIONEER DEAD

Myra Walbridge Came From Texas in Covered Wagon in 1859

VENTURA, Aug. 28.—Miss Myra Walbridge, for fifty years a resident of Ventura county, died at her home here this morning. Funeral services are to be held at 2 p.m. Friday from the Christian Church.

Miss Walbridge came here with her parents, Henry and Mary Walbridge, in 1859. The trip across the plains from Texas was made by covered wagon. She came here to live about nine months ago, but had been for the last thirty years in Montalvo. She leaves three brothers, George, W. S. and Harvey, and a sister, Mrs. Mamie Yates, of Santa Barbara.

CHARTER PLANS ADVANCE

Venturans Authorize Petitions for Election of Freeholders to Draft Civic Document

VENTURA, Aug. 28.—Circulation of petitions at an early date, asking the City Council to call an election of freeholders to draft a city charter, was authorized today at a meeting of the Chamber of Commerce committee. With E. E. Wiker, chairman, leading the discussion, the committee canvassed various possible methods of obtaining the necessary 600 signatures.

The members agreed to solicit the signatures individually, feeling that this method was preferable in a movement of this kind rather than to resort to the use of paid solicitors. The petition is to be drafted at once by Judge Merle Rogers.

In the event the petitions and subsequent election meet a favorable reception at the hands of the voters and the fifteen freeholders are named this year, plenty of time will be allowed for a careful study of the city's needs with the idea of having a charter ready at the expiration of the present administration's term of office. It is felt that this plan will in no way interfere with present municipal undertakings.

TAX CUT EIGHT CENTS

LA VERNE, Aug. 28.—The local tax rate was fixed at an adjourned meeting of the City Council last night, the rate being set at $1.54 for each $100 of assessed valuation, as compared with the rate of $1.62 for the previous year. Due to the retirement of various municipal bonds last year the Council was enabled to cut off 8 cents from the rate.

APPLE CAUSES GIRL'S TROUBLE

Oxnard Miss Given Fruit by Man Known Slightly

Mexicans Find Her in Shack in Serious Condition

Victim Semiconscious in County Hospital

VENTURA, Aug. 28.—An apple, such as caused the downfall of Eve so many years ago, caused a lot of trouble for Maria Espalina, a pretty and dainty 15-year-old Oxnard girl, and as a result she lies today in the County Hospital in a dazed and ill condition.

The Plaza of Oxnard was her Garden of Eden and her Adam's name was "Pie Face," she told the officers from the Sheriff's office, who investigated the matter and brought her to the hospital here for medical attention.

She was found Monday morning lying, dirty and bedraggled in a shack in the Colonia Gardens near Oxnard, by a party of Mexicans as they drove away to work. Further investigation showed that she was partially conscious, that her hair was matted with burrs and her clothes torn and sandy. She is a pretty girl with blue eyes, chestnut hair and a slim figure.

She told Deputy Sheriffs Carl Wallace and P. J. Ayala and Dep. Dist.-Atty. Burton Rogers, who investigated the case, that she was sitting in the Plaza about 8 o'clock Sunday evening when a man she knew as "Pie Face" and with whom she had attended a dance at Santa Paula about a month ago, came to her and said: "Hello, blondy," and handed her an apple. In the background were several of his friends, boys from Fillmore. She said the apple tasted queer to her and she ate half and threw the rest away. That is all she remembers, according to her story, until she was being asked questions by the officers.

The girl will be held at the hospital until she is in such condition that she can aid the officers in an investigation of her assailants.

Mexicans Will Celebrate Day of Independence

ONTARIO, Aug. 28.—Great preparations are being made here today by Mexicans of the valley who plan a three-day celebration of Mexican Independence Day beginning September 15. The celebration is to be held in Chino. Independence Day is September 16, but as that day is Sunday, the celebration will start the day before, will become quiet Sunday and will be resumed Monday, closing with a street dance that night.

Frank Morano, one of the Mexican leaders of the valley, is chairman of the celebration committee. A recently organized Mexican band is expected to be ready for the celebration. Forty members are now signed up for the band with a membership of fifty expected shortly. Rehearsals are being conducted by Senor Gil Medina.

Man to be Freed in Kidnaping

SAN DIEGO, Aug. 28.—Police announced today that Salvador Aquire, arrested in connection with the asserted attempt to kidnap Anita Garcia, pretty 16-year-old Spanish girl, here yesterday, will be released. Both Aquire and the girl, whom Aquire asserts is his daughter, police say, were questioned by Captain of Detectives Paul Hayes for more than two hours. The suspected kidnaping plot was foiled at 3049 Boston avenue yesterday when Aquire was arrested by Roy Wilsford, a motorcycle patrolman. Aquire recently came here from El Paso. No charges will be placed against either Aquire or his wife in connection with the finding by Wilsford of a .38-caliber revolver in Aquire's overcoat shortly after the arrest was made, according to officers. Police say the overcoat was handed to Aquire as the officer started to take him to jail. A home will be sought for the girl, Capt. Hayes said.

HAWTHORNE HELD ON BAIL

HUNTINGTON PARK, Aug. 28.—A. C. Hawthorne has been placed under bail of $2500 for a preliminary hearing before Judge Edward H Miller, Saturday, on a charge of alleged bad-check operations in this city a few weeks ago. The man was apprehended by deputies from the Sheriff's substation on Florence avenue, late Friday night, at a service station here.

COURT MINUS PRISONER

El Monte Tribunal Convenes for Hearing of Rum Charge Only to Discover Absent Defendant in County Jail as Penalty for Similar Offense

EL MONTE, Aug. 28.—With the jury present, a deputy District-Attorney on hand to prosecute and the courtroom crowded with spectators, Judge F. G. Wilson convened court this morning only to discover that a fatal error had been made. There was no defendant.

Hasty inquiry was made and after much telephoning, it was discovered that Georgia May Smith, charged with selling liquor at Santa Monica, is now serving 180 days in the County Jail, having been convicted on a similar charge in the Santa Monica court.

Chief L. S. Burdick was dispatched posthaste to Los Angeles and returned with the prisoner, a smartly dressed negro woman who profusely apologized to the court for her unavoidable absence.

The defendant carefully scrutinized the prospective jurors and informed Judge Wilson that she would dispense with the jury and take a chance with his honor. After hearing the testimony of the arresting officers Grider and Greenstone, of the District Attorney's office, Judge Wilson decreed that she remain a guest of the county for another 180 days after her present term has expired.

SAN DIEGO OPENS FAIR

Exhibition Now Being Presented at Balboa Park Has Traditional Displays and Special Features

SAN DIEGO, Aug. 28.—San Diego's tenth annual county fair opened in Balboa Park this evening at 6 o'clock with a live-stock parade followed by fireworks depicting the history of California from the days of the dons to the flapper period; and the many exhibits attracted a record crowd of spectators. General and industrial exhibits far outnumber those of any previous fair held here and, according to Felix Landis, manager of the fair, indicate the rapid growth and progression of San Diego county in all lines.

The fair will continue for four days and the management, in cooperation with the Chamber of Commerce, farm bureaus, merchants, ranchers, stock breeders and officials of the county, has provided all the traditional features of a fair. A special ranch exhibit, agricultural products, rabbits, pigeons, dairy displays, in fact, every type of the county's agricultural work in addition to industrial and mercantile displays, are on view, and as a special feature, a horse show will be held nightly. Contests planned for entertainment include everything from horseshoe pitching to rolling-pin throwing with Camp Hearn cavalry drills and band concerts among the added events.

Huge Gain Seen in Long Beach

LONG BEACH, Aug. 28.—The present population of this city is given as approximately 140,000 in the weekly report of the Eberle Economic Service of Los Angeles, released today. The report calls the estimate "conservative," and it is based on school attendance, water, gas and telephone service, and the registered voter list.

According to the census of 1920 this city at that time had a population of 55,593, and on January 1, 1928, the population was 136,000, the report points out, representing an increase of 150 per cent.

"Long Beach grew steadily from 1920 to 1924," the Eberle report continues, "but, owing to a decrease in oil development and a general business recession, the growth was practically at a standstill during 1924. In fact, it is estimated that a decrease of about 2 per cent took place. During 1925 a revival began which has continued until the present time."

FAMILY OF JUDGE CARTER COME HOME

GLENDALE, Aug. 28.—Mrs. O. N. Carter and her daughter, Ruth, returned today to their home here from Chicago, where they accompanied the body of Judge Orrin N. Carter, former justice of the Illinois Supreme Court, who died here on the 15th inst. Funeral services were held in Evanston, Ill., and interment followed at Rose Hill Cemetery, Chicago.

Judge Carter served twelve years as judge of the Cook County Court and eighteen years as justice of the Illinois Supreme Court. He was 74 years of age and was born in New York State. In Illinois he also served as County Superintendent of Schools for Grundy county, State's Attorney of Grundy county and attorney for the Sanitary District of Chicago, and chairman of the committee for revision of the Illinois constitution. He was also a candidate for Governor in 1900.

WALTER COMBS SELECTED

ONTARIO, Aug. 28.—Having served the local American Legion post in several capacities, and being one of the outstanding civic boosters of the community, Walter V. Combs is the unanimous choice of the ex-service men to be post commander for the ensuing year. Combs was the only one nominated for the post of commander when annual nominations were made last night.

MAN BURNED IN RESCUING TWO ON FIRE

Andrew Scher Dangerously Injured in Aiding His Wife and Mother in Flames

PASADENA, Aug. 28.—After risking his own life to save his mother and wife, who were enveloped in flames today, when gasoline in which they were cleaning a blanket exploded, Andrew Scher of 375 Bella Vista street, was rushed to the Pasadena Hospital, where his condition is reported to be critical.

Mrs. Selicia Scher, the mother, and Helen Scher, his young wife, also were badly burned. They were given first-aid treatment in the Emergency Hospital and transferred to the Pasadena Hospital. They are expected to recover.

According to reports, the two women were attempting to clean a large woolen blanket in the rear of their home. They had soaked it in gasoline and were rubbing the spots out of it, when the friction ignited the gasoline.

Their arms were covered with the explosive fluid and they instantly became enveloped in flames. Scher ran to their assistance and despite the fact that his own clothing caught fire and burned from his body, he continued his efforts until the flames which enveloped his mother and wife were completely extinguished.

Doctor Denies He is Missing

SAN DIEGO, Aug. 28.—Dr. Ralph J. Sewall 60 years of age, of Ramona, believed missing yesterday when the Sheriff's office received a report that a car registered to the doctor at Lakeside had been abandoned on the State highway near Barstow, knew nothing about his reported disappearance or the loss of the car, he stated today from his home. Informed that Sheriff W. A. Shay of San Bernardino county had started the search after locating the abandoned car, Dr. Sewall said:

"I know nothing about it. You better forget it."

Undersheriff Ed Cooper, when first advised of the discovery in San Bernardino county, was told that Dr. Sewall had left home for Los Angeles. It was believed then that the car had been stolen in that city from some parking place. The doctor professed ignorance of any such trip when questioned about it today.

WORKMEN INJURED AS SCAFFOLD FALLS

GLENDALE, Aug. 28.—Three workmen were injured here today when the scaffolding on which they were painting at the new high school on Glenwood Road slipped from its fastenings. Walter Kenneston, 919 Albany street, Los Angeles, suffered a bruised hip and hand; C. J. Segner, 1526 East Fourteenth street, Los Angeles, sprained his ankle; and E. R. Hamilton, 220 West Stocker street, Glendale, fractured his heel and received severe bruises. The injured men were treated at the Glendale Medical Group.

PASADENA CITY FATHERS CLASH

Taylor and Wopschall in League Against Shupe

Medals for Heroes Prove Bone of Contention

Cost of Flagpoles Given Airing at Meeting

PASADENA, Aug. 28.—The "harmony" plank upon which the present Board of City Directors was elected threatened to collapse today when three of the city fathers clashed regarding the question of awarding medals to heroes in the police and fire departments and over the cost of two flagpoles recently installed in front of the new City Hall. As a result of the verbal barrages, it was predicted that the directors will be split into two rival camps during next year's municipal election.

Two motions presented by Director N. J. Shupe, the first directing the board to recognize brave deeds by police or firemen by awarding medals, and the second, to raise Chief of Police Charles H. Kelley's salary, were defeated by the votes of Chairman Clayton R. Taylor and Director Carl G. Wopschall.

After the measures were defeated, Shupe remarked, "I just wanted to get you two on record."

As Shupe holds one of the long terms on the board and Taylor and Wopschall will hold office only until next April, Shupe's remark is interpreted by political observers to mean that he will oppose the other two Directors for re-election with a view to electing two men favorable to his policies, whose votes would give him control of the board.

Director Wopschall added fuel to the fires of discord when he flatly charged that Shupe had been "inexcusably extravagant" in the purchase of the two seventy-foot flagpoles. Shupe, some weeks ago, was empowered by the other board members to spend not more than $2500 for the poles.

"It seems to me," said Wopschall, "that if Shupe wanted to do so much for the city he would not have squandered $2500 for two poles which don't look any better than those we could have purchased in Los Angeles for $250."

Boy Faces Suit Over Death of Col. Boardman

SANTA BARBARA, Aug. 28.—A manslaughter charge will be filed against Arthur B. Demuth, 16-year-old driver of an automobile that struck and fatally injured Col. Louis A. Boardman on Friday night of last week, Dist.-Atty. Ward announced this morning following a Coroner's inquest in which damaging testimony against the youth was a feature.

No recommendation was made by the Coroner's jury in returning a verdict that death was due to being struck by an automobile, but Ward declared that in view of the nature of the testimony brought out at the inquest, it will be necessary to prosecute the youth.

Six witnesses of the accident testified that young Demuth was speeding at a rate from thirty to thirty-five miles an hour, while three witnesses declared on the stand that they saw Demuth looking backward just before he struck Col. Boardman. Testimony indicated that Demuth and another youth in another car were both proceeding up Delavina street at a high rate of speed when the accident occurred.

Another School Plant Ordered

SAN DIEGO, Aug. 28.—Walter R. Hepner, City Superintendent of Schools, today was engaged in speeding up plans for the new East San Diego High School building to cost $400,000. Decision to rush this work was made at a Board of Education meeting and Hepner was instructed to push the plans for the new school so that it may be ready for the fall term next year.

He reported that work on the project probably would be started by the first of the year after the board had authorized the purchase of an additional lot for $2000 as part of the site on which the school is to be built.

On Hepner's recommendation three new appointments to the teaching staff were made: Mary E. Kumler, oral expression and dramatics; J. O. Peterson, chemistry, and Marshall B. Craif, band conductor.

VETERANS' MACHINES DAMAGED

Vandals Create Havoc on Automobiles Parked Near Ontario Legion Clubhouse

ONTARIO, Aug. 28.—During a meeting of the Legion last night at the clubhouse in West E street, a band of vandals made a damaging attack upon automobiles parked about the buildings.

Three automobiles in particular suffered. All twelve tires on the three machines were hacked and cut to pieces. The window glass of one was smashed and the interior of the machine was wrecked. Ignition wires were torn loose and other damage was done to the machines. Indications on the ruined tires were that the vandal gang had used an ice pick and sharp knives.

One of the ex-service men, looking from a window, saw a figure slinking among the cars and gained a quick glance at the man's face before he fled into the night. It is believed there was more than one person in the plot of destruction as so much damage could not have been done in the short time the automobiles were left unguarded.

FRESHMEN IN POMONA TO START FIRST

Upper Classmen to Report at Later Date According to Established Plan

CLAREMONT, Aug. 28.—Freshmen entering Pomona College this year will have the advantage of a head start over the older students of the institution. "Freshman Week" will start Monday morning, September 17, and be in force three days before the upper classmen register for the fall semester. In this way, it is expected that the new students will become acquainted with the college and with each other before the rush and swelter of college life begins.

This is the fifth year that the Freshman Week idea has been used, although but three days are being devoted to it this year. The new students gather with representative members of the student body and faculty during the preliminary period for meals, conferences, physical examination, etc. In addition they are taught something of the Pomona traditions and football songs.

Upper-class registration will be held September 19 and 20 with convocation, the formal opening of the college year, scheduled for Friday morning, September 21.

Lions' Chiefs Meet to Plan Winter's Work

REDLANDS, Aug. 28.—Eighty officers of the Lions clubs of this section gathered at the American Legion clubhouse in this city today to make plans for winter program. Presidents of the various clubs gave three-minute talks telling of plans for their clubs.

Harold S. McComber, president of the Redlands Lions Club, introduced the presiddnt of the Citrus Belt Association, who presided at the meeting. Ted Clark of San Bernardino, secretary of the Citrus Belt Association and deputy district governor of the fourth district Lions clubs, which includes the California, Hawaiian Island, Nevada and Arizona territory, was also scheduled to give a talk. Following the officers' program a novel radio program was presented.

Clubs represented at the meeting were from Pomona, Elsinore, Chino, San Bernardino, Riverside, Upland, Ontario, La Verne, San Jacinto and Colton.

OUR HISTORY IN PICTURES 1119

The Story of the Panama Canal—Part 3. The Gold Rush of "49".

by J. CARROLL MANSFIELD

IN 1846 CAME THE MEXICAN WAR. AT ITS CLOSE, BY THE TERMS OF THE TREATY OF GUADALUPE HIDALGO (1848) THE UNITED STATES ACQUIRED CALIFORNIA AND NEW MEXICO. ABOUT THE SAME TIME AN EVENT OCCURRED WHICH WAS TO INCREASE THE DEMAND FOR A TRANS-ISTHMIAN CANAL.

JANUARY 24, 1848, GOLD WAS DISCOVERED ON THE AMERICAN RIVER IN CALIFORNIA, BUT THE NEWS DID NOT REACH THE EAST UNTIL LATE IN THE FALL. WHEN IT BECAME KNOWN, THE REPORT SPREAD LIKE WILDFIRE.

IN THE SPRING OF "49", CAME THE MAD "GOLD RUSH", WHEN MEN FROM ALL WALKS OF LIFE FORSOOK THEIR HOMES AND ACCUSTOMED WORK, AND SET OUT FOR CALIFORNIA IN THE HOPE OF BECOMING MILLIONAIRES IN THE GOLD FIELDS.

THOUSANDS OF FORTUNE HUNTERS, DREADING THE DELAYS AND DANGERS OF THE LONG, WEARY OVERLAND JOURNEY ACROSS THE CONTINENT, TOOK SHIP TO PANAMA, CROSSED THE ISTHMUS, AND ON THE PACIFIC SIDE EMBARKED IN OTHER VESSELS BOUND FOR CALIFORNIA.

LOCATION OF BERTHS

Outer Harbor—35 to 73.
San Pedro—74 to 98.
West Basin—101 to 149.
Wilmington—150 to 190.
East Basin—191 to 204.
Terminal Island, 205 to 241.
Long Beach—Not numbered.

flew back to film work at Catalina Island after an X-ray at San Pedro disclosed his foot only sprained, the tug Jimmie K, working on the picture put into Wilmington yesterday, indicating work has been delayed. The blowing up of the schooner Dauntless by Samuel Goldwyn, Inc., at Catalina Harbor also has been set back two weeks, while Director Brennan hurries to the bedside of his mother in New York. The tug David P. Fleming, on this job returned to port yesterday afternoon. A troupe from Columbia Pictures also is at the island's isthmus, filming South Sea Island scenes.

California Packing Corporation, making improvements in its San Pedro plant, will divert all tuna catches to its San Diego plant for the rest of the season. Approximately $100,000 is being spent in additions here, which should be completed by the opening of the sardine season in December.

Jerry Sheehan and J. H. Buckley, chief engineers, respectively, on the tankers Chilsco and Chiloil, are back in port on vacation after voyages to Chile and the East Coast. They were chief and first assistant engineer on the tanker Chuky, which broke in two and sank off Japan this spring.

Dr. Otto von Hentig, German Consul General at San Francisco, and Dr. A. von Hamenn of Chicago were given a cruise about the harbor yesterday. They were escorted by Franklyn B. Cole, general manager for the Los Angeles Harbor Department, and Capt. Paul D. Chandler, manager of the Marine Exchange.

Tom Munro, district director for the United States Shipping Board, arrived from San Francisco yesterday to attend the delivery of the steamer Pawlett to the Oceanic and Oriental Navigation Company late this week.

CHUCKLES from LIFE

Suggestions for Additional Bathing Beach Signs

The management is not responsible for loss of money, clothing or reputation on this beach.

Life guards are forbidden to converse with bathers unless properly introduced or in case of drowning.

Persons are cautioned against leaving dogs, babies, husbands, etc., too near the water's edge at low tide.

This beach can be emptied in 3 minutes in case of sharks or thunderstorms. Look around now for your nearest hero.

Suitable wrappers must be worn in going from cottages to beach. Once you're there, use your own judgment.

Chorus girls wishing the extremity of their tan to show on the stage may obtain extra-high-necked bathing suits at the office.

Kindly report any inattention to the Desk Clerk, leaving name, address and photograph.

RICHARD S. WALLACE.

Mrs. Nextdoor's Summer

(How she will spend it, if you can take her word for it.)

Two weeks in the Adirondacks; eight weeks for a "little jaunt" to Europe; the months of July and August at their villa in the hills; about five weeks in the Canadian Rockies—one gets so close to God up there; a two-months' trip to California by boat; July up in Maine; August in New Hampshire; three weeks on the Great Lakes; a tour of Alaska; eight weeks or so in the Blue Ridge Mountains; a month in Newport; July at White Sulphur Springs; July and August in the West Indies, and a few short hops to Australia, Sweden and the English Lake district.

In spite of this bewildering, not to say astounding, itinerary, Mr. Nextdoor can be observed every Sunday morning in the back yard. Attired in a red undershirt, he patiently paints the flivver and cleans the spark plugs.

ARTHUR L. LIPPMANN.

REGIONAL TRUST PROGRAM GIVEN

Los Angeles Bankers Slated for Addresses

Technical Subjects Planned for Discussion

Delegates from Coast Area to Meet in Bay City

Over Los Angeles delegates to the Trust Regional Trust Conference of the Pacific Coast and Rocky Mountain States will be called to deliver addresses at the convention, according to the first official program issued yesterday by R. M. Hotaling, general chairman. The conference will be held October 17 to 20, inclusive, at the St. Francis, San Francisco.

J. C. Wood, superintendent of banks in California, is scheduled as principal speaker of the opening session. He will talk on "Need of Careful Administration of Trusts." Leo Youngdahl, president of California Bank Company, Los Angeles, will also be a speaker on the opening day and will give an analysis and review of trust investments.

Other speakers from this city include I. H. Roseberry, vice-president of Security Trust and Savings Bank, speaking on "Securing Trust Business;" Wilbur Rhodes Hervey, vice-president of Los Angeles-First National Trust and Savings Bank, and Mr. Rosenberg on "Landing a Customer." Other delegates will take part in the business session. Other subjects to be covered on the second day include: "The Trust Department—Making It Efficient and Profitable;" "Advertising:" "Suggestions for Information and Instructions for Wills and Trust Instruments;" "Attestation and Executions of Instruments."

Professor H. Grigsby, vice-president of the Los Angeles-First National, among the speakers for the third day of the convention. He will deliver an address on "Inheritance Taxes on Beneficial Interests of Life Tenants and Remainder Men." Other subjects discussed will be Principals and Practice Governing Securities and Registration of Bonds;" "Trustee Requirements in Connection Securing Bond Issues;" "Current Developments in the Tax Situation;" "Insurance Problems of Executors;" "Joint Tenancies and Tenancies in Common;" and "Community Property Law, Its Origin and Status."

An extensive entertainment program has been planned for the fourday conference that will include golf, motoring, smokers, theater parties and tea teas for the ladies. The last day will be devoted to mechanical displays, advertising features and systems. Tickets will be provided for the football game between University of California and University of Southern California. A theater-dance will be held the evening of October 19.

Thirty million jackrabbits are imported annually from Australia to supply the fur-garment trade of the United States.

EARNINGS OF RAILROADS INCREASE

Fifty-four Rail Lines Show Gain of 7 Per Cent in Net Operating Income

NEW YORK, Aug. 28. (AP)—July earnings reports from twenty-four railroads today show the first fifty-four railroads to report had net operating income for the month aggregating $76,519,000, an increase of 7 per cent over 1927, when the total was $69,122,000.

The gross totaled $314,789,000, which was little more than half of 1 per cent greater than 1927, indicating more economical and efficient operation.

NEW YORK, Aug. 28. (Exclusive) Railroad earnings reported today follow:

CENTRAL OF GEORGIA

	1928	1927
July oper. rev...$	2,508,000	$ 2,315,000
Net oper. income	401,000	357,000
7 mo. oper. rev...	14,729,000	16,255,000
Net oper. income	2,365,000	2,733,000

EXCHANGES OPEN

NEW YORK, Aug. 28. (AP)—Governors of the New York Stock Exchange today voted to keep the exchange open for trading on Saturday, September 1. Members had petitioned for a closing. The New York curb market also will be open for trading on that date.

MARKETS CLOSED

Business on the Los Angeles and San Francisco stock exchanges was suspended yesterday in observance of the State primary election. All markets in the State will resume operations today.

PONTIUS RUMORED FOR RISE

Railroad Gossip Names Vice-President as Likely Head of Pacific Electric; Shoup's Duties Increased

BY EARLE E. CROWE

In the shuffling of executives in the Southern Pacific organization on the first of the year, as the result of the retirement from the presidency of William Sproule, the Pacific Electric Railway will likely have a new president. And this president, so the rumor goes in the railroad offices, will be D. W. Pontius, now vice-president and general manager.

When Mr. Sproule retires on December 31, he will be succeeded as president of the Southern Pacific by Paul Shoup, executive vice-president. Mr. Shoup is also president of the Pacific Electric, subsidiary of the Southern Pacific. The assumption is that Mr. Shoup will find his new duties too exacting to give any time to the affairs of the electric line, and will recommend to the directors that the post be given to Mr. Pontius.

BURDEN LIGHTENED

Such an action would conform to Mr. Shoup's policy of the last few years. For a period of several years he was one of the most burdened corporation executives in the country. In addition to his Southern Pacific duties as vice-president, he was president of the Pacific Oil, the Associated Oil, and other petroleum subsidiaries of the Southern Pacific, as well as president of the Pacific Electric and numerous other corporations affiliated with the railroad company.

When he became executive vice-president of the railroad, it was not long until the Pacific Oil Company was sold to Standard of California. And shortly after, Mr. Shoup definitely withdrew from active connection with the oil industry when the Associated Oil Company was sold to the Tide Water Oil Company. Both transactions were attributed to the desire of the railroad to not only confine its interests to transportation, but to allow Mr. Shoup, one of its most valuable officers, more time to give to the railroad.

Like his senior officer, Mr. Pontius pounded a telegraph key to get his first knowledge of railroading. Diligent work as a telegraph brought him regular promotion through the jobs of station agent, trainmaster and district freight and passenger agent. During these years he was in the service of the Southern Pacific, and the railroad rewarded him with a transfer to the Los Angeles-Pacific Railway in 1908 as traffic manager. This was one of the seven lines which were consolidated into the Pacific Electric Railway, the largest interurban railway in the country, now having 1170 miles of single track. Pontius was made traffic manager of this system, and filled the post until 1917, when he was sent to San Diego as general manager of the San Diego and Arizona Railway, another subsidiary of the Espee.

MEETS INITIAL TEST

This was his first test as a railroad executive, and it came during the trying years of the war, when labor conditions and operating troubles were particularly difficult. Pontius's job was to complete construction of the $18,000,000 project, and place it in operation for the handling of through transcontinental traffic between San Diego and the East.

Completing this work successfully, Mr. Pontius was brought back to Los Angeles in 1921 as vice-president and general manager of the Pacific Electric Railway. He succeeded H. B. Titcomb, who was made president of the Southern Pacific Company of Mexico.

Aside from his railroad work, Mr. Pontius has been active in the civic life of Los Angeles. He has given his time freely to such organizations as the Traffic Commission, Health Board, Community Chest, Chamber of Commerce, the Mission Play, etc. He is a director of the United States National Bank.

London Daily Radio

BY ARTHUR W. KIDDY

(Copyright, 1928, New York Evening Post, Inc.)

LONDON, Aug. 28. (By wireless) The markets were steady today but rather less business was transacted in most speculative issues. Hydroelectrics was good but gramaphones were a trifle easier as a result of the spurt in money rates in the United States, though the market was talking of a possible dividend of 80 per cent.

Home rails maintained their recent improvement and gilt-edged stocks were strong although it is believed that more gold may go to Germany this week.

The market at the close was irregular but good on the whole. Oils were easier because of New York selling and rubber stocks were weaker.

MANY CONCERNS PAY REGULARS

NEW YORK, Aug. 28. (Exclusive)—Dividend declarations announced today follow:

Allied Chemical and Dye, regular quarterly of $1.75 on preferred, payable October 1 to stock of record September 11.

American Can, regular quarterly of 1¾ per cent on preferred, payable October 3 to stock of record September 14.

American Encaustic Tiling, quarterly of 75 cents, payable September 28 to stock of record September 12, instead of usual 60 cents quarterly.

American Safety Razor, usual extra of 25 cents, in addition to $1 regular quarterly, both payable October 1 to stock of record September 10.

Chicago Jefferson Pure and Electric Company, regular quarterly of 62½ cents, payable October 1 to stock of record September 20.

Congress Cigar, usual extra of 25 cents, in addition to regular quarterly of $1, payable September 29 to stock of record September 14.

Fleischmann Company, regular quarterly of 75 cents, payable October 1 to stock of record September 13.

Home Fire and Marine Insurance Company, regular quarterly of 40 cents, payable September 25 to stock of record September 5.

Nachman-Springfield, initial dividend of 50 cents, payable October 1 to stock of record September 15.

National Standard, regular quarterly of 75 cents, payable October 1 to stock of record September 20.

New England Public Service Company, regular quarterly of 45 cents on common, payable September 30 to stock of record September 15; $1.75 on prior preferred, payable September 15 to stock of record the 21st inst.; $1.75 on $7 preferred, $1.50 on $6 preferred and $1.66 on adj. preferred, payable October 15 to stock of record September 30.

New Haven Railroad, $1 on common and regular quarterly of $1.75 on preferred, the former payable October 10 and the latter October 1, both to stock of record September 10. Previous dividend on common was $1, declared February 14.

Pennsylvania Water Power, regular quarterly of 62½ cents, payable October 1 to stock of record September 14.

Pettibone Mulliken Company, regular quarterly of $1.75 on first and second preferred, payable October 1 to stock of record September 20.

Reo Motors, extra of 3 per cent, in addition to regular quarterly of 2 per cent, both payable October 1 to stock of record September 10.

Swift & Co., regular quarterly of $2, payable October 1 to stock of record September 10.

Union Carbide and Carbon Corporation, regular quarterly of $1.50.

ADMITTED TO TRADING

SAN FRANCISCO, Aug. 28. (Exclusive)—Shasta Water Company "A" stock will be traded on the San Francisco Curb Exchange on a regular basis effective Wednesday, the 29th inst. Settlement date will be Thursday, the 30th inst.

BANK RATE REDUCED

ROME, Aug. 28. (Exclusive)—Banca d'Italia today reduced the discount rate from 5½ to 5 1-4 per cent. The rate was cut from 6 to 5½ per cent June 28, last.

Natural Gas Line Formed

Transportation of natural gas from Louisiana fields to Memphis and intervening territory in Mississippi and Arkansas will result from the incorporation and formation announced yesterday of Memphis Natural Gas Company. A $10,000,000 pipe-line project will be constructed about 210 miles long that will have a daily rate transportation capacity of 60,000,000 cubic feet.

The company, which will be engaged primarily in purchasing and selling natural gas at wholesale, has arranged under a long-term contract, for a supply of gas from Industrial Gas Company, a subsidiary of Electric Power and Light Company. Requirements under the contract are placed at 250,000,000,000 cubic feet. Gas will be sold to Memphis Power and Light Company, Mississippi Power and Light Company and Arkansas Power and Light Company.

East Building Figures Drop

NEW YORK, Aug. 28. (AP)—The total of new construction started in thirty-seven States east of the Rocky Mountains last week fell to $11,274,100 from $123,780,300 in the previous week, F. W. Dodge Corporation reports. The total to date this year, however, amounting to $4,439,903,400, is almost 4 per cent ahead of the first eight months of 1927.

The daily average of contracts let since the first of the year is now $22,311,100, compared with $20,853,000 in the first eight months last year. The largest job contracted last week was the straightening of the Chicago River at a cost of $2,800,000.

SLOAN ELECTED HEAD OF NEW YORK EDISON

NEW YORK, Aug. 28. (AP)—Matthew S. Sloan, president of the Brooklyn Edison Company, was made president of the New York Edison Company, succeeding Nicholas F. Brady, who becomes chairman of the board. This is the first step toward making Mr. Sloan the chief operating executive of the electric subsidiaries of the Consolidated Gas Company, under the recent merger.

ALLIED PLAN OF OIL PRODUCTION SOUGHT

NEW YORK, Aug. 28. (AP)—It is reported in Wall street that Walter C. Teagle, president of the Standard Oil Company of Ne wJersey, will upon his return from Europe, call together some of the leaders of the American oil industry to discuss a concerted plan of production, which he is said to have taken up with the heads of the Royal Dutch Shell and the Anglo-Persian Oil companies abroad.

BUSINESS CLOSED

PHILADELPHIA, Aug. 28. (Exclusive)—Iroquois Electric Refrigeration Company, subsidiary of General Asphalt Company, today announced that business of that company will be terminated as of December 31, 1928 and will dispose of its electric refrigeration activities and other assets in that line to best advantage.

UTILITY BONDS CALLED

CLEVELAND, Aug. 28. (Exclusive) Ohio Public Service, an H. L. Doherty property, has called for redemption at par and accrued interest, plus a 2 per cent premium, $138,000 first and refunding mortgage sinking fund 5 per cent gold bonds of Richland Public Service Company, subsidiary.

GAS EARNINGS FOR JULY GAIN

Los Angeles Concern Shows 42 Per Cent Rise

Twelve Months' Profits in Slight Loss, However

Increases Reported in Cost of Operation

July net income, available for dividends, of the Los Angeles Gas and Electric Corporation exceeded July, 1927, by more than 42 per cent, but earnings for the twelve months ended July 31 were reduced by about 5 per cent from the amount reported for the preceding year, it was revealed yesterday in a statement of operations issued by the company.

July net profits totaled $1,407,644.99 after all charges including depreciation and interest, as compared with $1,311,445.73, in July, 1927, an increase of $59,268.31. The twelve months' net amounted to $4,350,725.64, as against $4,570,101.07 for the preceding year, a decrease of $219,375.43.

Gross earnings for July increased $96,199.26, or about 7.4 per cent, from $1,311,445.73 reported in July, 1927, to $1,407,644.99. Gross earnings for the twelve months increased $818,944.52, or more than 4 per cent to $21,498,316.10.

Operating expenses and taxes amounted to $775,035.50 for July, as compared with $744,445.86 for July, 1927, a gain of $20,589.64, or about 2.7 per cent. Operating expenses for the twelve months increased $746,870.08, or nearly 7 per cent, to a total of $11,879,954.32.

In addition to an increase in operating expenses and maintenance, depreciation write-off and amortization for the twelve months was higher than the preceding period, which accounts largely for the lower net.

Net operating earnings for July totaled $632,609.49, as against $566,999.87 in July, 1927, a gain of $65,609.63, or nearly 12 per cent. The twelve months' operating earnings amounted to $9,618,361.78, as against $9,546,287.34 in the preceding year, a gain of $72,074.44, or less than 1 per cent.

Grain Inquiry on in Argentina

BUENOS AIRES, Aug. 28. (AP)—The grain exchange has appointed a commission to investigate the abnormal drop in the price of wheat.

Members of the exchange today refused to express any opinion before the conclusion of the inquiry. The belief is frankly stated, however, that the decrease has been due to the speculations of powerful concerns, coupled with the spread of exaggerated reports regarding foreign crops.

HAY MARKET STEADY

Prices Advanced During Week With Demand Good

Hay markets during the week ending the 24th inst., with the exception of prairie hay, were firm with prices advancing due to the scarcity of good quality offerings and a fair demand, according to the weekly hay market review of the United States Bureau of Agricultural Economics. Prices of prairie hay declined to the lowest point this season with increased offerings.

Quoted, the 24th inst.: No. 1 timothy, Boston, $24.25; Pittsburgh, $21; New York, $25; Cincinnati, $20.50; Chicago, $22.50; St. Louis, $22.50; Aalanta, $23. No. 2 timothy, Chicago, $20.50; New York, $22.50. No. 1 clover, Cincinnati, $21.50; Chicago, $23.50. No. 1, alfalfa, Los Angeles, $20.50; Omaha, $21.50; Denver, $24.50; Atlanta, $33; Kansas City, U. S. No. 1 extra leafy, $24-$27; U. S. No. 1, $20-$22; U. S. No. 2 extra leafy, $22-$23.50; U. S. No. 2, $15.50-$18. No. 1 prairie, Kansas City, $9-$10; Omaha, $11.50 to $12; Chicago, $15.50; St. Louis, $15; Minneapolis, $15.

COTTON MARKET

NEW YORK, Aug. 28. (Exclusive)—The cotton market was turned up from its dragging condition of yesterday to the good rally of about 25 points on the average before the end of the forenoon today on another movement principally against the shorts. The Liverpool market rallied toward the close there and the weather was still rainy and unsettled in most sections of the eastern part of the belt, in addition to which there were more private reports concerning the spread of boll weevil damage in the central and western States.

The market started where it left off at yesterday's closing quotations at the average of about 18.80 for December, to next May's contracts. Those were the low quotations of the day. By 2:30 o'clock the same months were up to 18¼c on the average, with covering of shorts and some new buying by local traders followed this rise in making the high prices.

There was nothing else new in the day's developments influencing the market. At Liverpool cotton futures closed with a net advance of 3 to 4 English points.

CREDIT SITUATION SURVEY

Forecast Made of Tighter Money for Week-end Due to Extraordinary Demand

BY WILLIAM RUSSELL WHITE

[Copyright, 1928, by New York Evening Post, Inc.]

NEW YORK, Aug. 28. (Exclusive) In its enthusiasm over business, either the market foresees no permanent injury tighter money can inflict now, or it underestimates the potency of three forces designed to make funds dear that will press heavily with the approach of September 1.

Yesterday's 8 per cent call rate is viewed by close observers as the earliest manifestation of what might logically come in the next week in connection with, (1) the withdrawal of funds in preparation for the usual month-end settlements; (2) the extraordinary demands for currency certain to arise over the holiday, (which by many will be stretched this year into three holidays,) and (3) the launching of the clearinghouse's plan to reduce "others" loans.

Whether the combination of these three pressures will drive call funds to a new 1928 high above the 10 per cent level established in early July, last, is a question nobody can answer in a situation so sensitive as the present.

Repeatedly on these occasions in Wall street a sharp rise in the rate offered for demand money has attracted funds in sufficient volume to satisfy the demand. No fantastic rate presumably would stand long without inducing funds enough to bridge the emergency and level off the call charge.

Without minimizing the effects on money of the usual month-end withdrawals by the banks, and the shift in loans that this September 1 will bring as the clearinghouse plan begins operation, we must recognize the rising demands for currency as the outstanding known force to be reckoned.

At about this time each year more currency is demanded by customers at the member banks and they in turn make requests on the reserve banks. The loss of a dollar in currency for its immediate effect on money acts like the export of a dollar in gold. It is several times more potent than the extension of a dollar in credit.

At this particular time the usual seasonal loss of currency is accentuated by the demands of the Labor Day holiday.

Pickwick Lines Plan Intensive Passenger Drive

Traffic over the various stage lines owned or partially owned by the Pickwick Corporation will receive an impetus through a campaign of intensive operation planned by the management of the company. Attention which has hitherto been directed toward extension and acquisition of transportation units will be directed to a more efficient operation, C. F. Wren, president, declared yesterday.

It is estimated that an average of two passengers per each daily run may be added to the present traffic. This will mean the addition of 1030 passengers daily on the $15 daily divisional schedules, or about 375,000 yearly. Based on an average fare per run of $3.50, additional gross revenue for a year would total $1,295,000. Gross operating revenue for 1927 amounted to $6,082,210.

The Pickwick Corporation operates a complete plant for manufacture and maintenance of coaches in this city. Production through the summer has run from two to three coaches a week. Three "Nite-coaches" or pullmans, just recently introduced, are in process of construction and it is expected about seven will be delivered from the factory by the end of the year. The company has just started to build completely its own motors. About 400 men are employed at the factory.

KEROSENE ADVANCED

PHILADELPHIA, Aug. 28. (Exclusive)—Effective tomorrow, Atlantic Refining will advance the tank wagon price of kerosene 1 cent a gallon in Pennsylvania and Delaware, making it 15 cents.

Motor Wheel Offical Holds Optimistic View

DETROIT, Aug. 28. (Exclusive)—Regarding the announcement on the 23rd inst. of a stock dividend of 25 per cent and cash of 75 cents, H. P. Harper, president of the Motor Wheel Corporation, today issued the following statement:

"On March 8, 1927, Motor Wheel stockholders authorized an increase in capitalization from 600,000 shares no par common stock to 1,000,000 shares. Since that time progress of this corporation has been most gratifying.

"July figures just available show the largest sales volume of any month in our history and to date. August sales have exceeded July. A survey of business already booked for the balance of this year indicates that our sales will total close to $30,000,000 for 1928 as compared with $20,000,000 for 1927.

"This remarkable increase in sales volume has, of course, meant greatly increased earnings. Net profit in July of this year totaled $312,028, as compared with $105,567 for July, 1927. This is equivalent to over 56 cents a share on the present 560,000 shares of common stock outstanding, or over 45 cents a share on the 687,500 shares, which will be out after issuance of the 25 per cent stock dividend."

BOND INTEREST PAID

NEW YORK, Aug. 28. (AP)—Directors of the Great Northern Railroad declared a 3 per cent interest payment on the outstanding 6 per cent adjustment mortgage bonds for the first six months of the year. From April 1, 1924, until the first of this year the road had been paying interest at 4 per cent on the bonds, which became cumulative at 6 per cent after January 1, 1928.

STOCKS RESUME UPWARD CLIMB

Steel Leads Market, Moving to New High Level

Firmness of Call Rate Aids Price Advance

Day's Trade Volume Exceeds 3,000,000 Shares

NEW YORK, Aug. 28. (AP)—Establishment of a new high level for the year by United States Steel common featured the resumption of a broad upward movement in today's stock market. Although a few weak spots cropped out here and there, final quotations disclosed a preponderance of net gains, many of which ran from 2 to 11 points. Trading started off at a slow pace but gathered momentum as the session progressed, the day's sales again crossing 3,000,000 shares.

Failure of the expected "money squeeze" to develop was an important factor in the day's buying movement. Call money renewed at 7½ per cent, as against 7 yesterday, and held steady at that figure all day. Call loans ran up to 8 per cent late yesterday. Banks called $15,000,000, or more, in loans but these were easily replaced by the flow of interior funds.

STERLING HITS LOW

Establishment of a new low level for the year by sterling exchange revived hopes of a return flow of gold from Europe in the event of any further stiffening in money rates here. Wall street figures that each dollar in gold is the basis for $10 in credit.

There was nothing in the day's news to explain the sudden spurt of nearly 4 points in Steel common to a new peak at 155. The stock has been under quiet accumulation for some time in the belief that the recent stiffening in commodity prices and the expanding demand for steel products would be reflected in higher earnings later in the year. Several of the independent steels also were in great demand, Central Alloy and Inland Mounting to new high levels.

The brisk advance in prices in the face of wide-spread predictions of another upward flurry in money rates later in the week puzzled many veteran traders. Operators working for higher prices apparently acted on the theory that high money rates will only be temporary and that easier conditions will prevail when the September first dividend and interest payments return to the banks.

BEARS ROUTED

Bear traders, who have been stubbornly contesting the advance, were again forced to cover in some of the highly speculative issues. International Nickel, which is believed to harbor a large short interest, ran up more than 9 points to a new high record at 112, closing at the top. Other issues to push into new high ground were Barnsdall A, Fleischmann, Brockway Motors, Glidden, Eaton Axle, Commercial Investment Trust, Loose Wiles Biscuit, American Beet Sugar, American Express, May Department Stores, Allis Chalmers, Otis Steel.

(Continued on Page 16, Column 1)

Why Bond Prices are *Low*

and why the present situation offers an opportunity for Investors

The present comparative low price of bonds is due to many diverse factors. Chief among these is the diversion of millions away from invest

NEW YORK CURB STOCKS

NEW YORK, Aug. 28. (AP)—After holding operations in abeyance until the last two hours of trading, to see what credit developments would be, speculators for the advance carried prices briskly forward on the curb market today. Confidence became general when it was apparent that the call money would remain plentiful at 7½ per cent throughout the day.

Monsanto Chemical was a feature of the industrials, soaring 12½ points, to a new high at 80, while Bullard Machine Tool shot up more than 4 points to a new top at 66, and U. S. Asbestos went to a new peak at 41¾ in a smaller gain. Columbia Graphophone, Celanese and United Piece Dye went ahead 3 and 4 points, while Bancitaly gained nearly a point and Fox Theater "A" changed a small loss into a small gain. Novadel Process was an outstanding weak spot, dropping 6 points to a new low at 20. Fuller Brush fell 5 points and Carnation Milk 3. General Baking issues were in supply.

Radio shares showed group strength. De Forest gained about 2 points and Freshman 1 point in active trading, while Spanish and General was steadier. Schiff Company preferred led the chain stores with a 10-point gain, carrying it to a new high, while Spiegel May Stern shot up nearly 7 points. Noranda was the leader of the mines, gaining nearly 3 points, while Newmont gained more than a point. Shattuck Denn, however, lost an early gain and closed down nearly a point. Consolidated Copper was in supply.

Utilities improved. American Gas and Electric gaining 5 points. Electric Bond and Share overcoming early weakness, and Superpower issues steadying. American Light and Traction, however, dropped 6½ points.

The closing price is omitted when same as the low, and both low and close when same as the bid.

Wheat Growers Profit by Hedging Operations on Grain Market

(Copyright, 1928, by N. Y. Evening Post, Inc.)

NEW YORK, Aug. 28. (Exclusive) Even if the price of wheat has declined perceptibly from levels prevailing in the spring, many growers have suffered none from the drop, according to reports from the West. Hedging by farmers reached a volume this year never before recorded, it is said.

Cotton planters have been credited for many years with making good profits by hedging their crops early in the season, but grain growers were generally believed to be less alert. Thousands of them have made use of the market this year, however, to save profits in the general decline, according to Investment News, Chicago.

"The increased farmer participation in the future market is regarded by dealers as an important step that will bring home to the grower the necessity of this important and basic cog in the century-old system of grain marketing," says the magazine.

FARMER USES MART

Farmers long have been urged to make use of the market for hedging. They often have had the opportunity of selling "short" in high markets, since they should know the approximate size of their growing crops and deliver the grain when harvested.

An example was cited in the article referred to here. "Fifty wheat growers, all representative growers in Southwestern Kansas and Northern Oklahoma," says the article, "formed a group and carried out a very successful hedging transaction. Last April they were attracted by the highest level of prices reached in three years. They made inquiry of a country elevator dealer near Turon, Kan., as to the feasibility of using the futures market to obtain or insure the prevailing record price for their prospective wheat crops. The fifty farmers, who expected a total production of 200,000 bushels in about twelve neighborhood counties bordering the two States, hedged their growing crop.

PROFIT SHOWN

"Virtually the entire transaction was consummated in the closing days of April, when the Kansas City July price reached $1.60 1-4, the highest in three years. The closing price of the market last Saturday was $1.23 3-8, giving the investors a profit of 42 5-8 cents a bushel more than their neighbors had the contract been closed that day.

"Some of the country elevators active in encouraging the 200,000-bushel trade included the Farmers' Elevator Company of Castleton and Sterling, Kan.; the Pretty Prairie Co-operative Grain Company and the Turon Elevator Company."

Five Days of Glad-Handing

Monday the Day After Labor Day Open House Will Be Held in Our New Los Angeles Headquarters

Another Unusual Advertisement Written

By ELWOOD LLOYD

While holidays have a strange
effect of making plans change,
is that they often provide
opportunities for pleas-
hills would not otherwise

Then John D. Richell, presi-
of the Bay Cities Guaranty
ding-Loan Association of
Alaska, and myself first
mmed talking about the
ce of my newly formed
ding and loan association
his tried and tested organi-
ing announcement for Sep-
first, because that is the
upon which his associa-
was to celebrate its seventh
rsary.

at was the original plan—a
opening of the Los An-
Headquarters on Septem-
first. Then we commenced
king up to see how that date
ld work.

st of all we discovered the
of the month fell on a
day. That in itself wasn't
ad—but it didn't seem so
when we discovered the
ding Monday was Labor
e holiday when all finan-
business institutions and
y of the commercial and
ping offices would be closed.
seemed foolish to stage a
d opening on the first of a
-day holiday period, and
at the very end of the va-
on season.

But financial institutions
at an opening day. Just one
when, all surrounded by
ers and the smell of fresh
t, the management basks in
congratulations of friends,
of 'em so busy smiling they do
have an opportunity to trans-
any of the real business for
ich the institution was
ated.

We decided to be a little different. If most folks had a one-day opening event and found it good we would go them a little better and have a five-day period in which to welcome our friends and do some real business. So we decided to postpone our opening until the day after Labor Day—September 4—and continue it for the remainder of the week. We are going to have a five-day reception—hoping that the flowers are all fresh and don't wilt too badly during that time.

Then, as another novel feature, instead of giving the usual thing in the way of opening day souvenirs—a flower, or a pencil, or a notebook, or some such thing—we have decided to make it something worth-while for our future customers. This something worth-while will be an extra one per cent for the first year their surplus savings are invested with us. This souvenir will be available to investors for the entire five days of our opening week.

There is no need to use space at this time to tell how safe and secure building and loan investment certificates are for careful investors. The records of the associations operating throughout California tell this story—and the records of the Bay Cities Association shows more than 5000 satisfied investors.

Our new and handsome Los Angeles Headquarters are located on the ground floor of the Detwiler Building at 412 West Sixth St.—on Pershing Square. Won't you come in and get acquainted with us during our opening period, and let us tell you of the advantages of our souvenir?

QUARTERLY DIVIDENDS

PLAN to invest at least a portion of your funds in the Pickwick Corporation Preferred and Common Shares, where you will receive regular quarterly dividends payable in cash.

Your investment will be protected by the large and stable earning power of the Pickwick Corporation—one of the largest and most strongly entrenched corporations of its kind.

Call, phone, or write today for complete information.

SECURITIES DEPARTMENT

PICKWICK CORPORATION

801 Van Nuys Bldg.
LOS ANGELES
Phone FAber 1643

International Reinsurance Corporation capital shares at the present market price offer an unusual opportunity to get in on a favorable basis in a corporation organized by a group of financiers whose other companies have earned outstanding profits for stockholders.

International Reinsurance Corporation

OWNERSHIP and management of the corporation is vested in a highly representative group of insurance men and capitalists, including interests identified with the strongest insurance group on the Coast. Officers and directors include:

CARL M. HANSEN
Organizer of the two principal casualty reinsurance companies in the United States.

GEORGE M. WALLACE
Vice - President, Security Trust & Savings Bank, Los Angeles.

STUART O'MELVENY
First Vice-President, Title Insurance and Trust Company, Los Angeles.

O. REY RULE
Executive Vice-President, Pacific Finance Corporation.

JAMES R. PAGE
Vice-President, Citizens Geles First National Trust and Savings Bank, Los Angeles.

C. SUMNER JAMES
Vice-President, Citizens National Trust and Savings Bank, Los Angeles.

E. J. NOLAN
President, Merchants National Trust and Savings Bank, Los Angeles.

W. P. JEFFRIES
President, W. P. Jeffries Company, Los Angeles.

D. C. McEWEN
Vice - President, Pacific Mutual Life Insurance Co.

Judging by the remarkable record established by other companies organized by these men, the corporation's stock presents an attractive investment opportunity, which should show a great appreciation in market value with the future prosperity of the Company. We recommend these shares for your investment.

An interesting four-page analysis of this important corporation will be sent on request. Send name and address below or phone TRinity 6131.

NEW YORK BOND PRICES

NEW YORK, Aug. 28. (AP)—The bond market was only moderately active today and price movements were irregular. Banks called upward of $15,000,000 in loans and time money was firm at 6½ per cent. Indications of easiness in the call money market apparently failed to encourage trading. Traders now are looking for the customary increase in activity after Labor Day, although it is admitted that continued high money rates may tend to offset any seasonal improvement.

Utilities were among the more active issues today, their firmness reflecting the strength of utility stocks. A 7-point gain by Brooklyn Union Gas 5½s was the feature. Public Service of New Jersey 4½s closed with a net gain of 2 points on a heavy turnover. United Electric Light and Power 5½s encountered profit-taking.

Coppers again were active, Anaconda 7s gaining more than a point. Dold Packing 6s, Paine Exchange 7s with warrants, Walworth first 6s and Fisk Rubber 8s closed with gains ranging from 1 to nearly 2 points. There were some weak spots, however, including Dodge Brothers 6s, Barnsdall 6s, Humble Oil 5s and American Smelting 5s.

Rails were irregular, reflecting movements in the stocks, as well as earnings reports. Great Northern 4½s, Denver and Rio Grande Western 5s, Soo 5½s, New York, Westchester and Boston 4½s and Southern Pacific 4s moved to slightly higher levels. Prisco 4½s were rather heavily liquidated, sagging nearly a point and St. Paul 5s of 2000. Erie 5s, Peoria and Eastern 4s and others showed similar losses.

The foreign list was more active, with Republic of Cuba 4½s, Montecatini 7s, Irish Free State 5s and Tokio Electric Light 6s making the wider gains.

United States government obligations were lightly traded.

Public offering will be made of $2,000,000 East Bay Municipal District California 5 per cent gold bonds, maturing 1938 to 1974, and priced to yield 4.85 per cent, another offering will be $500,000 sinking fund 6 per cent gold debentures of William H. Wise & Co., publishers.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices in the order given. To expedite transmission, the close is omitted when the same as the low, and both low and close when same as high.

STOCKS RESUME UPWARD CLIMB

(Continued from Thirteenth Page)

Stanley Company of America and Davison Chemical.

Curtiss and Wright each rallied about 5 points. Abraham & Straus, Brooklyn Union Gas, Commercial Solvents, R. H. Macy and United States Rubber first preferred also advanced 5 points or more.

Loft, which had been making new high records almost daily for the past fortnight, suddenly collapsed 4½ points to 13½ on the withdrawal of pool support. Weakness also cropped out in International Harvester, Freeport Texas, Otis Elevator and Warren Brothers.

In the railroad group, Missouri Pacific moved into new high ground while Jersey Central broke 11 3-4 points to 300.

Time money and Commercial Paper rates held firm.

Cotton rallied $1.50 a bale and wheat more than a cent a bushel. Coffee prices were slightly easier and sugar quotations were firmer.

Demand sterling sold down to a new low at $4.84 13-16 but cables held steady around $4.85 1-4. Japanese yen broke 17 points to 45.06 cents.

Grain Market in Brisk Rally on Short Covering

CHICAGO, Aug. 28. (Exclusive)—A heavily oversold condition was disclosed in the grain markets today, and with rapidly, with September corn in the lead. The latter acted tight from the start and it took but little buying to start values upward. At the top it showed 4½c over the finish of the previous day, touching 97⅝, the highest price since the 3rd inst., with the close at a net gain of 3⅝c. The deferred deliveries advanced 2¼@2¾c and closed at the top. Strength in September corn was instrumental in bringing about a rally of 2¼@2½c in wheat from the low point, with a net gain of 1⅛@1¼c. Oats closed ⅛@1¼c higher, while rye was up ¾@1¼c.

There was nothing in the general run of the news to account for the sharp upturn in grain values, but the bearish factors have been so obvious that trade sentiment had become almost unanimously bearish and the markets were heavily oversold.

September corn has acted tight for some days and has been selling at a discount of 6@14c under contract grades in the sample market. Part of the bulge has been in the way of readjustment with the cash article. Sellers of offers were forced to protect themselves on the way up.

Local shorts were free buyers of December corn, with selling against daily and weekly offers a factor in checking the advance. The country took advantage of the bulge to sell around 300,000 bushels cash grain to arrive.

A decrease of 2,033,000 bushels was shown in North American available supplies of corn, with the total now 11,018,000 bushels, or 13,900,000 bushels less than last year. Broomhall reported that the Balkans had bought a full cargo of Argentine corn recently, and it was claimed that purchases of new-crop American had been made for deferred shipment as the result of a poor yield abroad incident to drought and heat. Somewhat less favorable crop comments came from Nebraska. There was little pressure on the December until it touched 7 per cent. A leading local operator, who has been bearish for some time, was credited with having been a liberal buyer through commission houses.

Weakness in Liverpool, which was off 1@1½d, in the face of the upturn in North America on Monday, was responsible for scattered selling and a lower range of values here early, but the strength in corn started shorts to covering and there was no material pressure on the way up, with strong commission house buying developing around 1.16 and over for December. Little attention was paid to the relative easiness in Winnipeg, which was up only ⅛@⅞c for the day, with favorable weather for harvesting in the West.

Foreign demand for cash wheat was decidedly slow and no sales of consequence were reported at the seaboard. World's available supplies decreased 2,389,000 bushels for the week, and are 182,970,000 bushels, against 149,307,000 bushels last year.

Cash interests and commission houses bought September oats and there was a material let-up in hedging sales and the movement in the interior has let up considerably. Sales of 125,000 bushels were made here to exporters, with charters for that quantity to Montreal. Trade in rye was not large, but the market was firmer in sympathy with wheat.

Character of the provision markets trading was the same as on the previous day, being largely in changing lard from September to October and December, at the same spread as of late. There was also a little buying of distant deliveries, while foreign longs sold the near-by. At the close, September was 2¼c lower and other months 2½@10c higher, the latter on January.

Little interest was on in meats, yet short ribs closed 10@15c higher and bellies unchanged to 2½c lower.

LOS ANGELES MARKET

CATTLE—The moderate supply offered mostly she stock, including a liberal share of dairy type cows, cleaned up at steady to weak prices, the inbetween grades of the stock being the slowest to move. Bulk yrgs sold at strong prices. Two cars of Nevada steers, cows and heifers were still unsold.

Other sales consisted of odd head of medium kinds at 12.00 and a few very thin steers from $7.50@9.50.

Odd head of heifers sold above 10.00, while odd head and small lots of medium and good cows were fairly numerous from 8.00@10.00. A car of medium, 1165-pound dairy type cows turned for 8.85, while a car of common 1085-pound kinds made 8.35. Odd head and small lots of common and medium cows cleared from 7.50@9.00. Cutters and low cutters moved freely from 3.50@7.00. Good bulls were fairly numerous from 8.50@8.75, while medium kinds turned from 7.50@8.25, with common bulls around 7.00.

CALVES—The small supply was cleaned up readily at strong prices. Half a load of good 320-pound vealers sacked at 13.00. Odd lots of other vealers and good and choice weighty calves cleared from 12.00@14.00, while a few still and common kinds turned from 8.00@11.50.

HOGS—Demand was not overly active and two loads of the ten offered were still unsold. Three of the ten cars were held over from Monday. Prices were generally steady with Monday's averages. The day's top was 14.00, for two loads of 187 and 194-pound Idaho and Nebraska butchers. Three loads of 174 to 180-pound averages turned for 13.90 and 13.80, while three cars of mixed 172 to 184-pound butchers cleared from 13.75 to 13.90. A sizeable lot of mixed 132-pound Colorado brought 12.00. The general run of packing sows turned from 9.75@10.00, while a few very thin kinds sold down to 9.00.

SHEEP—None. Medium to choice lambs were quoted from 11.00@13.00, with medium to choice wooled ewes from 5.00@7.00.

TODAY'S QUOTATIONS

Pantages, Seventh and Hill—"Home, James."

Glendale Will Organize Club to Fight Smith

GLENDALE, Aug. 28. (Exclusive) Organization of the independent voters of Glendale into a group that will combat the election of Gov. Smith, Democratic Presidential nominee, is planned by Councilman W. F. Tower and a number of civic leaders, who declare, in a statement issued today explaining the plans of the organization, that "the main issue is whether or not corrupt Tammany Hall politics, as personified by Al Smith, shall control the destinies of our great republic for the next four years."

The organization will be separate from any Republican club or control and will disband as soon as the November elections are over, "with the knowledge that they have performed a public duty and discharged a sacred obligation." The voters who are sought as members of the new organization, Tower points out, are those who would not under ordinary circumstances vote the Republican ticket, but who are patriotic enough in times of national peril to rise above party affiliations.

Poland Arrests 62 Communists

WARSAW (Poland) Aug. 28. (AP)—Sixty-two asserted Communist leaders were arrested and large quantities of literature confiscated today when the police raided more than 100 homes and meeting places.

The raids followed announcement by "Junior Communists" that they would celebrate the seventh anniversary of their establishment in Poland with street demonstrations September 2.

Several hundred counterfeited passports were seized.

About $20,000,000 a week is spent in England on the adornment of women.

CRAZED MAN ENDS LIFE OVER FEAR OF HANGING

STOCKTON, Aug. 28. (AP)—Laboring under the delusion that some one was going to hang him at 10 o'clock this morning is thought to be the motive behind the suicide of Peter Maurino, 32 years of age, Swiss-Italian fruit worker. He shot himself with a small-bore rifle and died instantly. Earlier in the day he told a friend that he was to be hanged at 10 o'clock.

WRIGLEY SEES ROUT FOR SMITH

Magnate Says New York Will Go for Hoover in Unprecedented Landslide

Herbert Hoover will be accorded the greatest plurality ever attained by an American Presidential candidate, in the opinion of William Wrigley, Jr., Chicago chewing-gum magnate, who yesterday was at the harbor for semiannual inspection of his local shipping interests.

"Hoover's popularity with the American public is going to increase from now until November 6 with the speed and magnitude of a snowball rolling down a mountain side," said Mr. Wrigley.

"The reason is simple. The American voter in general has come to view this nation as a huge corporation, with 125,000,000 stockholders, and doing foreign business which in 1928 will total more than $9,000,000,000. The average citizen wants, as the head of this great and going concern, a man with proven executive ability and administrative experience.

"The American public sees in Herbert Hoover the man who, above all Americans, has a broad national understanding, coupled with long experience in foreign politics and commerce, that makes him the one man for the biggest job in the world.

"I think he is the greatest Presidential material—not even excepting Theodore Roosevelt—in American history," he concluded, "and I believe Herbert Hoover will be given the greatest vote ever accorded a candidate."

Mr. Wrigley further predicted that Gov. Smith, as the Democratic candidate, will not carry his home State of New York, that he will lose much strength in the Middle West, but that the South will remain loyal to the Jeffersonian banner.

Mexican Rebel Band Defeated

GUADALAJARA (Mex.) Aug. 28. (AP)—A band of insurgents attacked the town of Puente Grande, killing one citizen and wounding a woman. Federal troops from the nearest garrison pursued the group and killed two of the insurgents, wounding several others. The remainder fled.

WELL HAS POTENTIAL 130,000-BARREL FLOW

AUSTIN (Tex.) Aug. 28. (Exclusive)—Confirmation today was received by the oil-and-gas division of the Railroad Commission of the report that in a prorating test made of the Gulf Product Company's new well in the Yeates field of Pecos county, the gage recorded a flow of 5232 barrels in one hour, made through two six-inch and three four-inch lines. The official report says that if opened the well would have a flow at the rate of 130,000 barrels a day.

RURAL BORGIA'S MURDERS OUT

Missouri Farm Woman Tells Tale of Poisoning

Confesses to Three Killings; Five More Suspected

Loss of Bonnet Worries Her But Crimes Do Not

UNION (Mo.) Aug. 28. (Exclusive) One of the most amazing documents in Missouri criminal history was revealed here today when the signed confession of Mrs. Bertha Gifford—faded and gray-haired farmer's wife who has admitted three murders and is suspected of at least five more—was made public.

In it the woman, now regarded as a rival of the late Mrs. Belle Gunness of Indiana "murder farm" notoriety, reveals that she made cold-blooded poisoning a regular trade.

And today, while Franklin county was in a fever of excitement about her and diggers overran her "murder farm" near Catawissa for more bodies of her victims, she remained wholly unperturbed in her jail cell.

OLD BLACK BONNET

"Go back to the farm and get me my black bonnet," she cackled shrilly to her husband, E. R. Gifford, who vainly sought to induce her to repudiate her confession. "I can't be easy in my mind without that bonnet on." Here is the text of her confession:

"I, Bertha Gifford, hereby state of my own free will without threat or promise of immunity that my husband and I lived near Catawissa about August 8, 1925, when George Schamel brought his son Lloyd, 9 years of age, and his son Elmer John, about 11, to our house, where they made their home with me.

"Lloyd was sick at the time. Dr. Hemnker waited on him and left some medicine for him. I put some arsenic in the medicine before I gave it to him and Lloyd died on August 11.

"About September 18, 1925, Elmer John took sick. Dr. Hemnker was called and left some medicine for him and I put some arsenic in it and Elmer John died about September 22.

THIRD VICTIM

"About May 15, 1927, Edward Brinley, 48, drove up to our house. He was drunk. He came in, sat down for a little while then got up and went out and fell down on the concrete walk.

"My husband went out and brought him in and fixed the bed for him in the front room and laid him on the bed. His mother came over and insisted he call a doctor. So I called Dr. Hemnke.

"He left some medicine for him and I put some arsenic in the medicine. He died May 26.

"In all three cases the patients were suffering from severe pains in the stomach and I put arsenic in the medicine to quiet their pains."

Probably the most pathetic feature of the case thus far has been the devotion of the husband of Missouri's "murder ogress."

Notwithstanding her confession and her word to him that she has told the truth, he still believes she is innocent.

FIVE MYSTERIES

Five additional deaths in the house of mystery were those of Mrs. Emily Gifford, her mother-in-law, January 24, 1912; James Gifford, May 8, 1913; Sherman Pounds, February 20, 1917; James Ogle, November 20, 1917, and Beulah Pounds, December 27, 1922.

Although the series of deaths long had mystified citizens of the country town and surrounding country, action against Mrs. Gifford was not taken until St. Louis police authorities came here and began investigation.

The result was that two indictments, charging murder, were returned against Mrs. Gifford and she was arrested at her home.

NEW PARDON MOVE MADE FOR MOONEY

Fremont Older Leader of Delegation That Makes Appeal to Governor

SAN FRANCISCO, Aug. 28. (Exclusive)—Another attempt to obtain a pardon for Tom Mooney, convicted for the Preparedness Day bomb outrage in 1916, when many persons were killed, was made today when a delegation of San Francisco people headed by Fremont Older, appeared before Gov. Young at his temporary offices in Berkeley, with a petition for Mooney's freedom.

Attorney Frank P. Walsh of New York, who frequently has appeared in union-labor movements, made the argument and presented a review of the case and the testimony heard at the Mooney trial.

Gov. Young refused to make any comment on the presentation or the assertions made by Walsh. He said he will take the petition under advisement and review certain portions of the testimony especially that part which Walsh declared bore out the asserted "frame-up."

Kellogg Worn by Strenuous Day in Paris

PARIS, Aug. 28. (AP)—A strenuous day, varied between Old World social functions and the latest thing in New World photography, led Secretary Kellogg to retire early tonight on the eve of his departure for Ireland tomorrow.

Mr. Kellogg arose at an early hour, lunched with President Doumergue at the historic old State castle at Rambouillet, attended a reception at the City Hall in the afternoon and posed for the color and talking pictures.

The President's luncheon for the signers of the Kellogg-Briand outlawry-of-war pact culminated the social events given in honor of the visiting statesmen.

Calles Llama a los Gobernadores para que Oigan su Mensaje

CIUDAD DE MEXICO, Agosto 28. El señor Cortes Gil, explicando la llegada a Méjico de los comandantes militares de todos los Estados, dijo que habian sido invitados por el Presidente Calles para presenciar la apertura del congreso y oir el último mensaje del propio Calles como jefe del ejecutivo. También estarán presentes los gobernadores civiles de los Estados. El señor Cortes Gil es ministro de lo Interior en esta administración.

Dice El Universal que, por lo que ha oído en círculos autorizados, el discurso del Presidente va a ser de grandisima importancia. Va a tratarse en él de los problemas que ha acarreado la muerte del general Obregón, y va a encarecer el orador a los jefes militares que busquen la solución al problema de la sucesión presidencial, y que lo hagan animados de patriotismo y desinterés.

Morones Tiene la Intención de Quedarse en Méjico

CIUDAD E MEJICO, Agosto 28. Luis Morones, ministro que fue de Industria, Comercio y Trabajo, ha desmentido hoy las noticias de que piense alejarse de Méjico. Manifestó que él y otros miembros del comité central de la Confederación Regional de Obreros Mejicanos permanecerán en el país trabajando en prp de dicha organización, y desenvolviendo el movimiento laborista, en la misma forma que lo hizo él antes de formar parte del ministerio.

Pronto Comenzarán las Pruebas de un Nuevo Zeppelin

MADRID, Agosto 28.—El coronel Herrera, director técnico de la línea aérea de Sevilla a Buenos Aires, ha anunciado hoy que para mediados de Septiembre comenzarán las pruebas de vuelo del dirigible "Conde Zeppelin" construido en Friedrichshafen (Alemania).

Se ha proyectado hacer uso del "Conde Zeppelin" para inaugurar la línea aérea entre Sevilla y la capital de la Argentina.

La Señorita Boll es quien Tiene el Mando en el Propuesto Vuelo

LONDRES, Agosto 28.—Mabel Boll es la verdadera comandanta en jefe del avión Junkers, en el que ella, Charles A. Levine y Bert Acosta esperan atravesar el Atlántico de este a oeste. Tal es lo revelado esta mañana por Levine a la Prensa Asociada.

"Mis Boll es quien preside en esta aventura", manifestó Levinc. "Ella organizó todo en los Estados Unidos, y yo sólo he venido para ayudarle a comprar el aeroplano. Por supuesto que, si ella emprendiere el vuelo en Agosto, yo volaría en su compañía, pues, debido a compromisos de negocios, tengo que estar en los Estados Unidos para el 10 de Septiembre. Si no pudiéramos salir antes del 4 de Septiembre, tendré que tomar un vapor."

Ha Muerto el Gobernador de Dakota Septentrional

BISMARK (Dakota del Norte), Agosto 28.—Ha fallecido aquí la mañana de hoy el señor Sorlie, gobernador de Dakota Septentrional. Determinó su muerte una afección cardiaca que desde hace tres días tenía gravemente enfermo al gobernador.

Davis Tomará la Palabra en Favor de Hoover

SEATTLE, Agosto 28.—El señor Davis, ministro de la Guerra, ha anunciado aquí anoche que va a pronunciar discursos por todo el oeste central en pro de Herbert Hoover.

"Va a ser dura la lucha; pero estoy seguro de que ganará", dijo Davis. "Decidiré en la campaña las cualidades de Hoover y la gran simpatía de que disfruta entre las votantes."

Ayer tarde arribó a ésta el ministro Davis a bordo del acorazado "Penalvania". Viene de Honolulu en compañía de sus hijas Alice y Cynthia.

Espera el ministro Davis salir esta noche para Washington, donde permanecerá hasta que lo llame el señor Hoover a campaña activa.

NOTAS LOCALES

Señoritas de Jamaica Encantadas con el Clima de Los Angeles

Hállanse paradas en el Hotel Biltmore las señoritas M. y G. Hudson, de Savanna-La-Mar (Jamaica), cuyo padre es propietario de una gran finca de campo en aquella isla. Las referidas jóvenes nacieron en Jamaica.

"En ésta nuestra primer visita a los Estados Unidos", dijo la señorita M. Hudson, "venimos a ésta por tres días, y ya llevamos tres semanas de estada. Nos deleita el color de este cielo, y nos ha parecido ideal este clima. Pero, hemos notado con pena que la gente arroja al suelo en cualquier parte semillas y cáscaras de frutas. En Jamaica se arrestaría inmediatamente a los que tal hicieran."

"No podemos acostumbrarnos a las piernas desnudas de las muchachas que se pasean en trajes de tarde, y los calcetines que llevan algunas hacen que las tome una por jovencitos vestidos de mujer."

El Estado de Tejas Va a Mandar por un Muchacho Preso en Esta

Necesitan en Tejas a Leo Campos, de 21 años, que hace poco fue detenido aquí por sospecha de robo, pues parece estar complicado en cuatro delitos de esa clase, con fractura. En Marfa (Tejas) se fugó de la prisión, después de haber sido convicto del asesinato de una joven, según aviso telegráfico enviado a nuestra policía por las autoridades de la citada ciudad.

Pronto llegará de allá una teniente sheriff, que gestionará la entrega del preso para conducirlo a Marfa.

MORONES PROPOSES TO STAY IN M

Daily Crude Oil Production for Week Points U

NEW YORK, Aug. 28. (A. P.)—The daily average gross crude oil production in the United States increased 32,950 barrels for the week ended the 26th inst., totaling 2,450 barrels, says the weekly summary of the American Petroleum Institute. The daily average production east of California was 1,947,050 barrels, an increase of 950 barrels.

Daily average imports of crude oil at principal ports for the week ended the 25th inst. totaled 297,000 barrels, compared with 297,500 barrels for the previous week, and 297,500 barrels for the four weeks ended the 25th inst. Daily average receipts of California oil at Atlantic and Gulf Coast ports for the week ended the 25th inst. totaled 54,971 barrels, compared with 54,971 for the previous week and 76,536 for the four weeks ended the 25th inst.

TULSA (Okla.) Aug. 28.—(A. P.)—Oklahoma operators have begun extending shut-in production over the entire state, the production increased more than 300,000 barrel mark during the week ending August 25, according to the latest issue of the Oil and Gas Journal.

SAN FRANCISCO, Aug. 28.—(A. P.)—The Union Petroleum Institute, in a statement published today, estimated the average amount of crude oil produced in California during the week ending yesterday at 670,400 barrels, divided as follows: Long Beach, 192,000 barrels; Santa Fe Springs, 38,000; Huntington Beach, 17,700; Dominguez, 17,700; Torrance, 17,700; Dominguez, 6000; Rosecrans, 6000; Inglewood, 30,000; Seal Beach, 28,000; Signal Hill, 4000; Midway Sunset, 73,500; all others, 125,000.

Women!

DEATH CALLS MRS. CHAPLIN

Mother of Film Comedians Expires in Hospital

Celebrated Actor at Bedside as End Comes

Elder Son Absent in Paris; Funeral Arranged

Funeral services will mark the last rites for Mrs. Hannah Chaplin, 61 years of age, mother of Charles and Sydney Chaplin. The funeral services will be conducted privately from the William Strother mortuary in Hollywood Thursday or Friday afternoon, according to announcement today. Interment will be at the Hollywood Cemetery.

Alfred Reeves, general manager of the Chaplin studio, announced in behalf of Chaplin that aside from the family only by close friends of his mother. Services will be Episcopalian.

CHARLES AT BEDSIDE

Mrs. Chaplin died at noon yesterday at the Physicians' and Surgeons' Hospital in Glendale, where she had been taken little more than a month ago, after being stricken with a serious internal disorder. Charles was at her bedside when death came.

On Sunday and Monday Mrs. Chaplin rallied when her son visited her at the hospital and it was then believed that she had passed the crisis of her illness. Chaplin, however, was summoned hurriedly to the bedside yesterday morning, and died three hours later. Friends of Chaplin say the comedian is prostrated with grief over his mother's death and on the verge of collapse at his home.

Sydney Chaplin is in a small town near France outside of Paris working in an English picture company and was notified by cable of his mother's death. He and Charlie are the only surviving relatives of Mrs. Chaplin.

CAME FROM ENGLAND

Mrs. Chaplin came to this country seven years ago from England to reside with her sons. On her arrival in this country she was suffering from a mental disorder due to the shock suffered during air raids in London. Each year her condition has improved and the Federal government made special provision for her to remain in this country. Charles and Sydney were allowed to keep her here by posting bond and it was only two weeks ago that the government renewed the permit.

Mrs. Chaplin was born in London and when young began a career on the stage, appearing on the continent under the name of Hannah Harley with the Gilbert and Sullivan light operas, being well known on the British stage. She broke up her career when her children were born. Her husband was Charles Spencer Chaplin, Sr., well-known as an actor. He died thirty years ago.

When his mother came to this country Charles built a home for her in the San Fernando Valley near Lankershim, where she had always lived.

New Air Liner Makes Hop Here in Quick Time

The second of the new twelve-passenger trimotored air liners made by the Maddux Air Lines by the Ford Motor Company was delivered yesterday. The huge ship headed into port at 1:35 p.m. with Larry Lynn, chief pilot of the lines, and Jean Rodda, mate, in charge. The plane left El Paso yesterday at 6:05 a.m., stopped forty-five minutes at Yuma for lunch and refueling and arrived here in seven hours and forty-five minutes' actual flying time.

On board were two members of the "Wise Birds" of Detroit, that organization being composed of ten prominent business men of that city who have co-operative ownership of two or three small planes for personal use. The two were E. S. Evans, president of the Auto Loading Company of Detroit, and Millar F. Bowlus, assistant secretary of the Union Trust Company of that city. Another passenger was Mrs. John Collings, wife of the test pilot of the Ford-Stout aviation staff.

FILM PAIR ON VACATION

Richard Arlen and his wife, Jobyna Ralston, left Hollywood yesterday for San Francisco on their first vacation in months. They drove to the northern city and plan to spend a week there before returning to start work again at the studios.

INTENSIVE HUNT FOR MAN OPENS

Realty Dealer of Venice Missing Since Leaving Home on Sunday

Chief of Detectives Cline yesterday took personal charge of the search for James J. Reynolds, realty man and apartment-house owner of Venice, who disappeared from his home Sunday morning and has not been seen since.

JAMES J. REYNOLDS.

His wife, Mrs. Willetta Reynolds, said he had with him a large sum of money. Police are puzzled as to whether he was kidnaped and robbed or whether recent activities had created enemies who would seek revenge upon him.

According to Mrs. Reynolds's story to Detective Captain Beckel of the Venice district, Reynolds told her Saturday night he would have to arise early Sunday to meet prospective clients in Santa Monica. He left their apartment at 120 Westminster avenue before she arose. Later in the day the clients telephoned and asked for him, and she discovered they had not met him.

He was driving a 1924 model Ford bearing the license number 1-670-668 and registered to Lillian G. Tracey. The suit he was wearing was blue. Reynolds is 33 years of age, is 6 feet 3 inches tall, weighs 186 pounds and has dark hair and eyes.

RABBI MAGNIN TO SPEAK

Rabbi Edgar F. Magnin of B'nai B'rith Temple will be speaker at the Kiwanis Club program today at noon at the Biltmore Hotel. Rabbi Magnin is grand president of the B'Nai B'rith.

FAITHFUL ON JOB BUILDING OWN CHURCH

New Mar Vista Mormon Edifice Will be Dedicated September 23, Next

When the new Mormon Church of the Mar Vista ward is dedicated September 23, next, it will represent the combined gratuitous labors of between 300 and 400 men, women and children, according to an announcement made by O. H. Hewlett, chairman of the finance and building committee. Work on the new edifice, now rapidly nearing completion, was commenced about four and one-half months ago and with the exception of three or four skilled mechanics all labor has been performed by prospective members.

The new building, which will serve as a religious center for Mormons of Venice, Mar Vista, Palms and Culver City, will represent an expenditure of approximately $75,000, inclusive of the site, according to Mr. Hewlett. It was constructed under the plan of the church headquarters at Salt Lake City, which matches dollar for dollar all money and work contributed by members here.

The building is located on Centinella Boulevard and Windward avenue.

Heber J. Grant, president of the Church of Jesus Christ of Latter Day Saints, Salt Lake City, will be here for the dedication and E. J. Sorensen, bishop of the Mar Vista ward, will participate.

SIGNALS TO BE INSTALLED

Signals to be placed by the Automobile Club of Southern California will warn motorists at the Sotostreet bridge, it was announced yesterday. The bridge is narrower than the street, a situation that has resulted in several accidents, one of which was fatal.

ACTRESS SETTLES SUITS

Alys Murrell Drops Charges Against Charles H. Christie and $1,847,500 Damage Actions

Sensational charges made against Charles H. Christie, brother of Al Christie and part owner of the Christie studio in Hollywood, in three suits filed against him in July by Alys Murrell, film actress, in which she demanded damages aggregating $1,847,500, are not to be publicly aired. It was learned yesterday that dismissal of the three actions was filed in the Superior Court Monday and the suits had been settled out of court.

The settlement of the damage actions, in which Miss Murrell charged breach of promise to marry, seduction and breach of contract, occurred last Saturday in the offices of Nat Rosenstein and Sidney Williams, lawyers for Miss Murrell. Christie was represented by his attorneys, S. S. Silverton, Warren L. Williams and by William Holman, secretary of the Christie corporation.

ALYS MURRELL.

The attorneys refused to divulge the figures of the settlement, asserting they were pledged not to reveal the amount. If was learned, however, that the settlement figures did not approach the amount asked and that the settlement was reached on the basis of the suit charging breach of contract.

Christie is out of the city and was not at the conference.

In the breach-of-contract case Miss Murrell demanded $97,500 damages; $1,000,000 damages for the asserted breach of promise and $750,000 damages for asserted seduction.

Williams and Seymour had filed in behalf of Christie an answer denying the girl's charges, which indicated a trial in court, and the settlement came as a surprise. Miss Murrell is also known as Alys B. Mims.

FIGHT CENTERS ON BRIBE TALE

Sweeney Defense Plans to Seek Corroboration

State to Place Surprise Witnesses on Stand

Gas Company Embezzlement Case Reopens Today

Witnesses called in an attempt to corroborate in part the bribery story of E. E. Sweeney, on trial in Superior Judge Yankwich's court for embezzling $200,000 from the Southern California Gas Company, will appear on the stand today or tomorrow, Joseph W. Ryan, attorney for the defense, announced yesterday. The names are being withheld by Ryan.

Dep. Dist.-Atty. Dennison, who is prosecuting the case, at the same time announced that the State is preparing to call one or two surprise witnesses and also all the present and former city officials named by Sweeney as having accepted bribes and favors to put legislation favorable to the gas company through the City Council.

NO COURT SESSION

Due to the election no session of court was held yesterday. The trial will be resumed at 10:15 o'clock this morning. Ryan expects to conclude his case for the defense by tomorrow evening. Dennison declares the testimony of the State's rebuttal witnesses will occupy about three days.

While Sweeney admits obtaining $200,000 on fictitious vouchers over a period of nine years from the Southern California Gas Company, he asserts the money was taken with the approval of A. B. Macbeth, president of the company, and used to corrupt present and former city officials. Mr. Macbeth has denied the assertions of Sweeney.

CHECKS SUBMITTED

The prosecution has submitted Sweeney's personal checks and bank deposit slips over a period of seven years and contends that the figures show that the defendant used the money for his personal gain and did not use any part of it to carry out his asserted bribery transactions.

Today's session will mark the tenth day of the trial. During the first nine days, with the exception of a few hours, Sweeney was on the stand answering questions under direct and cross-examination.

Sherman Way to Be Improved Entire Length

Within the next year Sherman Way from Burbank to Owensmouth, across the San Fernando Valley, will be a completely improved boulevard, according to a report from City Engineer Shaw to the Board of Public Works.

Heavy traffic is expected and for that reason the board refused to permit the Pacific Electric Railway to install an inferior class of construction at its intersection. The portion of the boulevard from Lemke Drive to Van Nuys has been completed and accepted. With the acquisition of a small strip from Van Nuys Boulevard to 1000 feet west, the improvement will be continuous.

Trash Can Sum Asked of Council

The first wave of trash cans apparently having gone over without too much complaint, it was announced that for $8650 the Board of Public Works can place trash cans in the district bounded by Sunset Boulevard, Pico, Figueroa and Los Angeles streets. The board has requested the City Council to appropriate that amount for the purchase of 550 cans.

The Chamber of Commerce estimated that $2500 would be sufficient, but the board figured this would not provide sufficient cans.

Ice Truck Ride Ends in Injury

James Berardino, 10 years of age, was riding on an ice truck yesterday afternoon. Suddenly a piece of ice fell off and the youngster jumped down to get it. He was struck by a car driven by Mrs. Leona Rousseve of 3344 Jasamine avenue, Palms.

The boy, who lives at 605 West Sixty-second street, was taken to Georgia-street Hospital, where he was found to have a possible basal skull fracture.

TWO PEAS IN POD RUN SECOND

Wanted: Somebody to Untwine Twins

Cleoria and Gloria (or Gloria and Cleoria) Robb

ON THE ground that they are unable to give the children proper instruction until a practical method has been discovered for distinguishing Cleoria Robb from her twin sister, Gloria, school authorities have appealed to the parents, Mr. and Mrs. Carl E. Robb, 3134 West Fifty-ninth street, for aid. And the funny part of the situation is found in the fact that the parents are able to offer no help, being as much at sea in the matter of the children's identification as the teachers.

One of the twins—no one appears to be certain which—excels at dancing, one reads better than the average child, one is rather expert with the needle, and so on. Their instructors at the Nature Music School on South Grandview avenue suspect the twins of a conspiracy to make things easy for each other and keep their grades on a par. In other words, the graceful dancer performs for her less accomplished twin, the better reader responds when her twin is called upon, and the needle expert does her sister's work.

The twins switch places constantly and the befuddled teachers are unable to keep them straightened out. Experiments with hair ribbons, arm bands and other devices are thwarted by the resourceful youngsters.

Suggestions will be welcomed by both parents and the teaching staff at the Nature Music School.

Jamaicans Like Angeleno Ginger

Misses M. and G. Hudson of Savanna-La-Mar, Jamaica, whose father is a large plantation owner and who were born in Jamaica, are guests at the Biltmore.

"This is our first visit to the United States. We came here to stay three days and have been here three weeks," said Miss M. Hudson. "We love the dash and colors of Los Angeles and its climatic conditions have been ideal.

"But—we notice that people just throw fruit pits and skins any place handy. In Jamaica arrest would immediately follow," said Miss G. Hudson.

"We can not become accustomed to bare legs on young girls in afternoon gowns and the half-hose make them look like little boys dressed up as girls," said Miss M. Hudson.

EQUESTRIAN PATHS TO BE OIL COATED

Companies Make Donation to Allay Dust Nuisance in Griffith Park

The Bridle Path Association of California announced yesterday that it has obtained from some of the major oil companies oil for the surfacing of a portion of the bridle paths in Griffith Park to eliminate the dust which has detracted from the use of the paths for several months.

A part of the budget for Griffith Park has been used for the installation of water lines and reservoirs as a matter of protection against the fire hazards of the wooded areas of this 3851-acre playground.

President Pay Albert of the bridle path associations, after several conferences with President Griffith of the Park Commission, conceived the idea of approaching the large oil companies in regard to donating oil, and that a number of these companies have generously responded.

The first mile of bridle path to be oiled under this plan will be started on September 15, and it is expected to have the entire six miles completed by December 1. The paths are fifteen feet wide and when completed will make a very attractive addition to the bridle-path systems in Los Angeles county.

Equestrian activities in Southern California show a wonderful increase over the past six months, and with similar path development through the State the next six months will show considerable increase in bridle-path mileage brought about by the work of the State bridle path associations. The plan is to develop bridle path associations in the communities along El Camino Real, and to help preserve some of the historic features of early California that are closely allied in the activities of the horse.

INQUIRY IN BAIL CASE NEARS END

Testimony Regarding Allen Affair Completed

Bar Committee Will Close Investigation Today

Fate of Murray and Two Attorneys Involved

The special committee appointed by the State Bar Association to investigate charges against Chief Deputy District-Attorney Murray and Attorneys Benjamin Elconin and Howell W. Richardson growing out of the Louis H. Allen bail-bond case will bring its inquiry to a close today.

This was made certain yesterday at the resumption of the hearing on the charges before the committee, when both the prosecution and the defense completed their testimony and counsel for the accused started arguments on motions to strike a large part of the prosecution testimony from the records.

At today's session these arguments will be concluded and attorneys for both sides will debate on the general aspects of the case. The matter then will be taken under submission by the committee. At a later date the committee will prepare its findings of fact and recommendations and forward them to the board of governors of the association for disbarment or disciplinary action, complete exoneration or a rehearing.

RULES DISPUTED

Much of the session yesterday was occupied with controversy over rules of evidence, jurisdiction of the association and other technicalities.

During the morning Perry Wood, association examiner, tried to introduce statistics, which, he said, showed that in 1926 and 1927 Richardson obtained dismissals or reductions in sentences in a much greater proportion than the average attorneys. After much argument, the committee, on the objection of Jerry Geisler, attorney for Richardson, refused to admit this evidence on the ground that it could have no bearing on what Richardson did in the Allen case in 1925.

Geisler won a similar victory during the afternoon session, when the committee ordered a little black memorandum book containing names and figures stricken from the records. Wood purported that the book came from Richardson's office and the data had a bearing on some of his cases. Richardson said he could not identify the entries as his and Geisler protested that it was irrelevant to the case.

EVIDENCE CALLED HEARSAY

The motion to have much of the prosecution testimony stricken from the record was made on the ground that it is hearsay evidence and the bar association can not consider it for that reason. Wood opposed the motion on the ground that the association is not a judicial body and, like some State commissions, is not bound by the ordinary rules of evidence. The committee will hand down a ruling on the motion today.

Richardson and Elconin were attorneys for Allen, who was released upon $5000 bail. Upon representations that Allen was in Joliet Penitentiary, Ill., Murray moved that the bail be exonerated and the court granted the motion, with the result that Elconin and Richardson divided the money between them, according to the charges. Later it was learned that Allen was a fugitive from justice and not in the penitentiary at the time, it was charged.

Legs of Man on Walk Broken as Car Leaps Curb

The traditional tough luck of the innocent bystander struck Daniel Bedig, 29 years of age, yesterday and today he is in the hospital with two broken legs. Bedig, who operates a fruit stand at Beverly Boulevard and Heliotrope Drive, was standing on the sidewalk yesterday watching passing traffic. Suddenly two cars collided and one swerved, crushing Bedig against the wall of his stand. Bedig, who lives at 2946 Brighton avenue, was taken to the Dickey & Cass Hospital in Hollywood for treatment.

One of the cars was driven by Frank Kerwin of 3307 West Fourth street and the other by Carl Wiseman of 1221 South Kingsley Drive. In Wiseman's car also were his wife, Mary, and their daughter Bessie. All were bruised.

The Lancer

by Harry Carr

IF COMMANDER BYRD needs another passenger on his South Pole trip he'd better take Dr. Straton of New York.

The attempt of this illustrious star-flinger to pour fire and brimstone down the back of Al Smith is likely to kick back at him. This old-fashioned mud slinging went stale about the time of the Civil War.

WE NEED HOOVER

Personally, Al is a charming and decent man. But his acceptance speech was enough to make any clear-minded voter shudder at the thought of his being President. Even were he not stained by the ineffaceable taint of Tammany Hall, he has shown that he has only a vague and impractical idea of what our national problems are all about. Were his Eighteenth Amendment plans to be put into operation, this country would become a wild chaos—virtually a civil war over booze. Al is a nice feller, but the voters have grown wise. They are looking for some one who has expert knowledge.

TEXAS WAS SNUBBED

Texas Guinan is a rather large lady to be called a straw; but she was the straw who broke the Mayor's back.

Our distinguished executive has rushed down to the depot to greet aviators, movie stars, horseback young ladies, champion swimmers, chess players, peripatetic mayors, cow punchers and opera stars.

But he firmly declined to meet Texas Guinan. No doubt he dreaded the salutation with which she greets: "Hello, sucker," or "Give the little Mayor a hand."

THE MYSTERIOUS ORIENT

Having lived fifty years among the Chinese as a diplomatic representative of Italy, Commendatore Volpicelli says that China is a vast mystery which he does not pretend to understand.

He ought to consult some of the tourists. Most of those I have known have remained over between steamers and know all about China—more than the Chinese know.

MANY-SIDED CITY

The management of a modern city requires a comprehensive versatility. Among other things, this city is a progressive and successful dealer in garbage and tin cans. Not to mention operating extensive farms and fruit ranches.

SECRET TELEPHONES

The newspapers seem stunned with surprise to discover that Hollywood movie stars have secret telephone numbers. That they do is the reason why there are not more people in the insane asylum.

Nervy guys who would never dream of stopping anyone in the street have no hesitation whatever in yanking down the phone and calling up utter strangers. My specialty is people who want me to settle bets, and to reveal the whereabouts of producers eager to buy scenarios.

SIDEWALK SHEIKS

On an average of three times a week some young girl is brought to police hospitals—hysterical with an incoherent story of assault by strange young men in automobiles. Yet this does not seem to deter the next girl from accepting an invitation to ride from some slick-haired sheik who draws up at the curb.

If the next young lady who

OH, WEEP NO MORE MY LADDIE!

Pershing Square Never Again to Start Tears of Easterners With Reminiscences of Old Home Picnic Groves; Kindly Officials Conjure Tropics There

Pershing Square is a crossroads of the horticulture of the world at present while it is undergoing a change in plants and verdure of north or temperate zone to that of semitropical or tropical growths, according to President Van Griffith of the Park Commission.

Surrounded by oaks, maples, beech, elm, walnut and spruce trees of the north and east are newly planted banana trees, the large fronds of which already are providing shade for seated patrons of the park. Plants from the plains of South America, the jungles of Southern Mexico and Central American republics, and jungle grass from Africa already have been placed close to the walks and surrounding the fountain.

The park is taking on the tropical appearance which is planned for it. Soon the trees of the north and east will be removed to other parks in the city and will be replaced with tropical and semitropical growths.

When the job is complete the park will no more remind eastern visitors of their own States, but will enlighten them on tropical and semitropical growths.

FLYERS' NOTE CALLED HOAX

Father of Lost Dole Aviator Irate at Message Purporting to be from Frost and Scott

Hopes that a message said to have been found in a bottle near Redondo Beach might solve the mystery of the fate of Jack Frost and Gordon Scott, aviators who, with their airplane the Golden Eagle, have not been seen since one year and two weeks ago when they left Oakland for Honolulu in the Dole air race, were shattered last night when J. Landor Scott, father of the latter, declared the message is a fake and another hoax has been perpetrated.

"Run out of gas. Dropped 2000 miles southwest off S. C. In sight of Desert Is. Not sure of reaching it. Please send help. Not much water left. (Signed) J. Frost. G. Scott."

WRITTEN ON MUSLIN

Thus reads the message, printed with a lead pencil on a small piece of muslin, which was turned over to Mr. Scott yesterday by Redondo police. It was said to have been found Monday afternoon by two children playing on the beach near been written by his son, his belief the point where much wreckage and debris from all parts of the Pacific Ocean are washed, police stated. The father of the children, whose name police failed to obtain, broke the bottle to get the message, he told Motorcycle Patrolman Halla, to whom he reported.

Mr. Scott was notified yesterday morning and went immediately to the Redondo Police Station. Although he announced at first that he believed the message to have

Kelley Love Letters Will be Read in Courtroom to Murder Jurors

TEXT OF FERVID MISSIVES GIVEN

State and Defense Differ on Effect of Notes

Actual Testimony in Trial Will Start Today

Mellus Will Take Stand and Relate His Story

Ardent love letters which authorities declare were written by Leo P. Kelley, butcher boy, to Mrs. Myrtle Mellus, the society woman for whose murder Kelley is now on trial, were given out yesterday.

These are the letters that police found in the Mellus home Monday afternoon as they escorted the jury trying Kelley, through the scene of the crime, but which were temporarily withheld until the District Attorney's office had time to peruse their contents.

"A reader of these letters must arrive at but one conclusion—that Kelley is the type of man that I have labeled him before the jury," declared Dep. Dist.-Atty. Costello yesterday. "If the defense attempts to use these missives as evidence in the case they can but prove a boomerang."

MELLUS TO TESTIFY

Preparing for a continuation of the trial today—yesterday having been a legal holiday—Costello declared that he was prepared to call Frank R. Mellus, husband of the murdered woman, to the stand as one of his first witnesses.

"Mellus will tell his complete story," asserted Costello. "It will brand Kelley as the loathsome thing he is—a man who had no morals and no compunction about breaking up another man's home."

Perusal of the love letters shows that they were written on September 7, 8 and 9, 1926, and addressed to "Mrs. V. P. Rathbun, Ensenada, Mex." Despite the use of the name "Rathbun," however, the authorities are convinced that the letters were sent from Kelley to Mrs. Mellus. One envelope, received at Ensenada, was redirected to "811 South Rimpau Boulevard," the address of the Mellus home, evidently left the Ensenada postal authorities as a forwarding address.

EXTRACTS FROM LETTERS

Brief extracts from the three letters found by the police read as follows:

"Gee, dear, you don't know how I miss my baby. I'm like a boy in a strange town. Don't know what to do with myself. All I can tell you, dear, is that you had better be here next Sunday. I never knew I loved you as much as I do, dear, until now. Saturday, when noon came and I didn't hear from you and knew you wasn't in town I was crazy and then to know I wouldn't hear your voice for a week—well, all I can say is, that I hope you miss me half as much. If you do I'll be satisfied."

Profane reference to some one which the police declare is Frank Mellus, the husband, is made in the first letter written.

What is the old — — — doing?" the letter read. "Fishing, I suppose. Hope is falls overboard."

EVIDENCE OF ATTITUDE

"It shows the attitude of this man's mind even two years ago," declared Dep. Dist.-Atty. Costello, commenting on this passage.

The second letter from Kelley acknowledges the receipt of two letters, one from San Diego and one from Ensenada, and continues:

"Have a highball sitting along side of me. Every once in a while I have to stop and take a drink. No. haven't been lit since you left and that isn't half of it but if you are not home by Saturday—. Well, dear, you will have to wait a few minutes 'til I make another highball. Yes, I am making them with half and half.

"Listen, dear, please hurry home for I sure miss you. I want you to have a good time and all that but—. No I'm not selfish—no, not mucho. Lots of love."

The letter was signed "Pat."

MAKES ROUND TRIP

The third letter was written on Wednesday, September 9, 1926, and addressed to Ensenada. Apparently, however, it went uncalled for and was forwarded to 811 South Rimpau Boulevard. In part, it said:

"Gee, you must be having a dandy time down there for I didn't get a letter today. What's the matter, tired of writing. Well, do as you please, only I don't intend to spend another Sunday like I did the last one."

It was signed: "With lots of love, Pat."

The more ardent passages of the letters reproduced were deleted by investigators as unfit for print. They clearly establish, the prosecution contends, the subnormal type of mind attributed to Kelley.

DEFENSE PLANS USE

Despite the authorities' assertions, however, Defense Attorney Hahn declared that he intended to subpoena the letters as part of the defense evidence.

Trial of Kelley, which began last Thursday, will be resumed at 10 a.m. this morning before Superior Judge Bowron. Selection of a jury has occupied virtually all of the time since the trial opened, only one technical witness having taken the stand since the jury of six men and six women were sworn in. Actual evidence in the case, therefore, will begin today.

Kelley is defended by Attorneys S. S. Hahn, Dan Heyfron and Orpha Jean Shontz, woman barrister. The prosecution is being conducted by Dept. Dist.-Attys. Costello and Colegrove.

Youth May Die, Friend Held as Drunken Driver

Walter R. Quinn, 29 years of age, of 1211 James street, was in the Georgia-street Receiving Hospital last night in a critical condition and the friend with whom he was riding, Ray Hibs, 30, 3632 Lexington avenue, was booked on a charge of drunk driving.

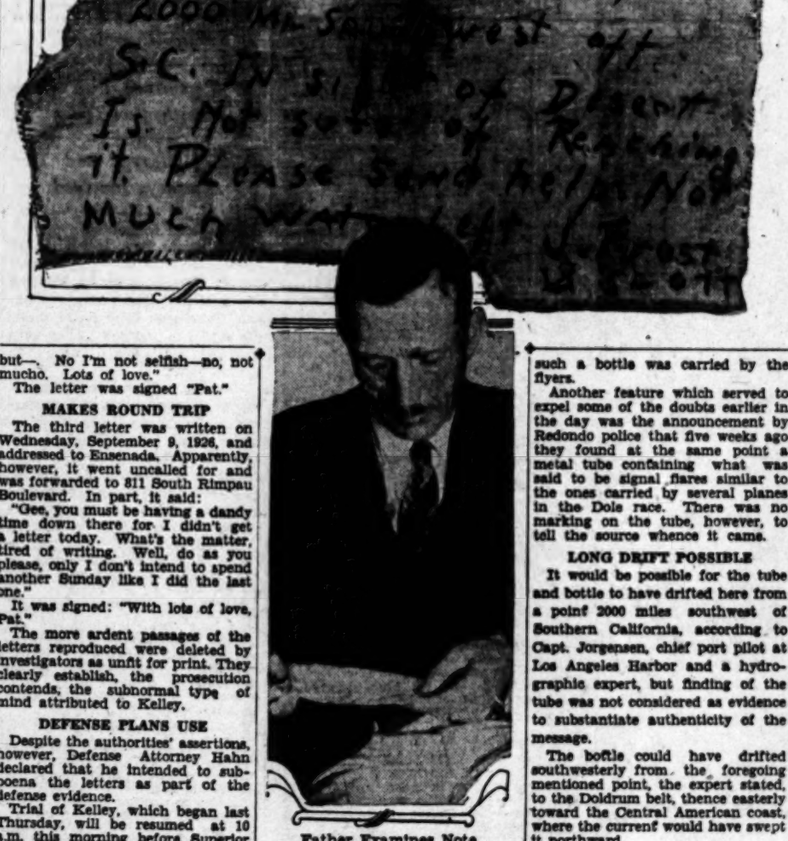
Police Sergeant Havers, who made the arrest, declared that Hibs was traveling east on Seventh street at thirty miles an hour and when he swerved to avoid safety zone buttons at Seventh street and Union avenue the coupe in which the two were riding crashed into an H line street car.

When Motorman Barnell and Sergt. Haver extricated the men from their demolished coupe Quinn was unconscious. Hospital surgeons said he has a basal skull fracture and probably will die.

Bygones

Another reason to be enraged at the sight of a girl smoking is the fact that you once got unmercifully licked for smoking cornsilk.—[San Francisco Chronicle.

Fake Message Reported Found Near Redondo Beach



Father Examines Note

Above—The piece of muslin found in bottle near Redondo Beach purporting to be from lost flyers. Below—J. Landor Scott examining missive.

AVIATORS' NOTE CALLED HOAX

(Continued from First Page)

soon turned to doubt, and last night he made the definite announcement that the message is a fake.

Mrs. Scott and Miss Kathleen Scott, the navigator's mother and sister, were called from their home at 819 Ninth street, Santa Monica. They went to the police station with the memories of recent hoaxes fresh in their minds. And they left for their home with the same doubts. They later concurred with the father that the bottle was not set adrift by the Golden Eagle flyers.

TOO INDEFINITE

The sentence, "Dropped 2000 miles southwest of S. C.," was interpreted by police as 2000 miles southwest of Southern California. This played an important part in helping the Scotts to reach their final decision.

"With Gordon's knowledge of navigation," said the father, "and his sure realization that if help were to be had he would have to give their location by latitude and longitude he would have done so rather than make their whereabouts as indefinite as this note does."

The deciding point was the signature, "G. Scott." Whereas the body of the message and the surnames of the signatures were printed, the writer lapsed into script when he signed "G." The way this letter was written convinced Mr. Scott that the note is not genuine.

The father was vehement in his denunciation of the perpetrators of the hoax.

CALLS IT "DESPICABLE"

"I cannot put into words how despicable I think the one is who so thoughtlessly plays a joke of this kind without considering how suffering already acute might be intensified."

Redondo police were engaged yesterday afternoon in a search for the man who turned in the note with the belief that some light might be shed on the affair if fragments of the bottle can be found.

Every item of equipment carried by the Golden Eagle was listed with descriptions and a check with this list readily would establish whether such a bottle was carried by the flyers.

Another feature which served to expel some of the doubts earlier in the day was the announcement by Redondo police that five weeks ago they found at the same point a metal tube containing what was said to be signal flares similar to the ones carried by several planes in the Dole race. There was no marking on the tube, however, to tell the source whence it came.

LONG DRIFT POSSIBLE

It would be possible for the tube and bottle to have drifted here from a point 2000 miles southwest of Southern California, according to Capt. Jorgensen, chief port pilot at Los Angeles Harbor and a hydrographic expert, but finding of the tube was not considered as evidence to substantiate authenticity of the message.

The bottle could have drifted southwesterly from the foregoing mentioned point, the expert stated, to the Doldrum belt, thence easterly toward the Central American coast, where the current would have swept it northward.

Denham Scott, brother of the missing aviator, now is in the Hawaiian Islands conducting a search of the mountainous islands in the hope that some trace of his brother might be found. He is unwilling, his father said, to accept as definite the belief that Gordon is dead. He hopes to find that the plane landed on an island from which he could not signal or leave.

Several other messages have been found along the coast this year, virtually all of them supposed to have been sent from the Miss Doran, which also was lost in the Dole race, but this is the first having any bearing on the Golden Eagle whereabouts.

Ludwig Schiff Takes Position in Chest Drive

Ludwig Schiff, president of the Western Wholesale Drug Company, has been enrolled as one of the twenty-five vice-chairmen in the central division of the Community Chest and will form soliciting committee No. 15, according to J. A. H. Kerr, campaign chairman. The central division is responsible for obtaining the larger subscriptions in this year's campaign.

LUDWIG SCHIFF

Mr. Schiff is particularly interested in the effort of Los Angeles to decrease juvenile delinquency by offering the youth of the city wholesome recreation and vocational guidance.

DOHENY CALLED TO BATTLE SUIT

Lawyer Accepts Service for Oil Magnate

Stockholders Ask Figures on Scandal's Cost

Matter Set for Hearing in Henning's Court

Subpoenas were issued yesterday by the United States District Court clerk requiring Edward L. Doheny, oil magnate, to answer within twenty days after service the complaint filed against him in the United States District Court Monday by Frank H. Kunkel of Cincinnati, as an echo of the Doheny-Fall Elk Hills naval oil reserve scandal. Olin Wellborn, counsel for Doheny, said the defendant agreed to accept service. By clerk's office routine the case is in United States District Judge Henning's court.

Kunkel sues as a stockholder, for himself and all other stockholders in the Pan American Petroleum and Transport Company headed at the time of the scandal by Doheny. Kunkel seeks an accounting to determine how much the company lost as result of the deals between Doheny and Albert Fall, Secretary of the Interior, whereby Doheny got the Kern county reserve for exploitation and the government got a naval oil base and some fuel oil at Pearl Harbor, Hawaii.

After the accounting determines the amount, Kunkel asks the court to order Doheny to make good the amount to the company on the grounds that he lost it for the stockholders through fraud and corruption not participated in by stockholders.

The company is named defendant along with Doheny. Neither Doheny nor company officials would comment on the action.

David Faries, local attorney in the case, said it now appears that $11,000,000 or more is at stake in the suit.

PHONOGRAPH MEN GATHER TOMORROW

New Line of Instruments Will be Exhibited for Southland Dealers

A convention of all Southern California Victor talking machine dealers will be held tomorrow afternoon at the Biltmore ballroom under joint auspices of the Victor Talking Machine Company of New Jersey and the California Victor Distributing Company. The feature will be the presentation to the dealers of a complete new line of Victor-Radiola combination instruments. The new models embody new ideas in cabinet work, have an improved record-changing device and are equipped with the superheterodyne Radiola which the Radio Corporation of America announced to the trade last week. The new line will be presented by Caroll Forbes of the sales department of the Victor company.

Tomorrow evening at 6:30 o'clock 500 dealers and their salesmen are expected to attend the banquet in the ballroom. Mary Miles Minter and Dupe Velez, screen actresses, and Joseph Diskay, tenor, will entertain the visitors. Prominent on the dinner program will be a talk by Madeline Davies, head of the Victor company record sales promotion department. J. M. Spain, vice-president of the local firm, is in charge of arrangements.

The new instruments will be on display to the public at the Biltmore all day Friday, but will not be placed on the market until next month.

THE LANCER

(Continued from First Page)

wants to get somewhere will take careful notice, she will observe two shining rails down the middle of the street. Street cars run over them and they are there for the purpose of transporting people hither and yon in safety.

THE CAT WALKS ALONE

The cat will always walk alone.

Our cats live in the house, within the family circle; and the dogs range around. Yet when a cat is sick it crawls off alone to die—if possible where it can get contact with the earth currents—thereby to melt back into eternity. But a wounded dog always comes begging to be taken on the bed of the mamma of our family—to be talked to and comforted. Even old Jupe, with his tiger teeth, is just a baby in his heart.

NEGRO ACTORS

I went to see this all-negro company playing "Rain." It was an interesting race study. They had charm, gayety and dramatic power; but they missed the poison bitterness of the satire. Sadie Thompson laughed off her disillusionment; but there was no pain in the laugh.

GOOD TIMES

Perhaps it is because the political situation is being ironed out for Hoover; but certainly times are better. Everywhere I look I see new houses going up. If the Hopi snake dancers were doing their stuff, we will be smiling this winter. All we need is a good rainy season.

J. F. Mentzer, Builder, Buried

Funeral services for J. Frank Mentzer of 4201 Woodland avenue, who died at his home Saturday night after a three days' illness, were conducted yesterday afternoon from the family residence with burial following in Inglewood Cemetery. He was 71 years of age. Death came as the result of a heart attack.

Mr. Mentzer was a prominent builder and contractor of this city, where he had been in business for the past twenty years. He was a former resident of Peoria, Ill.

He leaves his widow and three brothers, Albert of this city, Charles of Richmond, Cal., and John of Pennsylvania.

A Swell Mutt

Customer (in dog shop:) But are you sure he's highly bred?

Dealer: Highly bred! Why, mum, ter git the best hout of this little dog, yer 'usband will 'ave to wear spats an' a tall 'at.—[World's News.

SOLOMON FETES CHILDREN

Orphaned Youngsters Enjoy Ride, Dinner, Games and Music as Guests on Topanga Canyon Estate

With grimy faces, aching legs and hoarse throats, but with faces wreathed in smiles, 300 orphan children paraded through Los Angeles streets last night in a fleet of motor busses as they returned to the Los Angeles Orphan Asylum from the all-day fiesta in their honor tendered by Fred H. Solomon at his Topanga Canyon rancho.

The youngsters claimed the canyon estate as their own and ran wild over the hills from the arrival of the bus squadron following a parade of the beaches.

A track meet opened the festivities at the rancho. From the tiniest to the grammar-school students of the institution demonstrated their physical prowess in all sorts of events with one of Solomon's musical organizations, Carlson's Accordion Band, playing martial music.

An aquatic carnival in a huge outdoor bathing pool followed the track meet. In addition to diving and swimming contests the youngsters engaged in canoe-tilting duels and other novel events.

A feast was spread under the towering sycamore trees at noon when Solomon, public officials of Los Angeles and residents of Topanga Canyon donned white aprons and personally served the little guests. "Seconds," "thirds" and even "fourths" were allowed, and the feasting did not stop until the last youngster stopped from exhaustion or lack of further capacity.

The afternoon hours were passed in pony rides over the estate, visits to the police dog kennels and the aviary of rare birds, a series of band concerts and a continuous dancing party on the roof of the canyon residence, which is decked over in the manner of a yacht.

The party is an annual treat by Solomon. The returning guests pronounced the day's festivities on a par with Fourth of July and Christmas.

PROPERTY GIFT RIGHT VALID

Supreme Court Holds Husband Legally May Give Community Estate to Wife

A decision given by Superior Judge Crawford that a husband has the right to make a gift of his share of community real estate to his wife and she is not forced to sign the transfer has been upheld by the California Supreme Court.

Not only is the ruling of the lower court affirmed, but the Supreme Court imposed a fine of $150 on the appellants on the grounds that the appeal was "frivolous and made for delay only."

The ruling of the high court comes in the case of Elsie M. Logan, respondent, against the Western Wholesale Drug Company, appellant.

ACTION EXPLAINED

W. G. Logan, husband of the plaintiff, transferred his interest in certain community real property to his wife, Elsie M. Logan, according to the testimony taken before Judge Crawford.

Subsequent to the transfer the drug concern levied an attachment against the property for a debt owed by the husband. The wife then started a quiet title action against the drug company asserting the property was solely hers.

At the close of the trial Judge Crawford found for the wife. The defendant company appealed on the ground that since the wife had not signed the husband's transfer to her the conveyance was not legal.

Both the lower and the upper court held there is nothing in the law which would preclude or prevent the husband from making a gift of the community property to his wife without the written consent of the wife.

WHAT DECISION SAYS

In passing on the case Justice Curtis, author of the decision, declared:

"The opinion of the Supreme Court in an analogous case is so clear and explicit, and the facts in that case are so similar to those now before us, that we are at a loss to understand how anyone could fail to perceive the applicability of the rule announced therein to the facts in the present action. We can, therefore, see no reason why the appellants should have appealed from the judgment rendered against them. To us it appears to be a frivolous appeal, and made for delay only. Consequently it is a proper case for the imposition of damages against the appellants."

The high court then placed a fine of $150 on the appellant drug company.

A Fontana Farms Company Special

This Fontana Country Home

With

1000-Bird Poultry Plant & 5 Acres of Fine Land

Planted to young walnuts, interset with grapes

all for **$6900**

$2500 down; 10 yrs. on balance

Price includes 5 shares water stock, valued at $1000

Or all buildings with ten acres **$9650** $3000 down; balance in 10 years

Price includes 10 shares water stock, valued at $2000.

HOUSE: Is modern and well built; concrete foundation; east front; has large, well-lighted living room, hardwood floor, brick fireplace, mantel, built-in features; dining room with built-in buffet, hardwood floor; kitchen, nice large kitchen with pantry, [illegible] electrical connections; two nice bedrooms, hardwood floors; large closets; bathroom with California tub; lawn, flowers, shrubbery, garden plot.

Funeral Directors in Session Here

Being Drafted to Regulate Business

legislative regulation of the business as the primal of the session, the twenty- annual convention of the ornia Funeral Director's Asso- opened in the Ambassador ter yesterday morning. The bill h it is proposed to have pre- ed to the Legislature of the will come up for discussion orrow morning.

are determined to force the ment of procedure governed by which will be largely patterned the code of New Jersey," said Pierce of Los Angeles, presi- of the State Board of Embalm- and chairman of the legislative ittee of the directors' associa- "We will ask that any one ding as a mortician shall be ed to pass strict examinations balming and be required to a license. Laws applying to ning are loose and the pro- legislation will raise the ard of educational require- and apprenticeship.

effort also will be made to the practice of promiscuous in connection with the under- business. It has reached a where hospital employees, ors and even neighborhood are juggling with the under- business on a basis of any- from a box of candy to cash ents amounting to hundreds of . This invariably adds to the al costs paid by the public and be stamped out in the same that such practices have been ted in other lines of busi- ."

he hundred and ten new mem- were enrolled at the convention erday representing practically ery county in California. It is said the record has never before equalled by a similar associa- in the United States.

herefore the constitution of the ciation has required that an ap- ant for membership must first come allied with his local organi- ions. By unanimous vote this pro- ion was set aside for one year.

W. G. Wood and B. C. Ladd were ted honorary members in ap- ciation of the work they did in nection with the membership ive.

President Eugene L. Webber pre- ded and the address of the day as delivered by Col. Le Roy F. Smith, head of the speaker's bureau of the Better America Federation. He discussed the soviet movement in the United States.

The convention will continue until Friday noon.

Thomashefsky Pays Pageant Players in Full

Boris Thomashefsky, producer of "Joseph and His Brethren," a bibli- pageant in Yiddish, at the Holly- wood Bowl last Sunday night, paid the chorus of the show last night at the Capitol Theater, 338 South Spring street, as he promised he would.

At the close of the Sunday per- formance the producer informed the members of the chorus that they would be paid at the theater Mon- day. More than 100 of the players, after waiting in vain several hours for their money Monday evening, finally became excited and nearly precipitated a riot.

The police were called and Thom- ashefsky promised that he would have salary checks ready for all at 10 o'clock last night. As soon as the checks were made their appearances last night they were paid.

DELAYED WEDDING TRIP TO BE TAKEN

Mrs. Setsuzo Ota

OTA SAILS BOOK ON STEAMER FOR EUROPE

Los Angeles Pair Will Sail Late Next Month to Make Tour Abroad

NEW YORK, Aug. 28. (Exclusive) Mr. and Mrs. Setsuzo Ota of Los Angeles have booked passage on the Ile de France, of the French Line, which will sail for Havre, September 29, ship news reporters learned today. The two are understood to have planned to go first to Paris and then to tour Europe for an indefinite period.

Mrs. Ota was Lucy Banning, one of the foremost beauties in Los Angeles society a generation ago and scion of one of the city's leading families, who created a sensation here last January when she was married in Seattle to Ota, one of Tokio's four best jiu-jitsu experts.

Shortly after her return to her home here she said they would spend their honeymoon touring Europe. It was understood to have been delayed because she was not in the best of health.

Mrs. Ota has a sister, Mrs. Mary Banning Norris, living in Paris.

WIDOW OF SCENARIST COLLAPSES

Laska Winters Stricken Following Sudden Death of J. T. L. O'Donahue

Laska Winters, whose husband, J. T. L. O'Donahue, scenario writer, was found dead Monday evening in the bathroom of their home at 415 North Harter street, Hollywood, was reported yesterday to be in a state of serious collapse. She was in the care of Dr. William Snyder with a nurse in attendance at her home.

Dr. W. A. McDonald of the Coroner's office announced yesterday that an autopay would be held today to determine the exact cause of O'Donahue's death. Although O'Donahue's head was submerged in the water of the bathtub, it was said by the family physician, summoned immediately after his body was found by Miss Winters, that there was no evidence of water in O'Donahue's lungs and that in his opinion death was due to heart disease.

Herbert Brenon, who had been directing the United Artists picture, "Rescue," in which Miss Winters was starring opposite Ronald Colman, departed hastily for New York yesterday morning following receipt of word that his wife is seriously ill. Meanwhile, all work on "Rescue" has been indefinitely postponed.

FOURTH MURDER TRACED TO GANG

Mystery Vendetta Blamed for Rubino Death

Palombo and Other Killings Remain Unsolved

Liquor Ring Evidence Well Covered, Say Officers

Investigation by Deputy Sheriffs Croushorn and Blasdel yesterday placed the blame for the death of Phillip Rubino, 6320 Holmes avenue, on the heads of the same gangsters who killed Augie Palombo, William J. Cassity and Bill Rosen.

Rubino was shot to death as he stepped from his automobile to open his garage early Sunday morning. Five friends, who were in his automobile at the time of the shooting, are held as material witnesses. They will be called to testify at 1:30 p.m. today when the inquest will be conducted over Rubino's body.

Rubino, who leaves his widow and three children, was the proprietor of a bottle shop. All efforts to trace his connections with members of the Los Angeles liquor ring have failed, according to Croushorn and Blasdel. Nevertheless Rubino was killed in the same manner that Palombo and Cassity were slain, the officers say.

The five men with Rubino at the time he was shot to death are Joe Cuccio, George Chinnici, Mancio Latino, Bennie Latinox and Frank Latino.

Neighbors who saw two men flee from the scene of the shooting also will be called to the stand, officers asserted.

RICHARDS SPEAKS AT CITY CLUB

Power Board Head Says City and Edison Company Have Mutual Interests

Greater co-operation among all citizens of Los Angeles toward the solution of water and power needs will follow the recent amicable adjustment of differences between the Southern California Edison Company and the Municipal Board of Water and Power Commissioners, according to the opinion expressed by John R. Richards, chairman of the board, in an address yesterday at the City Club.

Praising Herbert J. Goudge for his role of peace-maker in behalf of contending organizations and the public and commenting on the compromise effected, Mr. Richards said that the Edison Company and the Water and Power Board are not rivals but that each is mutually interested in the further development of this prosperous empire of the south.

"There is not now, and never should be any conflict between the board and the Edison company," said the speaker. "The latter organization is the wholesale dispenser of power which the board retails. The Edison company cannot act as a distributor excepting through the board and the greater the distribution by the city, the more business for the Edison people. Aside from our desire to clear all indebtedness of the bureau, we hope to obtain more hearty support from the citizenry in developing greater water facilities for the people of the Southland.

"The Edison Company will grow as the community develops and it is to the interest of all of us to seek a way to increase our water supply as soon as possible," said Mr. Richards. "We cannot afford to wait for Colorado River water for, even if the Swing-Johnson bill passes, it will be at least ten years before we can reasonably hope for a supply of water from that source."

The Plain Truth

Fair One: I suppose you visit England to satisfy your thirst for travel?

American: No; just for my thirst. —(London Mail.

ROUND-UP SEEKS BANDITS

Sheriff's Men Hunt Pair Who Bind Contractor and Wife in Home and Take $3100

Armed with a description of two masked bandits who robbed Roy Ehler of 4404 Comly avenue, City Terrace, of $3100, at his home Monday night, deputy sheriffs yesterday were questioning suspects throughout Southern California.

Ehler, according to reports made to the Sheriff's office, was sitting in the front room of his home reading when some one rang his doorbell. He went to the door to confront the muzzle of a blue steel revolver in the hands of a bandit.

"We came for your money and you had better tell us where it is," the bandit said as he and his partner walked into the room.

"All I have is $6," Ehler replied.

"Come across, you got more than that," the bandit insisted.

At this point one of the bandits tied Ehler to a chair while the other tied his wife's hands and gagged her.

"Now tell us where the money is," the leader of the bandit pair said as he kicked Ehler in the stomach. "It is in the bottom drawer of the bureau," Ehler said, acknowledging defeat.

Last night deputy sheriffs were seeking two men who are asserted to have known that Ehler drew $3100 from the bank to meet a pay roll for men he had employed on a contracting job.

Ex-Detroiter Succumbs Here

Clarence Conley, son of the late John D. Conely and a nephew of the late Edwin F. Conely, at one time a prominent attorney of Detroit, died at the family residence in Hollywood yesterday.

Mr. Conely was well known in Detroit and for many years was identified with various industrial enterprises and also was largely interested in the lumber business in Michigan. He had been a resident of Hollywood for eight years. He leaves his widow.

Mrs. Ferd Rule Passes Away

Mrs. Ferd K. Rule died at her residence, 510 South Alexandria avenue, last evening, after a week's illness. She was 69 years of age. Funeral services will be held tomorrow at 3 p.m. from the Hollywood Cemetery chapel.

Mrs. Rule was the widow of Ferd K. Rule, prominent in Los Angeles business life twenty years ago. He was founder of Rule & Sons, Inc.; an early president of the Los Angeles Chamber of Commerce and for four terms president of the Jonathan Club.

Mrs. Rule leaves three sons, O. Rey Rule, executive vice-president of the Pacific Finance Corporation; Frank K. Rule, vice-president of the same concern, and Gerald A. Rule, vice-president and treasurer of Rule & Sons, Inc. Mr. and Mrs. Rule came to Los Angeles to make their home thirty-five years ago.

No Reform

"The trouble with reform is that everyone insists upon it, and there is none. It is natural for us to muddle along as we have been muddling along for ages, and nature cannot be reformed at wholesale. An individual may accomplish a little reform for himself, but not for others.—[E. W. Howe's Monthly.

RAIL AD MEN VISIT CATALINA

Wrigley Entertains Delegates at Avalon; Long Beach Will be Host Today

William Wrigley, Jr., yesterday was host to members of the American Association of Railway Advertising Agents and their families at Catalina. The delegation is here on a five-day tour of Southern California as guests of the All-Year Club and other organizations.

At 9 a.m., the party was taken in special cars to Wilmington by O. A. Smith, E. C. Thomas and George H. Blyth, officials of the Pacific Electric Railway. On their arrival at Avalon they were greeted by J. N. Stewart, vice-president and traffic manager of the Catalina Island Company.

During the afternoon a luncheon was given at the St. Catherine Hotel by Mr. Wrigley and the scenic and recreational attractions of the island were enjoyed by the visitors, who returned to Los Angeles to be guests at a dinner given at the Biltmore last night by James Woods and Charles Baad. A special entertainment program at the dinner was provided through the courtesy of radio station KNX.

Today the party will visit Long Beach to be the guests of the Chamber of Commerce of that city at a luncheon at the Virginia Hotel. They will view the exhibits at the Pacific Southwest Exposition.

Later they leave Wilmington for San Diego on the steamship Harvard as the guests of Ralph Chandler, vice-president and general manager of the Los Angeles Steamship Company. Tonight they will be guests of Manager Mel Wright at the Hotel del Coronado. The official tour will end tomorrow.

VETERANS URGE CRIME MAP TO COVER STATE

A resolution looking toward the suppression of crime in California was unanimously passed on Monday night by Quentin Roosevelt Chapter, Disabled American Veterans of the World War. The resolution advocates complete investigation of the situation and a report to the Legislature for recommendations to rectify the condition. Copies of the resolution will be forwarded to Gov. Young and to the president of the Los Angeles Bar Association.

Today's Bible Text

When a man's ways please the Lord, he maketh even his enemies to be at peace with him. Prov. xvi:7.

SPEED THE PARTING

America is a great country. We now have 200,000 divorces a year to prove it.

RICHES HAVE WINGS

Riches do not have the wings of the homing pigeon. They fly out but not back.

CAUGHT IN A JAM

A woman writes a magazine article telling how to preserve a husband. It is at least better than having him pickled.

LET THE BUYER BEWARE

Bootleggers should be honest enough to emblazon "Caveat Emptor" on their wares—and not on the empties alone either.

KEEP THINKING

Many a wrong is merely a want of thought. By just keeping the old bean on the job many an injustice is made impossible.

SUCH IS FAME

As a general proposition the leading citizen of a town is known by his bank roll rather than his plug hat or college degrees.

CAN HAPPEN

Funny things happen way down East. A New England man recently eloped with his mother-in-law. They usually run the other way.

HER GLORY

It may be recalled that Lady Godiva was one of those old-fashioned souls who did not bob her hair—much to the regret of the bald-heads of Coventry.

COIGN OF SAFETY

Going out the San Fernando Road one is permitted a glimpse of Daniel's Garage. It must be a pleasant change from the time he was getting his mail in the lion's den.

NONE SO OLD

Maybe the reason why flaming youth fails in politeness to old women is that there don't seem to be any of them now. They have been to the beauty shop and found rejuvenation.

HER CLEAN CONSCIENCE

In a recent divorce case the husband complained that the wife had been eating castile soap until she had the habit. This was one of the bars that didn't go out with the Eighteenth Amendment.

LOOKING BACKWARD

Just fifty years ago the Good Templars of Los Angeles had a jubilee carnival at which Mr. Bell's new invention of the telephone was demonstrated to the amazement of many citizens. Imagine the wrong numbers that have been given since that eventful day.

BY WAY OF RECKONING

The American people are willing to give Gov. Smith credit for much sincerity and courage, but these are qualities that inhere to any good American. A real leader must understand the complicated problems of a vast and diversified country and be prepared to meet and cope with them. The Hoover mind has the better of it in this training. There is no question about the Hoover courage and sincerity.

VILLAINS WANTED

A conference of European film producers and exhibitors in Berlin stressed the importance of curtailing pictures which invite national hates. What is wanted in the movies is an international villain—one who flies no flag or speaks an accepted tongue and who can be conscientiously despised by all peoples. Seems to be pretty hard for Hollywood to make a film with a Spanish, Mexican or Chinese heavy without wracking the souls of the diplomats. Maybe we can persuade the League of Nations to create a mystical kingdom of Devasterra which shall be peopled wholly by villains for movie consumption. Otherwise it were best to take the trouble-making types from our own soil. We are not so censorious about it as some other races.

NO MORE WAR?

How far will the signing of a multilateral treaty to renounce war as an instrument of national policy advance the cause of world peace and help the weak and oppressed to realize this consummate Christian ideal?

With fifteen nations attaching their signatures to this epochal document, including the six leading powers, France, Germany, Italy, Japan, Great Britain and the United States, and with soviet Russia expressing a willingness to come into the peace fold, the question is on numberless lips today, how much has been actually accomplished in the great emprise "to ring out the thousand years of war"?

From the extremists on the one hand who see in the Kellogg treaties only a sentimental gesture or another cloak for hiding the machinations of secret diplomacy to the ultra-enthusiasts on the other who behold the dawn of the era of swords beaten into plowshares and lions playing the big brother to lambs, the reaction to the antiwar pacts is as variable as the sentiments that differentiate one individual from another.

As in all attempts to prejudge the consequences of a highly altruistic experiment, the aftermath of the Paris gathering of world statesmen will probably neither justify the taunts of the cynics nor satisfy the hopes of the too credulous. What the fair and unbiased observer can confidently gather from the solemn contract signed by the plenipotentiaries of fifteen nations—should it be ratified by the governments of the peoples there represented—is this: Secretary Kellogg has placed in the hands of the peoples a peace charter, signed, sealed and recorded, and has resolved an abstract sentiment into concrete terms. And that is a check on militarism never possessed before.

The bickering and captious have not been slow to pick holes in the treaty, and to assume because it has no historical background it will not act as a deterrent to any nation which believes it can still attain its ends by the threat or application of armed force. It is true the direct simplicity of Mr. Kellogg's original resolution has been somewhat confused by subsequent reservations, notably those made by France and Britain. But the fact that France and Britain were anxious to define their positions before committing themselves to so momentous a decision at least indicates their sense of responsibility to the obligation they have assumed.

At any rate the conditions that called for the reservations are transitory while the treaty is permanent. The resolutions and explanations are but husks that will fall away to disclose the real triumph of Secretary Kellogg in bringing the nations to interpret in unmistakable words their determination to renounce war as an instrument of national policy.

A more cogent objection to a successful operation of the multilateral treaty has been put forward by extreme pacifists in that it makes no provision for disarmament. On the contrary, they point out, even while the ink on the signatures is still wet, these same nations are devoting the greater part of their national taxes to maintaining the burden of armaments, naval and military, that cripple peace activities and keep the war spirit alive. And they ask, not without reason, if aggressive war is outlawed, against what are these enormous powers of destruction being directed? Why all this costly defense preparation against a danger that the new treaties are supposed to remove?

Such reasoners should remember that Rome was not built in a day. The war renunciation treaties are but the foundation on which a lasting peace structure may be built. Disarmament is part of that structure and it will advance step by step, as the foundation proves its ability to fill the purpose for which it was designed. The sentiment having been admitted by the heads of the nations, it remains for the people themselves to prove by their mutual friendliness and forbearance that the world is safe for disarmament.

Secretary Kellogg has done more to advance world democracy than all the fine spun phrases and passionate preachments of his predecessors have achieved by giving the people this definite peace charter with which to control the actions of their leaders and diplomats. The multilateral treaty is an "open covenant, openly arrived at." It pledges strong nations against any more rattling of the sword in the scabbard as a policy for enforcing their demands on their weaker neighbors. It makes petty wars between small quarrelsome nations a predestined losing venture in the face of this combination.

A DANGEROUS JOB

Banking can no longer be classed amongst the tame professions. It has now become one of the most dangerous peace-time jobs. The American Institute of Banking has announced that henceforth bank employees will be armed with pistols—and trained to use them.

It is war—preparedness from now on—against banditry. The gentlemanly white-collar bank clerk must be prepared to defend our dollars in true western he-man style, and pay the bandit in his own coin—bullets, not currency.

Surely an ironical situation in a nonmilitary nation with antiwar ideals. Yet the news was only good for a small inside paragraph in the daily papers. Our bankers are expected to be "enthusiastic" about the innovation, to which end competitive shooting teams are being organized and prizes being offered—with police experts coaching the white-collar heroes.

Nor is this a mere gesture. Scarce a week passes but what some bank is "held up" and its employees threatened with their lives by armed bandits. Such news is no longer front-page headline stuff. We are so used to it, that we glance at the items almost without comment. These white-collar men are quite apt to be in armed engagements with the enemy at any time, in daily danger of being included in a casualty list. There is none of the glamour of war about it, either, no fancy uniforms, no bands and marches, no patriotic oratory to stir their blood. Neither will there be any delegated authority and responsibility—no plans of campaign—every man called upon to think fast and act on his own best judgment, under surprise attacks.

It is going to call for an exceptionally fine altruistic form of bravery—fighting, risking their lives, to defend other people's money. Yet we used to regard these white-collar jobs as safe and stuffy!

CAMPAIGN PRINTING

The National Erectors' Association has served a request upon the national committees of both parties which they should be forced to heed—that they drop their present requirement of the union label on campaign literature and give their printing contracts to the lowest responsible bidder, whether open or closed shop. The custom of past years, which gives a factitious importance to a small minority of American working people, is thoroughly vicious. It is time that political parties recognized the fact that nearly 90 per cent of American manufacture is now carried on under open-shop conditions, and that the proportion is increasing.

The open shop has made possible the present era of general prosperity by giving management a free hand, increasing the co-operation between worker and employer, increasing the efficiency of both, and permitting a larger use of machinery and capital. The manufacturing methods developed under the open-shop plan are the ones to which Europe is casting envious eyes and is preparing to copy.

As the Erectors' Association declares, "whether this country shall continue free and prosperous in economic matters is more vital and fundamental than any other issue now before the people in this campaign." The party that first causes the disappearance of the union label from its campaign literature will gain votes by it.

PICKING AND PACKING

In this season of rich and abundant fruitage, when orchard and vineyard are yielding heavy harvests, California is the Mecca of flivver caravans that bring in thousands of pickers and packers. Already many are here, some of them coming months ago. They have come down through the Siskiyous from Oregon, over the Sierras from Nevada and across the Colorado from Arizona, and have been "working in the fruit" to good purpose for themselves and the great industry they are aiding.

Thousands, too, have left the city for the fruit camps to gather in the grapes, peaches, apples and pears. It is hot work, but these busy workers of the fruit camps soon become inured to it, and the girls don't mind a little stain on their fingers.

To a city Hebe in knickers up a ladder grabbing off crimson plums or golden pears it is likely to be considered fun while it lasts, and there is still more joy in the contemplation of the spending of the pin money thus earned by her fair hands. As the fruit drops into the basket in a succession of thuds that money is spent over and over again, but can you censure her if it doesn't always go for the most useful things in the world? Of course silk stockings are among the visioned purchases, but these are now indispensable, for even the bare-legged Hebe doesn't sport "birthday hose" all the time.

In the camps the fruit pickers dive into the tents toward nightfall, or sit about on the picnic benches, and from somewhere through the stillness comes the light twang of the merry uke. Some of the pickers sleep out under the stars.

Many prefer to enter the canneries and help in the cutting and packing. In either orchard or factory many a ripe peach or pear never gets into the basket or can, but reaches the ultimate consumer by the most direct route. It is all wholesome work—a welcome variation from the humdrum of home and city streets. And it is readily seen that what a large family of pickers or packers carries home at the end of the season in the way of total earnings is not to be despised.

WOODEN BITE

A Tennessee man whittled himself a full set of false teeth from a basswood chip and can now eat his corn on the cob. This is one efficient trick in evading the contact of the painless dentist.

THE DAYS OF OPPORTUNITY

By James J. Montague

Though Captain Kidd made fairly good
Upon the Spanish Main
The while his daily livelihood
He labored hard to gain,
Before he sailed the billowy wave
Upon a looting trip
He must have had to scrimp and save
So he could buy a ship.

Ere Jesse James could ever stand
Among the foremost ranks
Of those who terrorized the land
By robbing trains and banks—
Before embarking on his rough
And somewhat wayward course,
He must have had to earn enough
To buy himself a horse.

In days gone by, full many a lad
Was filled with deep distress
To learn what struggles others had
In climbing to success.
Conditions then were adamant,
And boys of feeble heart
Could hardly ever buy the plant
They needed for a start.

But ours is an enlightened time,
For almost everyone
Who aims to lead a life of crime
Can buy himself a gun,
And tucking it beneath his vest
In modern bandit style
Go out North, South, or East or West
And make a tidy pile!

(Copyright, 1928, by the Bell Syndicate, Inc.)

The LEE SIDE O' LA

By Lee Shippey

"BANDIT Shot by Wife of Angeleno." The training those Los Angeles women get, shooting at their husbands, comes in handy now and then—Encinitas Coast Dispatch.

"Litch"

Frank M. Litchfield, the veteran newspaper photographer who died the other day, was one of the clearest-headed co-workers with whom a reporter ever went out on a story. When we first came to California it was "Litch," as everyone affectionately called him, who opened our eyes to Los Angeles ways. And let us say right here that there's many a "star" reporter in New York or Boston, or Philadelphia who couldn't make good in Los Angeles. He would be able to write a little better than most of ours, but he would fall down on the enterprise, resourcefulness and physical energy required here. He would not be like The Times reporter who, ordered to interview a man who was leaving town, didn't stop to tell the city editor the train already had started and that he had only a few dimes in his pocket, but dashed out, leaped into a taxi, ordered the driver to beat the train to a crossing where, he knew it would have to slow down, left the driver with an order to collect from the office, made a flying leap for the observation platform of the receding train, borrowed money on the train to pay his fare and then, because the man he wished to catch was traveling incog, got a messenger boy, at the first important stop, to dash through the train yelling, "Telegram for Mr. Blank." The result was an important "beat."

Litch's Strategy

We're not half that clever, which is why we got out of real reporting into something more placid. But when we were new here we were sent, with "Litch," to interview and photograph a woman who had caused a man to embezzle and then shoot himself, and didn't want her husband back in Minneapolis to know about it. We sped to her apartment and found nobody home. We inquired next door, where we were informed that someone was at home. We tried a flanking movement, "Litch at the front and we at the rear, and suddenly discovered a couple strolling from the garage around the house next door.

That Kind of Woman

The woman denied her identity, and we accepted her denial with a regretful sigh—we had important confidential news for the lady we sought. She volunteered to take a message, but we had promised to give it to no one else. Then she admitted her identity and proved it—and "Litch," who had been unseen before, stepped forward.

"I've already taken five shots at you," he said. "But none do you justice. Won't you pose for a good one?"

"You can't kid me," she retorted. "I've had something in front of my face every second."

She tried to vamp us both—to make allies of us. But she kept her face shielded. There might be fifty women of her name here, but there'd be no denying her photograph.

"Litch" saw that she held in one hand a notice from the Postoffice that a registered letter had been brought to the apartment, during her absence. We told her, which was true, that the man dying in the old Receiving Hospital was begging to see her, before he died—had something he wished to give her. Her eyes gleamed at that. Then she looked at the card in her hand, nodded to her companion, and then turned and ran for a street car which was approaching—one which would take them to the postoffice.

We boarded the car with them—and paid the fare. And "Litch" walked back to his car, apparently utterly fooled.

But He Wasn't

But he was far from it. He telephoned all he knew to the city editor. So when we alighted from that car a staff photographer was waiting in the corner cigar store. He failed to get a good shot, for the woman was the wariest creature we ever saw. But "Litch" had phoned that, too, so that

as we entered the postoffice another camera clicked. But the woman only jeered. She got her registered letter and then hurried off for the Receiving Hospital, we alongside. We turned the corner into Hill street and not a soul was there. With a relieved air, the cautious woman dropped the guard before her face and turned to jeer at us. And then George Watson, concealed in a police ambulance, got a splendid snapshot of her.

But it was all "Litch's" strategy. We shall miss him very much.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

Scare Heads Mislead

SEQUOIA NATIONAL PARK (Cal.) Aug. 25.—[To the Editor of The Times:] I have just looked over your edition of Friday, August 24, and am overjoyed to note that there is not even a reference to the many forest (brush, grass and chaparral) fires which are burning in California, particularly in the San Joaquin Valley, near the Sequoia and General Grant National Parks. This is as it should be. There is never a tree in the Sierran forest but shows the effects of past fires. All the species, deciduous as well as coniferous, have developed an immunity to the fire which frequently sweeps around and past them almost harmlessly unless there is a great accumulation of debris and detritus on the ground.

That is not to say that we must let fires now rage unchecked. Human occupancy of the forests has introduced conditions which were not present in past days and wholesale forest fires now destroy watershed, recreation and economic values which must be protected. Therefore, we should now bend our efforts toward so opening the forests by roads and trails that they may be properly controlled and to clean up the forest floor so that the wholesale fires which the accumulation of debris now provokes may not do more destruction than the retail fires which prevailed in the forest primeval.

But I am, indeed, glad to see that the Los Angeles Times is treating these fires as of so habitual occurrence as scarcely to be news. And that it leaves to lesser papers such scareheads as "Raging Fire Imperils National Park," "Big Trees in Path of Blaze." They have been in the path of blazes since Ur of the Chaldees reigned in Mesopotamia, yet they still raise their spears or crowns of blue-green foliage to the azure of our Sierra skies.

JOHN R. WHITE,
Superintendent United States National Park Service.

Not That McCue

LOS ANGELES, Aug. 24.—[To the Editor of The Times:] Several times during the past year, it has come to my attention that a certain attorney from Montana, who happens to bear the same name as myself, had surrounded his name with a most unpleasant aroma. On August 21 I read an article in the Los Angeles News to the effect that this man had made an application for admission to the bar of this State, and that his application was denied.

It seems that news of this man's difficulties has been published in various newspapers throughout the country, and the publication has tended to create some confusion in the minds of my friends outside of Los Angeles, to such an extent that several of them have written and spoken words of comfort to me in what they thought to be my predicament.

In view of the extent and unpleasantness of the publicity that has been attached to this matter, I wish earnestly that you would inform the public through your paper that the writer is not the Thomas F. McCue about whom these notices were printed. I understand that the other Thomas F. McCue is a man of about 50 years of age, and that he practiced law for some time in the State of Montana. I am 34 years of age, born in Hartford, Ct., graduated from the Catholic University of America at Washington, D. C., in 1916, admitted to the bar of the State of Connecticut in June, 1916, and to the bar of this State in 1923. I have never seen the State of Montana.

THOMAS F. McCUE.

Evidently All Wet

PASADENA, Aug. 24.—[To the Editor of The Times:] Why not take the venom out of your daily cartoon aimed at Gov. Smith and also why not bridle flippant Harry Carr until after election or permanently for that matter? I, for one of your readers, would gladly contribute to buy your Free Lancer a black silk dress so that he might be admitted to an old ladies' home. His political remarks and the daily gibes of your cartoonist at the chosen leader of a great party for the most exalted position on earth, are undignified, un-American and decidedly prejudiced.

Please, just because you happen to publish the best paper here, don't continue to make your political screed offensive to readers who think once in a while and who may vote contrary to your recommendations. It is my humble opinion that there will be many of us this fall.

JAMES J. LAMBRECHT,
President Pasadena Holding Company.

SAFETY FIRST

"Don't watch my car, watch the light. Why do you watch my car instead of the light?"

"The light ain't apt to run over me," responded the pedestrian addressed.—[Louisville Courier-Journal.

She's Worth It

The Wife: This paper says that in parts of the East a good wife costs 15 shillings. Disgraceful!

Her Hubby: Well a good wife is worth 15 shillings, isn't she?—[London Answers.

The estimated number of active cotton spindles in the United States is more than 32,000,000.

STUDY IN SAFFRON

BY EUGENE BROWN

It would seem that the moron who is bothering us most in these devious days is the one who is ever striving to make the big parade.

By the big parade is meant the screaming headlines that march across the front pages of the hysterical press. The moron has the brain of a woodpecker and the morals of a hyena, but he loves black ink. He is incapable of the achievements of Bill Tilden, Bill Thompson, Bill Hays, Bill Borah, or any other of the big Bills, but there is a blistering passion for newspaper notoriety—and at any price. In his blunted reasoning he figures that the easiest way is to commit a more lurid or devastating crime than the other guy.

He figures that the front pages and the blazing headlines are given to murder and banditry and, therefore, his tastes and ambitions run to vice and blood-letting. The connection is malignant but manifest.

Perhaps Lucifer himself alone can tell how much murder is inspired by these six and eight-inch headlines, but there must be a lot of it. It is a bit significant that strange and startling crimes lessen as they pass out of the firing range of the saffron sheets. In communities and countries where explosive headlines are unknown the crimes committed appear to take on a minor and commonplace character. But give a derelict assurance that he may have the front page all to himself and he will create a tragedy that is almost worth it.

Withal so many of the headlines are fictitious. They may be printed in one edition and refuted in the next. This makes little difference to the criminal mind. It even gives promise of a double-header. The world, indeed, is heavily flecked with wastrels who must have their notoriety—no matter at what cost. They cannot sit atop a flagpole for nine days or go over Niagara Falls on roller skates, but one may at least shoot the wife or slice sister Susie into shreds. That will make at least one more fat story for the emotional editions and assure the attentions of the sob sisters and cameramen.

In their way the sensationmongers themselves develop a technique. They strive to use all their properties and stage effects with every performance. The latest local tragedy was a rather trite and sordid affair, but the jaundiced journalists had to display their full store of hysterical headlines. Rumors were paraded as facts on one page only to be punctured on the next. Of course there was the established love nest and mystery woman. The wine glass is held aloft and the bloody finger prints are duly traced. The green-eyed monster is again on view and there is the customary quest for the lost witness. All the usual panoply of crime is on parade. Day after day the saffron sheets permitted their emotions to surge all over the front pages. There were inflammatory headlines dealing heavily with rumor and fabrication.

The newspaper game is virtually my life story, yet I should hesitate to play it with wild cards. I am now inclined to the belief that the subscriber should have to hunt a little for his crime instead of having it hurled at him from a steam shovel in the midst of the front page. After all crime and scandal are not the paramount factors in human interest. They must be recognized, but not glorified.

I am also a bit dubious over a sales circulation gained through the use of flamboyant headlines over doubtful or fictitious news. In other fields they call it obtaining money under false pretenses and they lock the offender up. Of course it doesn't amount to much, but as Jack Johnson says, "the principle is still there. When a guy passes counterfeit money they send him to San Quentin, but when he utters bogus news or fake telegrams they send him to Congress—at least it has been done.

PURMAN PASSES

Hon. William James Purman of Washington, D. C., the last venerable patriarch of the Centennial Congress of 1876, has passed on to answer the roll call of his departed colleagues.

A gentleman of a by-gone school of chivalry, culture and learning, Congressman Purman was the last member of that eminent group of men who comprised the memorable Forty-third Congress of the United States. His tenure of life was long, but his perennial spirit of youth made his living a ray of sunshine to all who knew him, and especially to those who came in intimate contact with his generous heart and his great sympathy and counsel.

His bark had reached the breakers of the farther shore, but with a life rich in love each day shone the brighter through the transcendency of his noble character, and the tragedy that drew the portals about him was as untimely to faithful hearts as is ever "the deep mystery woven of the warp and woof of death."

Tender in the sunshine of life and staunch as the oak in its storms, James Purman loved the beautiful—color, music and little children, and was touched deeply by their many contacts. He sided with the weak, and with purity of thought faithfully and sincerely discharged all public trusts and duties. The example of his life added to the sum of human joy and happiness while here and, with that finis, his soul was wafted away as serenely as the coming of the dawn.

PEN POINTS

A politician's convictions are those thin little things used to spread butter on the bread.

At a mountain resort everything is crude and primitive except the method of dry-cleaning you.

November will tell the story, but you must wait even longer to see how it affects the price of liquor.

The two-dollar bill isn't so unlucky. It's the only one that can pay for a dollar's worth of anything.

As we understand the G. O. P. leaders, the wet who favors Smith will get his bier all right.

Youth's dislike of "old ideas" isn't lessened by the fact that it is necessary to ask them for a loan.

If she works for $16 a week, that's industry; if she stays in the house for nothing, that's romance.

Distance lends enchantment in some cases, but the closer you are to a political machine the fewer faults you see.

People didn't leave home so much in the old days. There were fewer bill collectors to dodge.

Americanism: Making home more like home; making hotels more like a hotel.

Fable: He left his wrecked car to go for help, and when he got back his tires were all there.

They say reform must wait until religion converts men of sin, but juries might help a little.

All infants fall more or less and present conditions might be traced to many an early bump on the head.

Our secret ambition is to owe the banker so much money we can place a patronizing hand on his shoulder and call him "my boy."

A man can still drink or let it alone, but now one requires about as much will power as the other.

A hick town is a place where eyebrows are lifted when a middle-aged married man buys a sport roadster.

"Brake linings have been strengthened to endure modern strains." So apparently, have stomach linings.

Example of "political psychology": If you pay a man $10 a day to do nothing, his four cousins will vote right.

Correct this sentence: "I enjoy lunching with Rube," said the man, "because he always kids the waitress."

When marriage is not a success, divorce is its successor.

Happy is the man who never knows when he gets the worst of it.

Guessing is less work than thinking, and that's why so many of us guess.

RIPPLING RHYMES
by Walt Mason

NO MUDSLINGING

"We'll sling no mud in this campaign," is the pronouncement, safe and sane of leaders of the parties twain, now in the field; "The voters we will educate, and every human delegate will know our gospel, true and straight, when we have spoken. The vital issues we'll expound and show our platform's good and sound; we'll kick no dog or man's dog around, we'll throw no bricks; the ribald tricks of yesteryear shall not be in this campaign appear; we'll simply make our message clear to all the hicks." It is refreshing thus to know that speakers will confront the foe and no dead cats or dornicks throw, and shun abuse; politely statesmen will uprise, sidestepping scandal, bunk and lies, and meet the foe with logic wise, and cook his goose. When such a program is outlined we feel the world is more refined, old evil things are left behind, we grow in grace; no more shall we denounce the dirt that decorates our neighbor's shirt, old vicious ways we will desert, and all things bum. "But," say three pessimists or two, "the campaign yet is very new, and statesmen take a friendly view of smiling foes; the campaigns always start this way and everyone is blithe and gay, and none a bitter word will say or bust a nose. All campaigns show us at the start that we have seen old ills depart, that will appeal to brain and heart when they orate; there'll be no call for salve or lint, there'll be no yarns of lurid tint, no scurrilous invectives unfit to print, no hymns of hate. But as the campaign waxes old the foemen will begin to scold, and shirtsleeves will then be uprolled and fists will fly; peace will not seem a precious boon, and men will scrap all afternoon, and there'll be whackers on the moon as the campaign by."

OKLAHOMANS TO PICNIC

The annual fall picnic of Oklahomans will be held all day Saturday in Sycamore Grove Park. All from the State are invited by President Bryan.

QUEER STUMP STUMPS FINDER

Discovery Looks Like Torso of Man

D. Kirkland and "The Man"

DARWIN'S theory of the origin of man from the lowly ape is due for a severe jolt. At least, Dr. Kirkland of 625 West Fourth street, thinks there is danger of it in the bit of devastating evidence he has in the form of a tree stump which, without undue strain on the imagination, bears a striking semblance to the form of a man.

A short time ago while working on a road in the San Bernardino Mountains, Kirkland unearthed the strange stump. When the bark was removed it revealed a smooth, light wood which even has pores in it very like those in the human skin. The body is in a sitting posture and the portion representing the torso is hollow.

Several horticulturists say they never have encountered anything quite like it before, Kirkland said.

Shots of Wife Cause Arrest

Mrs. Ruby Randall wanted to scare her husband so she fired two shots from a revolver. Fred, the husband, thought, the shots were aimed at him, although she says she fired into the ground, so he called the police. Mrs. Randall, who is 25 years of age, is now in a cell at Georgia-street Police Station on a charge of assault with a deadly weapon.

According to police Mrs. Randall and a man she met recently had been drinking Monday night. She told him that her husband abused and neglected her and he loaned her a revolver. Arriving home at 6 a.m. she wakened her husband and, after an argument, opened fire.

Radio Speaker to Aid Hoover

Malcolm Fitch, who claims the distinction of having spoken from more broadcasting stations than any other man in the United States, has arrived in Los Angeles to take part in the Hoover campaign. He spoke over KGEF, the Trinity Methodist Church station, last night, and will broadcast from the same station tomorrow night at 6 o'clock.

Several months ago Fitch started at Rochester, N. Y., on a speaking tour that took him west to Victoria, B. C., and down the Coast to San Francisco. While in the Bay City he met western Republican leaders and offered his services to help elect Hoover. He was asked to make his start in Los Angeles.

NAVY WILL AID AIR EXPOSITION

U.S.S. Saratoga to Anchor Off Venice During Races

Strafing Squadron Also to Take Part in Meet

Planes Will Come Here from Virginia and Texas

The U.S.S. Saratoga, the Navy's new $45,000,000, 33,000-ton aircraft carrier, will anchor off Venice September 8 for the first four days of the National Air Races and International Aeronautical Exposition, it was announced yesterday.

As a further addition to the Navy's participation, the fleet's famous fifth strafing squadron of Boeing fighting planes, under command of Lieutenant-Commander Ralph E. Davison, will base at Mines Field during the exposition. Each afternoon the squadron will put on a hair-rising program of aerial combat and strafing tactics.

PILOTS LISTED

The War Department yesterday announced the personnel of the pilots of the First Pursuit Group to compete for the John L. Mitchell trophy and the pilots of the Third Attack Group who will participate in the race for the Mason M. Patrick trophy.

The First Pursuit Group contestants, to fly here from Selfridge Field, Michigan, are: Maj. Ralph Royce, Capt. Victor H. Stralum, Lieut. Julian B. Haddon, Lieut. Rex K. Stoner, Lieut. John K. Cannon and Second Lieutenants Frank D. Klein, Burton M. Hovey, Jr., Frank G. Irvin, Frank H. Robinson, William H. Doolittle, Ernest H. Lawson and Robert L. Schoenlein. Accompanying them will be Second Lieutenants John F. Egan and George Trevor as transport pilots.

From Fort Crockett, Texas, will fly the pilots of the Third Attack Group to participate in the Patrick trophy race. They are: Maj. John H. Jouett, Capt. Ralph H. Wooten, Capt. Horace N. Heisen, First Lieutenants John G. Williams and George A. McHenry; Second Lieutenants Ivan M. Palmer, Earl C. Robbins, Otto C. George, Walter W. Gross, Herbert M. Newstrom, Donald W. Benner, George R. Acheson and George H. MacNair. Second Lieutenants Richard H. Gilley and Eyrle G. Johnson will accompany the group as reserve pilots.

MARTIN PLANES

Nine Martin planes of the Second Bombardment Group also will fly here on a tactical flight from Langley Field, Virginia, under command of Maj. Hugh J. Knerr. The pilots, in addition to Maj. Knerr, will be: Capt. Cecil G. Sellers, First Lieutenants Harold W. Beaton, Philips Melville, Emile T. Kennedy, David L. Behncke; Second Lieutenants Ward J. Davies, A. J. Kerwin Malone, Alfred H. Johnson, Wilton M. Briney, William B. Blaufuss, Ford L. Fair, William Wolfinbarger and Harold L. George. Capt. Ira F. Peak, flight surgeon, will accompany the flight.

The bombardment squadron will make the trip across the continent to study conditions under which a group would operate if ordered from one section of the country to another to participate in hostilities against the enemy in event of war.

NEW YORK-LOS ANGELES LAP PRIZES POSTED

Aviators entered in the New York-to-Los Angeles transcontinental air derby through seventeen control cities will share in the division of $3650 in prize money posted as lap prizes by the communities along the route, according to Dudley M. Steele, contest chairman.

Entries may be made up to midnight Saturday. Already sixty airplanes and their pilots are entered in this event, which is divided into three classes, based on the horsepower of the motors competing. The $3650 is in addition to the $40,000 in prizes and trophies posted by the California Air Race Association.

Lap money is to be awarded on the basis of the best time into each donating city. The cities, the total prizes and the awards by classes are as follows:

Kansas City, $1000: Class A, $225, $100 and $75; Class B, $225, $100 and $75; Class C, $200.

Yuma, $1000; Class A, $200, $100; Class B, $250, $150; Class C, $200, $100.

McKeesport, Pa., $500: Class A, $100, $50, $25, $25; Class B, $100, $50, $25, $25; Class C, $50, $25, $25.

Tucson, Ariz., $400: Class A, $100, $50; Class B, $100; Class C, $100.

Wichita, Kan., $300: Class A, $150; Class B, $100; Class C, $50.

Terre Haute, Ind., $250: Class A, $50; Class B, $100, $50; Class C, $100.

Midland, Tex., $200: Class A, $60, $25; Class B, $60, $25; Class C, $30.

El Paso, Tex., will award a beautiful scrape to the winner of each class.

Latest entries in the Class A race are two planes by the Swallow Airplane Company of Wichita, Kan., to be piloted by Dale G. Jackson of Anglum, Mo., and L. H. Connell of Wichita, Kan.

FORWARD PASS COMPLETED

Officer Proves so Adept at Catching Liquor He Might Make Football Star

Football teams needing an expert forward pass receiver would do well to enlist the services of Police Officer Wylie.

Testimony in Municipal Judge Ballard's liquor court showed that when Policeman McClanahan entered the home of Frank Scott at 848 Gladys street Scott threw a half gallon bottle part full of liquor out of a second-story window. Officer Wylie, below the window, caught the bottle before it reached the ground, and with the bottle as evidence Judge Ballard sentenced Scott to pay a $200 fine or serve forty days in jail.

ATTACK ON MAN LEADS TO ARREST

Salesman Suspected of Assaulting B. F. Stafford Following Party

Despite his vehement denials that he knows B. F. Stafford of 4027 Holly Knoll, police yesterday arrested James B. McKenna, 20 years of age, a salesman living at 616 St. Paul street, on a charge of suspicion of assault with a deadly weapon upon Stafford, who was found bleeding and unconscious in an automobile near the intersection of Sixth and St. Paul streets yesterday morning.

Detective Lieutenant James said police believe McKenna was a participant in a poker party that ended with the slugging of Stafford. He was arrested at 612 St. Paul street.

Detective Lieutenants James and Stevens of the police homicide squad believe Stafford, who is at the Sylvan Lodge Hospital in a critical condition with a basal skull fracture, was beaten in a drunken fight following a party in the neighborhood. Police records show a call-car was sent to a house in the vicinity Monday night to break up what was reported to be a combination brawl and party.

Investigation of Stafford's activities also disclosed, police state, that he dabbled in oil stocks.

In the car was found a large straw hat and a blue four-in-hand tie, neither belonging to the injured man. Stafford was discovered by C. H. Brown of 626 St. Paul street, whose suspicions were aroused by the auto having been standing unoccupied for several hours. Stafford was not robbed, as a diamond ring was on one finger and his pockets contained a large sum of money.

FOUR GENERATIONS AID HOOVER

Women in Family Form Solid Phalanx

They're Going to Vote in Unison on Election Day
(Left to right) Evelyn Ells Klefbeck, 23 years of age, her baby daughter, Nancy Jane; Hazel Laney Ellis, 45; Mary Bannister Laney, 70, and (seated) Lucinda E. Bannister, 98.

THE women of four generations in one family will vote for Herbert Hoover in November in Los Angeles. The fifth generation is too young for that as yet, but will probably be brought up in the tradition of the family.

Lucinda Emerson Bannister, born in Perryville, N. Y., on November 3, 1830, is the eldest of the group. She came to California in 1884. Her daughter, Mary E. (Bannister) Laney, was born in Canada, N. Y., on August 30, 1858. Her granddaughter, Hazel M. (Laney) Ellis, was born in Traverse City, Mich., July 10, 1883. Her great-granddaughter, Evelyn E. (Ells) Klefbeck, was born in South Pasadena on June 21, 1905, and her great-great-granddaughter was an arrival in Long Beach on June 29 of this year, her mother's wedding anniversary. The youngest member of the family is named Nancy Jane.

TRIAL OF MARCO RESUMES TODAY

Testimony on Shooting to be Given Jury

Eight Men and Four Women Serve on Panel

Defense Declares Accused Did Not Fire Shots

Taking of testimony in the second trial of Albert Marco, asserted vice king, who is charged with two counts of assault with intent to commit murder, is scheduled to get under way this morning in Judge Doran's court.

Marco is accused of shooting Dominick Conterno and Harry Judson during a melee June 27, last, at the Ship Cafe at Venice. His first trial resulted in a mistrial when the jury reported it could not agree.

His second trial got under way last week, but the selection of the jury was not completed until late Monday and Judge Doran ordered adjournment until today, owing to the election.

Eight men and four women, with another man chosen as alternate, will serve on the jury in the present case. Judge Doran has ordered the jurors locked up during the balance of the trial.

Dep. Dist.-Atty. Clarke, who is prosecuting the case, will make his opening statement to the jury after court convenes this morning.

Defense Attorneys Thomas P. White and Vincent Hickson have stated they will base Marco's defense on the theory that the asserted vice lord did not fire the shots.

It is expected Judson and Conterno will be among the first witnesses to be summoned by the State.

Out of every 100 prisoners paroled from New York State, twenty-one go back to their cells.

Well-Known Comedian Plays Big Role for Vitaphone; Fay Wray Given Lead in Lasky's African Film; Georgie Grandee Signs for "Ritzy Rosie"

BY GRACE KINGSLEY

While awaiting Texas Guinan's arrival from New York to make her Vitaphone debut in "The Queen of the Night Clubs," Warner Brothers are busily engaged in assembling her cast and making other preparations for the Vitaphone special.

Jack Norworth, they announced yesterday, has been signed for one of the prominent roles, the other two important masculine parts to be played by John Davidson and Eddie Foy, Jr.

Norworth is widely known as a vaudeville headliner and musical-comedy star. With more than twenty years on the stage in his record, including periodical appearances on Broadway and also London as both star and producer, Norworth is the first actor signed for a feature-length Vitaphone production who has never before appeared in motion pictures. During the past three years the actor has been headlining in vaudeville in "The Crabber."

"Queen of the Night Clubs" is scheduled to start production early in September with Bryan Foy, director of "Lights of New York" and "The Hometowners" directing. Murray Roth and Addison Burkhart are engaged on the story.

FAY WRAY APPEARS IN AFRICAN PICTURE

We heard yesterday that the chief feminine role in "The Four Feathers," A. W. Mason's powerful novel which is being filmed by Paramount as one of its most important productions of the year, will be played by Fay Wray, whom Eric Von Stroheim lifted to fame when he selected her to appear in "The Wedding March."

FAY WRAY

A friend of Miss Wray's told us that Ernest B. Schoedsack and Merian C. Cooper, who are codirecting the picture, looked at several dozen screen tests before assigning Miss Wray to the part. Richard Arlen, as heretofore announced, has the masculine lead.

The picture has been in production in the Sudan and in Tanganyika, Africa, for a year.

We understand that many weeks will be spent in completing the picture's interiors, which will be made at the studio.

Georgie Grandee With LeRoy

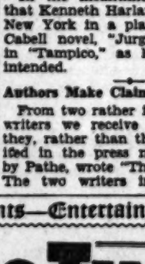
It was quite inevitable that that bright young split-pint comedian, Georgie Grandee, who, you remember, was the life of the party in Oliver Morosco's musical comedy, "The Morning After," should go into the talking-pictures.

Now it is discovered that he is going to furnish a lot of the fun in Mervyn LeRoy's comedy for First National, "Ritzy Rosie," starring Alice White, and which will be, partly at least, a talkie.

Grandee is well known in musical comedy in New York, and in vaudeville. This will be, I think, the first time that he appears on the screen.

Harry Langdon Is Busy

While Harry Langdon is making up his mind as to which of three very pleasing film offers he will accept, he has decided to keep his artistic talents in action.



HARRY LANGDON

The comedian was signed yesterday by Fanchon and Marco to make a three weeks' tour, taking in San Francisco, Seattle and Portland, appearing in a vaudeville act at the theaters in which Fanchon and Marco present their productions.

While one hates to mention anything so prosaic as mere money in connection with art, it is known that Langdon's salary for the three weeks exceeds in amount any vaudeville salary other than that paid recently to Al Jolson for his picture-theater appearances.

Two With Gloria Swanson

Gloria Swanson is determined, despite her own popularity, to surround herself with the best acting talent available, in her current United Artists picture.

To this end she signed yesterday those two excellent character actors, Tully Marshall and Albert Conti.

Marie Prevost Curtails Trip

After all, Marie Prevost wasn't able to carry out her ambitious schedule to motor to New York with Kenneth Harlan and return to Salt Lake City by September 1, when she is due to begin work in "The Exodus of the New World," being produced by George Edward Lewis and the Pioneer Film Corporation of Utah.

MARIE PREVOST

Miss Prevost parted from Harlan in Chicago on Monday, and today will undertake the journey to Utah via airplane.

In the meantime, it is learned that Kenneth Harlan will appear in New York in a play based on the Cabell novel, "Jurgen," instead of in "Tampico," as he had at first intended.

Authors Make Claim

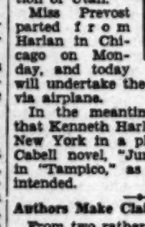
From two rather indignant young writers we receive the word that they, rather than the writers credited in the press notices sent out by Pathe, wrote "The Shady Lady." The two writers in question are Richard Sharp and Leonard Traskin.

Sally O'Neil to Europe

We hear it rumored that Sally O'Neil is going to Europe, but we couldn't find her yesterday to ask whether it were true or not. We understand she is going abroad merely for a pleasure and rest trip.

Won't Go Talkie

Although she is willing to appear in talking pictures, Lois Wilson refuses to go entirely talkie. She has proved it within the last week by refusing an offer made her by the Shuberts to play the lead in "Satan," Elmer Harris's new play, which will be produced in New York this fall. The reason is that Miss Wilson is negotiating for a long-term contract in pictures.



LOIS WILSON

It is reported that the stage role also was offered to Leatrice Joy, who likewise turned down the chance, due to several picture engagements in prospect.

WHAT MILADY WEARS

Drama Page Turns to Fashion; Men May Pass This Up

Women patrons of the Vine Street Theater, where Edward Everett Horton is holding forth in "Clarence," are being sartorially entertained by the beautiful gowns which Ethel Grey Terry, the new leading woman who plays Violet Pinney, wears during the course of the four acts of the play.

A well-known modiste designed the four changes which Miss Terry dons, and they are described as truly lovely. In the first act, the actress wears an ensemble of dark blue Poiret twill with a little cape, inset with oblong medallions of embroidery around the edge; a smart blue felt hat and a swanky bag of suede complete the outfit.

A peach-colored georgette with top of all-over eyelet embroidery and roll collar embroidered in pastel shades in cross-stitch is worn in the second act; the beige-colored silk lace evening frock is simple in the extreme, but fitted to perfection and its only decoration is a huge bow of bronze velvet ribbon caught with a rhinestone buckle on the left hip.

American Association for the Advancement of Atheism
Room 218 — 224 So. Spring Street

C. B. DeMille,
c/o DeMille Studio,
Culver City, Calif.

Dear Sir:

Information has reached us through a medium we regard as authentic that you are currently producing a picture titled "The Godless Girl" which is an obvious attack on the unbeliever.

Has not an unbeliever the same right to defend his principles as the believer?

Is it fair to charge by inference that Atheists and Atheistic societies corrupt civilization?

Do you deny the children of an unbeliever the right to heed parental teachings?

Have not these children of unbelievers the same right to meet in lawful assembly to express their views?

We have unmistakable reason to believe that your picture has been calculated to destroy the efforts of this society.....We do resent with a feeling pronounced and deep that in making our organization the victim of a scurrilous piece of propaganda you are violating the first law of human righteousness.

We do not propose to stand idly by and permit this without spreading our stand to the world.

Very truly yours,
(Signed) John S. Graves
Chairman Resolutions Committee.

BOWL FANS HEAR MUSIC THAT IS NEW

Goossens Conducts Russian Symphony and Ravel Ballet With Enthusiasm

BY ISABEL MORSE JONES

The works of two contemporary composers, Glazounow and Ravel, were the important events of the Hollywood Bowl concert conducted by Eugene Goossens last night. It is the last week of the Bowl season of thirty-two concerts and already the Bowl fans are looking forward to the next summer's concerts and pledging their support. Last evening it was Joseph Scott whose Irish wit seconded Mrs. Leiland Atherton Irish in her plea for permanent patrons.

It is an open secret that the Bowl concerts have cost more than ever this year and brought less in monetary returns. There is a deficit and the only way the music-lovers of this community can give the Bowl mangement the requisite courage to begin the negotiations for another year is for 5000 Bowl fans to promise to buy a season ticket book for five consecutive years. So far about 200 have signed.

Ms. Goossens's selection of program numbers for last night's concert was particularly happy. Schumann's "Manfred" overture began it, and was immediately followed by Glazounow's entertaining symphony No. 4.

The symphony proved to be ideal in the Bowl. It is melodic, rhythmical and easy to listen to and it was done with a kind of aristocratic grace and charm that were quite irresistible. The scherzo with its four-part writing for woods was lovely out-of-doors and the wood-wind artists gave fine performance.

Orchestral fragments from the Ravel ballet, "Daphnis and Chloe," again demonstrated the unusual interest and facility which Goossens devotes to conducting ballet. The obscurities of Ravel's modernism were well pointed and the work earned enthusiastic applause. It is Ravel at his most colorful best. The legend of "Daphnis and Chloe" was portrayed with subtle harmonies, atmospheric to a degree. Ravel's modernism is gentle, cultivated, supersensitive and filled with that spiritual essence which is felt at once in the delicacy and restraint of a work like "Daphnis." For this and for many other charming introductions to new music, Los Angeles has Mr. Goossens to thank.

Wagner's Forest Murmurs gave the popular conductor another and more solid mood to convey to the listeners. In this he again proved his versatility.

The successful concert closed with Glinka's "Kamarinskaya," a Russian fantasy of lively tunes and characteristic rhythms.

On Friday the Pavley-Oukrainsky ballet will perform many dance divertissements to the accompaniment of the orchestra and Mr. Goossens will conduct. He is famous in Europe as the conductor most often chosen for Diaghileff's choreographic artists, and this program promises to be one of the outstanding events of the year.

Jeanne Eagels Visits Lincoln

Jeanne Eagels, late star of "Rain," paid a "surprise" visit to the Lincoln Theater on Monday night "between acts" of her local Orpheum engagement. Miss Eagels heartily applauded the work of Evelyn Preer, of the Lafayette Players, colored performers, who are presenting "Rain." Miss Preer is essaying at the Lincoln the role of Sadie Thompson, which Miss Eagels made famous on the American stage.

GLASS, QUARTARO IN PERSON

Gaston Glass and Nena Quartaro, featured lovers in James Cruze's Pathe special, "The Red Mark," will appear in person tonight at the Hillstreet Theater in conjunction with the showing of the picture.

NOTHING TO DANCE? TRY "COLLEGIANA"

Helen Ferguson

Helen Ferguson is willing to give a small fortune to the inventor of a new dance, she says.

"It has been so long since we have had a real successor to the Charleston or the Black Bottom," complains the leading woman of "Lombardi, Ltd.," with Leo Carrillo and the Henry Duffy Players at the Hollywood Playhouse. "The varsity drag is too complicated for my feeble mentality to master even if my feet obeyed my mind. I'd love to find a new dance that looks complicated but really is easy.

"Sometimes I think it will be necessary to go back to those old, easy ballroom dances, the Berlin and the schottische. I've always regretted that I was born too late for the days of cotillions. My mother has a bureau full of cotillion favors she received as a girl and I envy her."

Vilma Banky and Ronald Colman

Plighting eternal troth in the film which the United Artists Theater will display, beginning today. It marks their last picture together, according to present plans.

Musical Score for "Godless Girl" Lauded

In the dramatic and thrilling episodes of "The Godless Girl" at the Biltmore Theater, where sound of crackling flames, water hissing on heated walls, and the shrill alarms of fire are being heard, a large orchestra is working over-time adding to the vivid effects pictured on the screen as the reformatory is destroyed by fire.

Noticeably fine work is done by this orchestra throughout the more tender passages. Dr. Hugo Riesenfeld and Frederik Stahlberg were responsible for the precision and beauty of the rendition. They conducted the rehearsals in person.

Director Stahlberg came from Salzburg to Los Angeles to take charge of this work. Yesterday he returned to New York to direct the orchestra at the Gaiety Theater for the New York premiere. Stahlberg led the orchestra at the Wagner Festival under Reinhardt's direction and conducted the music for "The King of Kings" at the request of the Prince Archbishop of Salzburg. Cecil B. De Mille's picture "The King of Kings" was the only motion picture permitted at the festival. The music for this also was arranged by Stahlberg and Dr. Hugo Riesenfeld.

The Prince Archbishop complimented the conductors upon the musicianly skill they exhibited and on the beauty of the sacred and secular themes chosen to illustrate "The King of Kings."

Stilt-Dancing Novelty Due

Eighteen girls dancing with their feet some distance off the ground is the unusual novelty to be presented in the Fanchon and Marco idea, "Up in the Air," Friday at Loew's State. The girls do a ballet on stilts.

Robert Stickney, the Brooks Trio and Doris Whitmore are stellar performers in the new show, and Al Lyons will start his second week as master of ceremonies.

John Gilbert portrays an underworld gangster in his picture, "Four Walls," scheduled as the new screen attraction. Joan Crawford, Carmel Myers, Vera Gordon and Louis Natheaux are featured in the cast.

Revue Edition Adds Girls

With the addition of six girls to the chorus line-up there will be a cast of more than forty in the new edition of the stage revue at the Boulevard Theater when the new show starts Friday.

With the augmented chorus, Gwen Evans, who leads the girls in peppy song-and-dance numbers, is planning chorus features described as more elaborate than any yet presented on the Boulevard stage.

This week, with Monte Blue in "Brass Knuckles," the Boulevard girls present three novelty numbers, one of the most spectacular being the Indian dance.

"Mating Call" Stars Meighan

"The Mating Call," the second Thomas Meighan presentation of Howard Hughes's will have its Los Angeles premiere at the Metropolitan Theater on September 28.

"The Mating Call" is a celluloid edition of the popular novel of the same name by Rex Beach. Evelyn Brent and Renee Adoree share the feminine leads, and James Cruze directed.

"The Mating Call" is expected to surpass "The Racket" in popular appeal, having a strong love interest.

NEW DOUBLE-FEATURE PROGRAM AT SHRINE

Lois Wilson comes to the screen at the Shrine Civic Auditorium Theater tomorrow in "Coney Island," which furnishes half of the double feature program that includes "We Americans," with an all-star cast.

"That's My Daddy" with Reginald Denny, and "Wild Geese" featuring Belle Bennett and Eve Southern close at the Shrine tonight.

A comedy, newsreel and overture complete the screen program.

British Stager Seeks Contract of May McAvoy

The opening night's performance at the Warner Brothers' Theater of "The Terror," in which May McAvoy heads an all-star cast, will always hold special significance for the tiny film star. For immediately following the completion of her performance in the audible production, Miss McAvoy was sought out by J. D. MacArdle, prominent English theatrical producer, now visiting in Hollywood.

An unusually tempting offer to wean her away from the screen to star in a dramatic play called "Doom," which he anticipates producing in London some time next year, was made Miss McAvoy.

The actress' voice over the Vitaphone, it was learned, coupled with her acting ability, impressed the producer.

Although she is sans stage experience and has had to compete with such stage veterans as Al Jolson, Lionel Barrymore, Alec B. Francis and others in the synchronization phase of production, Miss McAvoy has acquitted herself admirably, it is admitted.

According to MacArdle, Miss McAvoy is one of the biggest box-office drawing cards in Europe.

Puzzle Fans! Here's Prize Jigsaw of All

"The Wooden Kimono" company at the President is a reunion of old friends, asserts a diligent publicity writer, who has compiled the following amazing array of facts:

Dudley Clements, Clara Verdera and Leslie Austen, who head the cast of the Henry Duffy Players production of the mystery play, were in the original New York company. Clements and Austen were together in "Ladies of the Evening." Clements and Miss Verdera played together in summer stock in Rochester, N. Y. Austen once played a season of stock in Schenectady N.Y., under the direction of Edwin H. Curtis, who directed the production of "The Wooden Kimono" here. Curtis directed stock companies in Columbus, O., and Minneapolis of which Helen Keers and Joseph De Stefani were members. Clements, Miss Keers and De Stefani were members of a stock company in Yonkers, N. Y. Clements was treasurer of the Crescent Theater in Brooklyn, when Leah Winslow was the leading woman. Robert Adams and De Stefani were in the cast of Henry Ruffy's production of "Take My Advice," in San Francisco, and Carl Gerard and Burnell Pratt were in "Why Men Leave Home," the "Kimono's" predecessor at the President.

Put them all together and they spell—"The Wooden Kimono."

House-to-House Triumph Scored

"The Desert Song" began its Los Angeles engagement at the Windsor Square Theater last December, moving downtown to the Mason Operahouse, and after a run of eleven weeks in San Francisco, returned to the scenes of its earlier triumphs only to be quartered this time in Lillian Albertson's Majestic Theater. Here it is now in its thirty-sixth California week.

Sigmund Romberg, composer of "The Student Prince," "Blossom Time," "My Maryland," and other recent successes, is responsible for the music of "The Desert Song." The book is from the combined pens of Otto Harbach, Oscar Hammerstein and Frank Mandel. The cast of "The Desert Song" is the same which has been appearing in the operetta since it first opened and is headed by Perry Askam, Johnny Arthur and Elvira Tanzi.

BULL LACKS TONGUE

A bull which can do everything but talk is, according to the management of the Shrine Roller Skating Rink, is to be the principal actor in a burlesque Spanish bullfight at the rink Thursday night. In support of the unique bovine, matadors, toreadors and horses, all on skates, are promised as part of the entertainment.

BAND IN PREMIERE

The new Shrine Ring Skating Band, under the leadership of Ed Halter, will make its first bow to the skating public at the Shrine Roller Skating Rink tonight, and nightly thereafter.

FIGUEROA HOUSE TO REOPEN

Pascal's "Marriage Bed" Will be Staged by Felix Young Next Month

The Figueroa Playhouse has been leased to house the initial original production to be launched under a policy inaugurated by Felix Young and to have its premiere next month with Ernest Pascal's dramatization of his novel, "The Marriage Bed."

Tentative selections of principal players from the roster of prominent New York players have been made, but definite announcement must await signed contracts, the new producer stated. In the meantime all important casting, with the exception of the name of a picture star being considered, will be done in New York. The screen player being considered for the lead in the opening piece will be decided next week, depending upon his freedom from existing contracts.

Negotiations are also virtually concluded for the signing of one of Gotham's most celebrated stage directors whose name has been associated with several hits of the past three seasons, Young stated.

"The Marriage Bed" will have an unlimited engagement here, he said.

FOX TALKIE SPECIAL IS ANNOUNCED

"Mother Knows Best" Will Come to Carthay Circle Early in October

Fred Miller of the Carthay Circle Theater announces that William Fox's first feature made with Movietone talking equipment is to have its world premiere at the Carthay Circle with a typical gala opening early in October, following the conclusion of the successful engagement of Colleen Moore in "Lilac Time" which is still a prime favorite in the seventh week of its run.

The title of this first Fox talkie is "Mother Knows Best," a picturization of Edna Ferber's widely read and much-discussed story featuring Madge Bellamy, Louise Dresser and Barry Norton, and directed by J. G. Blystone.

"Mother Knows Best," according to Miller, "has talking, singing, and in fact everything to make it novel, new and startling."

Chinese Theater Now Film Set

With a complete reproduction of the forecourt of Grauman's Chinese Theater in Hollywood as his first setting, James Cruze yesterday started direction of "A Man's Man," Metro-Goldwyn-Mayer's new starring comedy for William Haines.

The first setting was a replica of the opening night of "White Shadows in the South Seas" at the Bayreuth of filmdom, with Haines playing a "soda jerker" in the candy store adjoining.

In the finished comedy a number of scenes filmed during the actual opening of "White Shadows," and showing John Gilbert, Greta Garbo and other famous stars arriving at the mecca of Hollywood's producers and stars will be inserted into the picture. These were filmed by Cruze during the actual opening.

Mayan Plans Guinan Night

After the excitement of Texas Guinan's arrival in Los Angeles has abated, this popular hostess will have another welcome. Bud Murray, stage director of "Good News," now in its final weeks at the Mayan; Carlton Kelsey, musical director, and Max Fisher, whose Californians are an important part of this collegiate musical comedy hit, have all been associated with the famous night-club star in the East and plan to set aside a special night for her at the Mayan.

Murray and Kelsey were with Miss Guinan in "Padlocks" in New York. Max Fisher and his Californians were featured at her night club. All three will be proeminently identified with Texas's welcome to Los Angeles on Friday.

OLIVE BORDEN AT COLUMBIA

What is described as an exceptionally promising role was assigned to Olive Borden yesterday by Jack Cohn, in charge of production for Columbia. Miss Borden will be featured in "Stool Pigeon," an underworld story. Charles Delaney, who has been making rapid strides to the front of the juvenile ranks, has been signed as the hero. Lacy Beaumont will appear as his mother and Louis Mathesux, who played the powerful gangster role in "Four Walls," will have a similar part in "Stool Pigeon."

SCHROCK HAILS SOUND

The ever-increasing popularity of audible pictures is being hailed with enthusiasm by Raymond L. Schrock, film executive, who recently severed connection as associate producer with Tiffany-Stahl. Recognized as able in writing dialogue, Schrock is being kept busy by three producing organizations engaged in making sound productions.

ACTOR TURNS PHOTOGRAPHER

William Collier, Jr., who plays the male lead in "Women They Talk About," now showing at the Tower Theater, is a very clever amateur photographer. While on location with "Tides of the Empire" company recently, Colliers photographed Raquel Torres, his leading lady. The finished picture was such an attractive one that Miss Torres is using it as her "fan" picture.

STAR REMAINS ONE WEEK

Jeanne Eagels will appear at the Orpheum for this week only and will make no other appearance in Los Angeles. This announcement was made yesterday by the Orpheum management because of the numerous inquiries regarding the length of the famous star's stay at the Orpheum.

SOCIETY

BY JUANA NEAL LEVY

Announcement is being made to Pasadena society circles of the marriage yesterday morning at Del Monte of Mrs. Anna McKeon, 583 Glenarm street, to Frank M. Hunter, clubman and amateur golfer. Dr. Leslie E. Learned of All-Saints' Church, who is sojourning at Carmel-by-the-Sea, read the ceremony.

Mrs. Hunter has been active in social, civic and club affairs of Pasadena for many years, and is president of the local chapter of the Garden Club. Mr. Hunter is a former president of the Annandale Golf Club.

Invitations Issued

Invitations are in the mail for the wedding of Miss Jane Frances Quigley, daughter of Mr. and Mrs. Jeremiah Patrick Quigley, and Thomas William Binda. The event will take place at 9 a.m. Saturday, September 15, in St. Kevin's Church.

Engagement Told

Mrs. Hywel Davies of Normandie avenue is making formal announcement of the betrothal of her daughter, Miss Alleine Blodwen Davies, to Roland Phelps Haseltine of Los Angeles. The wedding will take place the latter part of October.

Miss Davies returned recently from a visit to her former home in Louisville, Ky., also visiting in New York and returning home via Canada. Mrs. Richard Gibson (Helen Davies) will entertain for her sister with a bridge-tea to be given September 7.

Interesting Guest

Mr. and Mrs. Frank H. Spearman of 7278 Franklin avenue, Hollywood, have as their house guest Count Du Douet de Graville of Paris and Deauville, who is making a tour of the United States and Canada, his itinerary including all the leading cities and beauty spots.

Sunday afternoon Count de Graville was the guest at a tea given by Mrs. Gertrude Lewis, Mrs. Spearman's sister, and many other courtesies are being arranged to make his visit a pleasant one.

Holdings of the Count in Normandie include two chateaux that have been in his family for generations. This is his first visit to America.

Home from Europe

After a six months' tour of Europe, Mr. and Mrs. Martin E. Gumpert, with their two daughters, Miss Helen Gumpert and Miss Ruth Gumpert, have returned to their home at 4933 Elmwood avenue.

Church Ceremony

The marriage of Miss Jean Gordon, attractive daughter of Mr. and Mrs. Carroll A. Gordon of Tacoma, Wash., to Vernon K. Hall of 3033 Wilshire Boulevard, son of Dr. and Mrs. T. P. Hall, took place at 8:30 a.m. Monday in the Little Church of the Flowers at Glendale, with Rev. Julian H. Olmstead of the Perris First Congregational Church officiating. Twenty guests witnessed the ceremony.

Pink silk lace and chiffon over satin, worn with picture hat to match, formed the lovely costume of the bride, who completed the ensemble with an arm bouquet of pink gladioli. She was assisted by Miss Elizabeth Olmstead, a college classmate, who was gowned in orchid crepe with which she wore a small orchid hat.

After a brief honeymoon, the destination of which is unknown, Mr. and Mrs. Hall will make their home in Los Angeles. The bride is a member of the Los Angeles Public Library staff, while Mr. Hall is a student at the Physicians and Surgeons College of Osteopathy.

Returns from Coronado

Miss Fairfax Stephenson, daughter of Mr. and Mrs. Fred A. Stephenson, has just returned from Coronado, where she was much entertained by the navy set. With her parents she also spent two delightful weeks this summer at Big Bear Lake.

The popular subdeb will return this autumn to the University of California at Los Angeles, where she is a junior and member of the Alpha Phi Sorority.

Smart Dinner

As a welcome-home courtesy to Dr. and Mrs. Bertnard Smith, who have just returned from Europe, where they traveled with Mrs. Smith's mother, Mrs. Hugh Livingstone Macnell of Los Angeles, Mr. and Mrs. Albert Van Court will entertain with a smart little dinner party this evening in their home.

Another dinner, being planned by these gracious hosts for September 4, will honor Eugene Goossens.

BARONESS WILL BE HOSTESS

Distinguished Painter to Discuss Art

Baroness N. Laudenghausen von Wolf

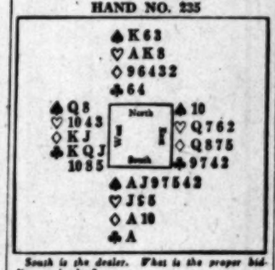
ONE of the distinguished hostesses for the gala Russian night this evening at the Hollywood Plaza, Baroness N. Laudenshausen von Wolf, besides being a painter of note, is an active member of the Russian Art Club and one of the most ardent workers for Russian welfare in Los Angeles. During the affair at the Plaza she will give a brief discourse on the famous Russian Art Theater of Moscow, where she studied for several years.

SOUND AUCTION BRIDGE

by Wilbur C. Whitehead
The World's Greatest Authority...

Each day is published a complete hand presented by Mr. Whitehead. These hands may be played with cards by one, two, three or four players. Fill out a chart of your own and compare it tomorrow with Mr. Whitehead's play. Do this each day and carefully read Mr. Whitehead's explanation, and you will find that your knowledge of the game will progress rapidly. Compare your bidding and play with that of your friends—the comparison may be illuminating.

HAND NO. 235



South is the dealer. What is the proper bidding and play?

Record the bids that each player should make, assuming that he does not see any of the other hands.

These hands must not be bid or played "Double Dummy," i.e., as though all four hands were exposed.

NOTE—In recording the Auction or the play, use "S" for Spades, "H" for Hearts, "D" for Diamonds, and "C" for Clubs. Use "N.T." for No Trumps, "DBL" for double, "REDBL" for redouble.

Mr. Whitehead will answer questions concerning your Bridge problems. Write to him care of this paper, inclosing self-addressed stamped envelope.

	Dealer	Opponents
Point Score		
Honor Score	90	50

THE BIDDING

South Bids	West Bids	North Bids	East Bids
1H	Pass	Pass	2C
2D	Pass	2H	Pass
Pass	Pass		

Final Bid 2 H Played by South

Salient Points of the Bidding

South, with two-four card suits each of four honors, bids his Major suit first, and shows his Minor on the second round to give his partner his choice without increase of contract. East, despite his four honors in Clubs, has no rebid to three Clubs, following his partner's failure to assist.

Salient Points of the Play

Trick 1. East overtakes his partner's King to assure other tricks in the suit should the King be a singleton.

Trick 2. Before returning Clubs, East leads his singleton Ace of Diamonds, believing his partner will correctly interpret the play as an indication of his desire to ruff the suit.

Trick 3. East leads the 10 of Clubs rather than the Queen, to take the trick if his partner has another Club and to induce his partner to ruff and return a Diamond if he has no more Clubs. West, understanding the situation, trumps the 10 of Clubs.

Tricks 5 and 6. East and West duplicate the play of Tricks 3 and 4 and set the contract one trick.

HEALTH and DIET ADVICE

by Dr Frank McCoy
author of "The Four Weeks to Health"

Dr. McCoy will answer personal questions on health and diet, addressed to him, care of The Los Angeles Times. Inclose stamped, addressed envelope for reply.

ARTHRITIS DEFORMANS

In this disease a pain of the joints is the first symptom. It may be either an acute or chronic form. In the acute type there is some fever, and the joints are swollen and sore to the touch. The finger joints are most often affected, the spine next, and the knees third, although any joint in the body may be attacked.

The joints become swollen because of a thickening of the capsule of the joint and the surrounding tissues. Gradually there is a bony enlargement producing great deformity. This is accompanied by an atrophying and wasting of the muscles. Extreme cases are pitiful as the patient becomes helpless, with his legs and arms drawn up and fixed, unable to walk. This disease occurs most frequently between the ages of 25 and 50, although it may occur in children and the extremely aged.

Arthritis is considered a secondary infection to some other part, possibly the sinuses, nasal passages, pyorrhea, bronchitis, gonorrhea, prostatitis, inflammation of the middle ear, tonsilitis, pelvic diseases, and infections of the intestinal and bile tracts. Meat is not the cause of this disorder as many people suppose.

Arthritis patients seem to be unable to handle the ordinary amount of carbohydrate foods. The toxins in the blood stream seem to originate from the fermentation of the sugars and starches in the intestinal tract. Many patients suffer severe pains after using these in their diet. Lactic acid from sour milk and fermenting cabbage also seem to contribute to the soreness.

As the body endeavors to protect the joints against the acid of the blood, it throws out a secretion around the joint which solidifies into bone. This inflammation and deposit produce an enlargement of the joints, forcing them out of shape and causing a deformity. This is sometimes so severe as to throw the joint entirely out of its normal position.

Arthritis deformans is usually considered incurable, but I have seen some remarkable cures in this disease, even in advanced cases, where the patient had the stamina to closely adhere to the dieting regime for a long period of time. Quick results cannot be expected because of the bony changes that are taking place. First, the original focal infections must be cleared up by fasting and local treatments. Then the extreme virulent toxins present in the patient's body must be eliminated, and lastly, the bone must be given an opportunity to completely heal.

With this disorder it is advisable for the patient to remain reasonably quiet so that there will be no greater irritation of the joints. The patient must be kept constantly warm during the processes of cure. It is of the utmost importance that the diet be regulated to avoid all fermentation in the intestinal tract.

QUESTIONS AND ANSWERS

Question: R. G. writes: "For some time I have been troubled with a swelling at the corner of my left eye. When I press at the side or under it there is a discharge which seems to come from a pinpoint of an opening in my lower lid just as though there was a hair out. I have very little pain from it, but I would like if you could tell me what to do, as I am afraid it might cause some disease of the bone of my cheek or nose."

Answer: It would be wise for you to consult an oculist and have him give his opinion about the cause of your trouble. If the treatment which he suggests does not help you, write me again, giving me his diagnosis, and I will make whatever suggestions I think best.

Q.: Mrs. Jerry B. writes: "Have been reading your health articles and listening in on your radio talks and am very much interested. Will you please give a list of nonstarchy vegetables?"

A.: Practically all vegetables are nonstarchy except potatoes and Hubbard squash. Here is a list of those I consider best to use, both raw and cooked: Celery, spinach, small string beans, asparagus, summer squash, cucumber, egg plant, beet tops, turnip tops, small beets, small carrots, small parsnips, pumpkin, lettuce, okra, chayotes, oyster plant, mallow, kale, zucchini, parsley, endive, alligator pear, and ripe olives.

Q.: Mrs. A. G. S. writes: "Please advise me what to do with a child that holds its breath till it is black in the face and lifeless. What causes this condition?"

A.: When a child cries so hard that it holds its breath for a long period of time it is usually because it suffers from periodic attacks of indigestion due to wrong feeding. He is frantic to tell you about it, and probably loses his temper because he cannot properly express himself. The shock from the application of a cold towel over the body is a good cure for this habit.

A TYPICAL PRE-NATAL CONDITION

Mrs. A. R. K. writes: "What can I do to relieve constipation? I have had this trouble ever since I became pregnant. I am a good eater and eat about every food that comes along, though I am careful not to eat too much meat. I haven't any pains and very seldom feel sick. Does this mean that the baby is dead? Everyone I know suffers lots of pain, I shall appreciate your advice."

ANSWER

It seems quite typical of this condition that women are as distressed over good health as poor. They feel that they ought to be suffering something. Now the truth is that just as many women feel extraordinarily well during this time, as those who suffer aches and pains, but you are much more likely to hear about the sufferers than the normal ones. Why not just look upon yourself as a perfectly normal, healthy person undergoing a perfectly normal, healthy experience, and stop looking for trouble?

Constipation seems to be a common trailer of this condition, no doubt due to the unusual pressure. We have a leaflet on foods that are an aid to constipation which you may have for the usual self-addressed and stamped envelope, or you might like to try this mild laxative, which is good to eat and quite harmless. Any of these aids will be merely for the time being, as after it is all over you probably won't be constipated.

Put through a meat grinder, one-half pound of each of the following: Figs, prunes, dates and raisins. Mix with this thoroughly, one to two tablespoonfuls of molasses, and one tablespoonful of senna leaves. Make into balls the size of a marble, or press flat and cut in cubes. Eat one or more of these at bedtime, and repeat again in the morning if necessary.

Mineral oil taken with your morning orange juice is a mechanical lubricant that is helpful. Yeast is laxative, agar-agar helps to increase the bulk in the bowels, and milk of magnesia, cascara and senna are all mild laxatives. The first three mentioned are preferable.

You should be under the care of a physician whom you can consult about these various annoyances. You do yourself a grave injustice to feel that you don't need a doctor because you are well. I am saying this because you told me how old you are, and I know that young persons who are going through this period need advice that the older mother has learned by experience is good.

I suggest that you put yourself in the hands of a good doctor, give him a sample of urine each month the first six months and twice a month after that and feel free to consult him at any time during this period. This is all part of the care which you can expect from an obstetrician, and which is so vital to your good health during this time. I shall be glad to send you the leaflet we have dealing with subjects of interest during this time, if you will send me a self-addressed and stamped envelope and ask for Prenatal Care and Diet During Pregnancy.

(Copyright, 1928, Bell Syndicate, Inc.)

Trial Account Names Wrong Hermosa Bank

E. J. Young and L. E. Spencer, former officers of the National Bank of Hermosa, who went to trial in Federal Court last Saturday, charged with the misapplication of $30,000 of bank funds, were through error named as officials of the First National Bank of Hermosa Beach in a news account of the trial last Sunday. The men, according to the records, never were identified with the First National Bank of the beach city.

Records show that Young was the former president of the National Bank of Hermosa and Spencer the cashier of the same institution. Both of the men were taken into custody some time ago and charged with violations of the Federal laws.

R. E. Matteson is the president and G. S. Thatcher vice-president and cashier of the First National Bank of Hermosa Beach.

Expert on Air Law Awarded Honors Here

An honorary degree of doctor of laws was conferred on Dr. Otto H. Schreiber, internationally known air-law expert, last night by the University of Southern California. Presentation of the degree was made by President Von KleinSmid. Dr. Schreiber has been lecturing at the summer law school at U.S.C.

Col. W. Jefferson Davis, San Diego attorney active in aviation development, lafer was presented with the degree of doctor of laws by Dr. Schreiber, acting for Albertus College of the University of Koenigsberg. Col. Davis is the author of two books on aviation.

AGENTS GO TO MEET

Three members of the Los Angeles branch office of the Travelers Insurance Company of Hartford will visit the Connecticut city to attend a four-day conference of branch office representatives, casualty lines, from September 4 to 7 inclusive. F. P. Davis, J. E. Eurey and J. R. Sherman are the trio to make the trip for the local branch.

YOUR BABY AND MINE

By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

This department offers leaflets on weaning and feeding the child from 6 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, outfits for the new baby, sleeping, walking, teething, thumb sucking, ammoniacal urine, bed wetting, training in cleanly habits, periods of nursing, cod liver oil, orange juice, hives, worms, vomiting, refractory children, prune juice, lime water, rupture, styes and boils and cradle cap. Before asking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular problem is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Every Tuesday and Friday at 2 o'clock Mrs. [illegible] will conduct a free class and demonstration of good cooking in the lecture room of the Southwest Building, 216 [illegible]

Breakfast
Iced Grapes
Kidney Saute
Pop Overs Pear Marmalade
Milk Coffee

Luncheon
Shrimp Kedgeree
Fresh Peach Pie
Grapefruit Salad
Orange Julep

Dinner
Consomme Rachel
Olives Pickles
Scalloped Lamb
Boiled Potatoes
French Fried Onions
Fruit with Strawberry Gelatin
Banana Short Cake
Coffee

PEAR MARMALADE

Peel, cut in halves and core ten pounds of firm ripe pears, save the peel and cores, place the pears in a kettle, just cover with cold water and simmer gently until the pears are tender, lift out the pears and add to the water in the saucepan the peel and cores. Bring to a boil and boil one hour, strain and to each four cupfuls of the liquid add three cupfuls of sugar, bring to a boil and boil until a little will jell when dropped on a cold plate, add the pears to the syrup, bring to a boil and boil ten minutes. Pack in jars, seal and store.

SHRIMP KEDGEREE

Wash half a cupful of rice, place in a saucepan, add two cupfuls of water, bring to a boil, then drain well. Melt three tablespoonfuls of butter in a saucepan, add the rice and stir and cook for four minutes. Cover with hot stock and allow to cook until the rice is tender, allow most of the stock to cook off, when the rice is done. Stir to keep from burning, add two level teaspoonfuls of salt, a teaspoonful of curry powder, a teaspoonful of onion juice, salt and pepper to taste, the cupful of cooked shrimps, two hard boiled eggs, cut and chopped fine, a pimento cut in small pieces, and a pinch of cayenne, mix well and heat thoroughly, garnish with the yolk of the eggs rubbed through a sieve and the whites cut in rings.

SCALLOPS

Cold boiled or baked scallops, in small dishes, cover the bottom with cracker crumbs, two tablespoonfuls of lemon juice, salt and pepper to taste, two tablespoonfuls of butter, two tablespoonfuls of flour, a cupful of milk, a layer of scallops, a layer of crumbs, and so on, the last layer of crumbs, dot with butter and bake in a moderate oven until the tomatoes are cooked, season with salt and pepper. Cover and bake 15 minutes. Uncover and cook until the crumbs are brown, but not too dry and hard.

FRUIT SALAD

Line a deep dish with lettuce leaves, cut in small pieces, one cupful of rich cream cheese, one cupful of canned pineapple, one cupful of canned peaches, one cupful of canned pears, one cupful of canned apricots, one cupful of canned cherries, one cupful of canned plums, one cupful of canned grapes, one cupful of canned pineapple juice, one cupful of canned peach juice, one cupful of canned pear juice, one cupful of canned apricot juice, one cupful of canned cherry juice, one cupful of canned plum juice, one cupful of canned grape juice, the juice of two lemons, two tablespoonfuls of gelatin soaked in one cupful of cold water for five minutes, one cupful of sugar, one cupful of boiling water, add the soaked gelatin, stir until dissolved, add the fruit juices, stir and when the syrup commences to thicken add the fruits, pour into the lettuce lined dish and set away to cool and harden.

HOUSEHOLD SUGGESTIONS

Easier to Open

None of us delights in opening cans with keys, such as most sardines and fish are canned in. However, it is much simpler if one slips the ice pick through the end of the key and uses that as a lever for turning. Try it and see.

In Lieu of a Wall Brush

If you have no wall brush cover the broom with a piece of flannel and brush ceiling and walls with a downward stroke. As the covering becomes soiled it must be replaced with a new one. You will find it as effective as a brush.

No Changes

Why is it men resent changes in the arrangement of a room? Perhaps if the economical side were pointed out to them in regard to the wear on rugs and furniture they would comprehend more quickly than the fact that a change seems good to the housewife who is home so much.

Skin Natu... Lovel...

when make-up is removed this special way

LOVELY women of stage and screen are wise in the ways of beauty. And they have found a way to use beauty oils that is most soothing and effective in removing rouge, powder, the grimy accumulations of the skin. There is a way in which you may benefit by their discovery.

In Palmolive, oils of palm and olive are skilfully blended to provide a complexion soap of rare accomplishment.

Here is a proved rule for keeping your skin lovely, despite make-up, grime or dust.

Hawley May Resign at Dartmouth

CHICAGO, Aug. 28. (AP)—Jesse Hawley, football coach at Dartmouth, said today that it was very doubtful if he would be able to assume charge of the "Big Green" team this fall, because of increasing pressure of business affairs.

EASTERN SAILORS HOPEFUL

Challenging Star Sloops Confident of Recapturing International Title

NEWPORT HARBOR (Cal.) Aug. 28. (AP)—Yachtsmen from the East, gathering here for the international star-boat regatta beginning Friday, are optimistic about their chances of taking back to their home ports the sailing champions held by them for many years, but brought to the Pacific Coast for the first time by the Newport Harbor-Yacht Club.

The chief hope of the invaders is the ace from Port Washington, N. Y. This craft of Adrian Iselin II easily trimmed a field of twenty-two starters in a twelve-mile practice race over the waters of the way here yesterday. The Ace completed the distance one minute and twenty seconds ahead of the second-place Minx, W. C. Atwater Jr.'s Great South Bay (L. I.) entry, and three and a half minutes ahead of the Tempe III, which will defend the international championship.

ANZACS CRUSH DOEG AND COEN

Santa Monican Eliminated from National Doubles

Lott and Hennessey Humble Mexican Stars

Borotra, De Buzelet Beaten by Australians

BROOKLINE (Mass.) Aug. 28. (AP)—George M. Lott, Jr., and John Hennessey, the No. 1 seeded American pair in the national doubles tennis championship, advanced to the third round here today by crushing Ricardo Tapia and A. Unba of Mexico, 6-0, 6-0, 6-2, on the courts at the Longwood Cricket Club.

The second seeded American pair of John Van Ryn and Wilmer Allison had little difficulty beating William Aydelotte and P. G. Rockafellow, eliminating the latter 6-3, 6-4, 6-2.

W. W. Ingraham and A. W. Jones, fourth seeded pair of homebreds, came through their second-round match with Carl P. Kamman and Charles W. Barnes, the Missouri Valley doubles champions, to the tune of 6-3, 6-1, 6-2.

YANKS WIN

R. N. Williams II and Watson Washburn, the third seeded American pair, defeated Fred and Don Dixon, the intermountain champions, 6-1, 6-2, 4-6, 6-3.

Jack Wright and Willard Crocker, the Canadian Davis Cup players, advanced at the expense of Harry Hopman and Jack Crawford, members of the Australian Davis Cup team, 6-1, 6-0, 6-4.

Gerald Patterson and Jack Hawkes, Australians, seeded second in the doubles group, were extended almost to their limit in disposing of John Doeg and W. F. Coen, Jr., 6-4, 8-6, 6-4. Doeg caused the Australians, who have been conceded an excellent chance to be finalists, plenty of trouble, but Coen failed to furnish the support needed for victory.

R. O. Cummings and E. F. Moon of Australia eliminated the French pair of Jean Borotra and Rene De Buzelet, 6-2, 6-4, 6-4, thereby retaliating for the five-set drubbing which the Frenchmen administered to Edward Higgs and I. C. Collins in a first-round match.

Cochet and Jacques Brugnon,

Giants Bumped Twice by Braves

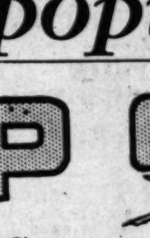
HORNSBY'S BAT POTENT FACTOR

Rogers Slams Three Triples and Three Singles

Boston Takes Double-header, 3 to 2 and 7 to 5

New York Five and One-half Games Behind Cards

NEW YORK, Aug. 28. (AP)—The pennant chances of the Giants received another rude shock here today, when the Boston Braves marched into the Polo Grounds and made off with both ends of a double-header, by 3 to 2 and 7 to 5. This double reverse ran the Giant losing streak to eight in the last nine games and dropped the Clan McGraw to a point five and one-half games below the Cardinals.



The Giants tonight hold a virtual tie in games with the Cubs, who have won four more and lost four more than the Clan McGraw. The Bruins are only half a game, or two points, ahead of the Reds and the Pirates, who are tied for fourth.

The powerful bat of Rogers Hornsby may be blamed by the Giants for their double disaster. The Boston manager and former Giant second baseman hit three doubles and three singles in the two games. He drove home two runs in the opener and scored the third. His blows were equally effective in the second clash.

Larry Benton, New York pitching ace, suffered his fifth defeat of the season in the first game. Genewich was knocked out in the second. Twenty-five New York runners were stranded in the two contests. Scores:

First game:

Eight-Run Splurge in Sixth Ruins Hollywood

Portland Raps Shellenback Out of Picture

Five Circuit Clouts Prove Feature of Tilt

BY BOB RAY

According to the versatile Mr. Webster, a beaver is a rat-like animal, which can sling mud with its tail. "Wild Bill" Rodgers's Portland Beavers certainly bore out Webster's definition yesterday at Wrigley Field where they tossed mud all over the league-leading Hollywood Stars' triumphant return home after a sensational winning streak on the road.

The Beavers' mud-slinging act reached its height in the sixth inning when eight of them dammed up home plate with a like number of runs for the foundation of their emphatic 14-to-6 victory in the opener of this nine-game series.

The only consolation the Sheiks could get out of their licking was that their closest rivals, the Solons and Seals, also lost, so the Hollywooders didn't drop a bit of their two-game lead.

NOT SHELLY'S FAULT

Frank Shellenback started on the mound for the Stars but had to give way in the sixth after his mates had kicked several chances in crucial spots. In fact only two of the nine runs scored off the Sheik spitballer were earned, Bill Murphy, who replaced Shelly with the bases filled in the sixth, was greeted with a double and a single that produced the last four of the eight runs in the Beavers' big round. Four more runs were scored off Murphy in the last two innings.

Jack Knight, who toiled on the mound for the visitors, was touched for nine hits by the Stars but he was never in danger after his mates had staked him to such a lengthy lead in the sixth.

There were five home runs during the struggle, Knight and Sigafoos rapping successive circuit clouts for the Beavers in the eighth. Mickey Heath, Johnny Bassler and Leo Ostenberg poled out the Hollywood

HOLLYWOOD AND SACRAMENTO BENEFIT BY SPLIT SEASON

Hollywood and Sacramento are the chief beneficiaries of the split season to date, according to standings compiled at the office of President Harry A. Williams. Had the season been played straight through instead of a new start being made at the half-way mark, the Stars would have been in second place at the conclusion of the double-headers of Sunday, the 26th inst. San Francisco would have been leading the league by a margin of one game with Sacramento third, six games behind the leaders.

Clubs affected adversely in their standings by the split season are Los Angeles and the Missions, both of whom would show a better percentage had the season been played straight through, while Oakland is somewhat higher than it would have been except for the split. Below are the standings of Coast League clubs on Sunday night last, and a table also showing how they would have ranked except for starting a new race at the half-way mark:

	W.	L.	Pct.
HOLLYWOOD	39	18	.684
Sacramento	37	20	.649
San Francisco	35	22	.614
Oakland	31	26	.544

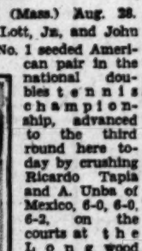
ANGELS SLAP SOLONS

Lefty Peters Hurls Krug's Club to 6-to-1 Win Over Sacramento, Helping Stars Hold Lead

SACRAMENTO, Aug. 28.—That spirit of co-operation and brotherly love for which the Angelenos are famous was exemplified here today when Los Angeles, realizing the predicament of Hollywood, hung a 6 to 1 defeat on the Senators and thereby prevented them from gaining on the league-leading Stars, subdued by Portland.

The Krugmen lost no time whatever in putting a crimp in Sacramento's aspirations to regain the cherished position lost last week to Hollywood. Four runs scored in the first inning proved more than enough to win the old ball game.



Rudy Kallio, once a very reliable mound artist, for the ninth straight game was knocked from the hill by a barrage of hits in an early inning but little tough luck helped bring on disaster for Rudy in today's encounter. Bigbee doubled to center to usher in the game and Staley flew out. Jones got a hit off Rudy's glove and then big Tolson struck out. Hood's single to left scored Bigbee and the bases were filled when Schulmerich beat out a tap to third. Jones and Hood

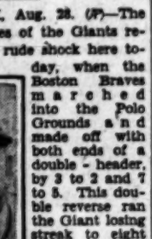
Gorchakoff in Tennis Victory

DENVER, Aug. 28.—Gordon Lum, Davis Cup leader of the Chinese racket men, and Ben Gorchakoff, the Occidental collegian of Los Angeles, who has twice been a runner-up for the national college championship here this afternoon at the Denver Club. Both were easy winners over H. Clarke and Henry Swan, both of Denver, in straight sets.



Lum, who arrived at a late hour Philstein, 6-2, 6-3, and the conquered Clarke, 6-3, 6-2. The victories placed Lum in the bracket of sixteen to which position

JONES STOPS "OLD MAN PAR" WITH RECORD-A-DAY BUGABOO

CHICAGO, Aug. 28. (AP)—Bobby Jones today set a course record of 37-30—67 in the Warren K. Wood memorial tournament at Flossmoor and led the field of American and British players by four strokes.

His 30 on the second nine lacked only one stroke of equaling the world's record and his 67 was a new mark for the Flossmoor links. Jones scored seven consecutive threes, including an eagle on the 483-yard tenth, where he holed out his chip shot from a trap.

TUNNEY SPENDS QUIET DAY

LONDON, Aug. 28. (AP)—Gene Tunney has found the privacy he has been hunting.

Except for a few score callers, literary lights, sports experts and autograph seekers, the retired champion had the day to himself. He breakfasted with Thornton Wilder, the novelist and companion on a projected tour of Europe, and then went shopping. He spent most of the afternoon at the old Bond Street Art Gallery, where an exhibition of paintings by his friend, Zarth Pritchard, undersea artist, is on view.

Tunney returned to his hotel to find Hugh Walpole and several other British writers awaiting him for tea.

Athletics Capture Pair and Again Climb Back to Within Three Games of Yank

PIRATES NAB TWO AND TIE WITH CINCY FOR FOURTH

Climbing Cardinals Increase Lead as Clarence Mitchell Blanks Chicago Cubs, 6 to 0

PHILADELPHIA, Aug. 28. (AP)—The Athletics climbed back to within three games of the idle Yankees this afternoon by taking two games from the White Sox, 1 to 0 and 4 to 3. The second battle extended into the eleventh inning before Bing Miller singled to score Mule Haas from third with the winning run.

Bob Grove shaded his old Baltimore playmate, Alphonse Thomas, in nothing but the final score in the opening clash. Thomas held the Mackmen to three hits, but one was Max Bishop's fifth home run of the season, hit over the right-field fence with two out in the third. Grove so scattered the eight Chicago hits that he was in difficulty only in the last two rounds, at which points he rose to his best to hang up his twelfth straight and his twentieth victory of the campaign.

In the second game the Macks, to win, had to overcome a lead of three runs carved out by the White Sox in the first inning off Jack Quinn. The Shibe Park defenders got to Grady Adkins for a pair in the sixth and for one more in the seventh to even the count.

Eddie Rommel entered the box after Ty Cobb batted for Quinn in the sixth, and held the visitors to two hits over the rest of the route. The home team pulled out the decision in the eleventh on a single by Haas, Cochrane's sacrifice, an intentional pass to Simmons, a force-play on Simmons at second and Miller's single. The score:

CARDS ON TOP

CHICAGO, Aug. 28. (AP)—Clarence Mitchell, the southpaw spitballer, was in fine form today and the St. Louis Cardinals added to their lead in the National League pennant race, defeating the Chicago Cubs in the second of the three-game series.

Mitchell held the Cubs to seven hits, only two of which were bunched in any one inning. In three innings he set the home team down in one, two, three order and in four others only four batters faced him.

Orsatti led the Cardinals' attack with a perfect day at bat, which included a double, three singles and a base on balls. With the exception of Orsatti's four hits, the league leaders got to Pat Malone and Percy Jones, for only six hits. But those hits came at the right time and were bunched with three errors, a wild pitch and four walks.

BUCS COP TWO

PITTSBURGH, Aug. 28. (AP)—The Pittsburgh Pirates, National League champions, pulled up to a tie with Cincinnati for fourth place by taking a double-header from Philadelphia here today while the Reds were idle. The Pirates won the first game, 9 to 2, and the second, 16 to 7.

Hill was master of the first game allowing only four hits. Sweetland and Miller were touched for fifteen hits but three double plays held down the score.

In the second game the Buccaneers hammered four Quaker hurlers for twenty-one hits, Lloyd Waner getting four of them. Grimes, who started for the Pirates, was driven to cover in the second inning and Dawson finished, receiving credit for the win. Scores:

BROWNS ANNEX

BOSTON, Aug. 28. (AP)—Sam Gray's double in the eleventh inning drove in the run which broke a 6-to-6 tie and started a two-run rally which gave St. Louis an 8-to-6 victory over the Red Sox here today.

Boston had a five-run lead at the end of the fifth inning but Ruffing weakened in the sixth and had similar lapses in the eighth and eleventh.

Todt drove in three of the Boston runs and Schulte made several sensational catches in center field for the visitors. Score:

TIGERS TRIUMPH

DETROIT, Aug. 28. (AP)—A vicious assault on Walter Miller in the third inning, in which ten batsmen faced him and six runs were scored, enabled Detroit to defeat Cleveland in the first game of the series today, 8 to 4. The feature of the attack on Miller was Bob Fothergill's home run over the scoreboard, with Red Hargrave and Harry Heilmann on.

Time of game—2h. 25m.

TENNIS SKETCH BY FEG MURRAY

(Continued from Ninth Page)

quer. Just before the women's national championship got under way "Little Miss Poker Face" administered a decisive trimming to Frits Mercur, fifteenth in national ranking, shortly after that gentleman had beaten Bill Tilden and George Lott, mainstays of the United States Davis Cup team.

All of this gives rise to the question: "How many men players could beat Helen Wills?" And when I say that besides the "world's first ten" (which includes La Coste, Tilden, Cochet, Borotra, Alonso, Hunter, Lott, Hennessey, Brugnon and Jean Koeslah,) there are very few others who can beat our Helen, I think that many others will agree with me. Perhaps Boussus and Landry of France could beat her; certainly Patterson of Australia could, maybe Higgs of England or Freitzheim of Germany, or De Morpurgo of Italy, or Von Kehrling of Hungary, but can we be too sure that when Helen Wills is playing at her best she could not win from Van Ryn, Jones, Doeg, Coen, Allison, White and other ranking United States players?

It is interesting to note that all clubs have played exactly the same number of games, all postponements having been played off, a condition never before seen at this period of the race.

ANZACS CRUSH DOEG AND COEN

(Continued from Ninth Page)

French Davis Cup players and top seeded foreign pair, overcame H. W. Austin and J. C. Gregory of England, 6-4, 7-5, 7-5.

Helen Wills, holder of most of the world's amateur tennis titles open to women players, teamed up with Jack Hawkes of Australia to defeat Marjorie Gladman and Christian Boussus, 6-2, 6-3, in a second-round match in the national mixed doubles tourney.

MEYERS CANCELS BOUTS

SAN FRANCISCO, Aug. 28. (AP)—Injuring his foot while in training today caused Pete Meyers, San Francisco welterweight, to call off bouts scheduled for here and in Portland within the next few days. Meyers was signed to meet Harry Galfund, Denver, here next Friday and Mike Hector in Portland next Tuesday.

ANOTHER OPEN LETTER FROM JUNIOR OLYMPIC CHAMPIONS TO SOUTHLAND BOY FRIENDS

NEW YORK, Aug. 26. (By air mail)—An open letter to Jerry Deal, Rex Heap, Mike Pena and other Southern California boys who competed in the Junior Olympics:

Dear friends: Whoops, boys: Here we are back in New York, and on the run to catch the first train for California. You could stuff all the little countries in Europe into a candy sack and we wouldn't pay you a nickel for the bag. That's how we feel about getting back to the good old U. S.

It's only five more days until we'll be back to California and can kick a few footballs around with the old gang. Europe is a great place to visit and we didn't miss any fun seeing it, but we would rather live at home. Of the thousands of statues we saw in the six European countries there was none which looked so good as the Statue of Liberty did when the good ship Belgenland slipped into the New York Harbor today.

Our trip back across was a whopper. For two days and nights our big ship rolled and tossed through stormy waves and nearly every one buf us got seasick. We didn't have time to get sick, but were too busy in the ship gymnasium. You bet. You fellows needn't think we're soft just because we've been traveling all these weeks. We've used the ship's punching bag until it must have been glad when we climbed off onto the dock. We pulled at the artificial boat oars until the levers got hot and rode the mechanical horse until the machinery got tired.

Let's see, our last letter was written from Paris, so we didn't tell you anything about England. We were in London three days and were on sight-seeing trips all the time. We visited Westminster Abbey, where England's great soldiers, poets and kings are buried; we saw the King's many palaces, took a boat ride up the Thames River, saw the home of William Penn and a thousand other things. About the only thing we didn't see was the Prince of Wales falling off his horse. One of the funniest sights was the guards who paraded around Buckingham Palace. They were dolled up like a bunch of tin soldiers.

We said "good-by" today to our friend, Mr. Kennedy, the Amherst coach, who has been with us all through Europe. He said he expected to see us and other Junior Olympic boys on the U. S. team in the big Olympics at Los Angeles in 1932.

Your home-coming friends.

JOHNNY FALCON, senior champion.

MORRIS (MUSHIE) POLLOCK, Junior champion.

BEAVERS BUMP LOOP-LEADERS

(Continued from Ninth Page)

homers, all coming with the bases empty.

Heath started the scoring in the second when he rapped one of Knight's offerings over the left-centerfield bricks.

Sigafoos got that run back for the Beavers in the third when he walked, stole second as Rose was fanning for the second out, also pilfered third and came home when Bassler threw the ball badly past Ostenberg.

BASSLER TIES SCORE

Bassler tied the score in the Hollywood half of the third when he doubled to left and scored on Kerr's slashing single off Brazill's shins.

Doubles by Tomlin and Brazill, the latter's two-bagger being a high fly which Twombly lost in the sun, and Bates's single gave the visitors an evening counter in the fourth. Twombly cut off Brazill at the plate with a good throw from right field.

Bassler hit his home run in the fifth to put the Stars in front once more. Johnny's clout landed on the pipe on top of the right-field screen and bounced over for the circuit. It was one of Bassler's few homers of his career, his other circuit clout this year being a freak hit that bounced into the stands.

And then came the Portland sixth, the wild and woolly round that saw the Stars' downfall. Keesey walked for a starter and went to third when Tomlin singled to center. Brazill hit to Kerr, whose throw to force Tomlin pulled Lee off the bag, all hands being safe and Keesey scoring. Bates forced Tomlin at third and Wuestling grounded to Heath. But Whitney singled to left, scoring both runners, and went to third when Shellenback deflected Smith's throw to the stands. Knight walked and Sigafoos doubled to score Whitney. After Shellenback had walked Rose to fill the sacks and almost beaned Tomlin with his next pitch, Vitt sent in Murphy. Keesey doubled and three more runs scored. Keesey, who took third on Smith's high throw-in, came home when Tomlin singled for his third hit of the game.

Lee's single, Smith's double and two infield outs gave the Stars two in their half of the sixth, but home runs by Knight and Sigafoos got those back for the Beavers in the eighth.

Ostenberg got his circuit clout in the eighth when he pounded a slow ball over the left-field wall. Vitt predicted Ostenberg would hit three homers this series, and the youngster is certainly starting out well to bear up his boss's statement.

Doubles by Brazill and Sigafoos, with a couple of walks in between, gave the Beavers their last two tallies in the ninth.

Another one today, folks, and it looks as though Fullerton and either Kinney or Rhodes will be the pitchers.

"OLD MAN PAR" SINGS SWAN SONG

Jimmy Costello Slays Birdies and Eagles Right and Left at Rio Hondo to Hang Up Record of 62 for Eighteen Holes; Scores Hole-in-One for Good Measure

Course records may be something to be discarded like an old shirt, but Mister Jimmy Costello of Rio Hondo is taking advantage of a good thing.

Stroking the Rio Hondo course with L. P. Berrett Sunday, the Huntington Park professional shot a 62 (not a typographical error,) to shatter all records, not only for his home course, but for California. A glance through the record books show that Mel Smith had a 63 at Pasadena some five years ago, the lowest score registered on any California course.

While the record was made from the new grass tees, the course measuring around 5850 yards, the score is none the less remarkable. Costello had five birdies, an eagle, and a hole-in-one just for good measure.

Jimmy started out like a lamb and finished like a lion. He had a par 4 for the first, taking a 5 for the par 4 second hole, the only hole on which he failed to get his par or better. Teeing off for the sixth one over par, Jimmy started on a rampage which netted four birdies in a row, giving him a 32, three under par for the first nine.

The card:

Par (out)	443	445	434	—35
Costello	453	444	323	—32

Costello maintained his average by shooting par golf for the first three holes of the last nine, and then uncorked another rampage of super golf. He took a birdie 4 on the thirteenth, parred the fourteenth, and then watched his 255-yard tee shot drop into the cup on the fifteenth. It was the first "ace" ever scored on that hole. On No. 17, Costello got off another beautiful drive, and then holed out his approach for an eagle 2. The hole is 383 yards in length.

The card:

Par (in)	444	534	444	—36—71
Costello	444	431	424	—30—62

Costello's 30 for the last nine also established a new record and rivaled the remarkable feat of Robert T. Jones, Jr., who yesterday shot a 37-30—67 to establish a new record for the Flossmoor links at Chicago. The world record is 29.

EL CABALLERO HOST TO FOX HILLS TODAY

More than sixty golfers of the Fox Hills Country Club will invade El Caballero today for the second half of a home-and-home series of team matches. El Caballero will match the Fox Hills team, twosome for twosome.

BOB JONES, NOT BOBBIE GETS HOLE-IN-ONE

Bob Jones, not the Bobbie Jones of Atlanta, but of Los Angeles, holed his tee shot for an "ace" at Catalina a couple of days ago. Jones was formerly a University of Southern California man.

STATE AMATEUR ENTRY LIST CLOSES IN THREE DAYS

DEL MONTE, Aug. 28. (AP)—Only three days remain for golfers to file entries for the California amateur golf championship here, September 3 to 9, it was announced today. The announcement said that entries must reach the tournament committee at the Hotel Del Monte by noon Saturday, September 1. Entrants in the Del Monte championship for women, September 5 to 9, have until noon, September 3, to file entries.

MONTECITO STAGES BEST BALL EVENT

C. R. Mattie and T. C. Abbott won the best ball tournament held at the Montecito Country Club Sunday with a best ball of 62. Second place was won by A. L. Painter and M. Wilson with a best ball of 66.

ROSSI WINS MAY COMPANY TOURNAMENT

George Rossi won the first annual tournament for the employees of the May Company, which was played over the Girard course Saturday. His 81 won the low gross trophy. Phil Karlstein won the blind bogey.

H. G. Hartman won a prize for having the highest score on one hole. It was a 10 on No. 18. Dr. Clinton had high score of the day with 120.

RAMIES, MITCHELL TO MEET AT WILMINGTON

A pair of highly regarded light-heavyweights, Cliff Ramies, hard-hitting Mexican and Leo Mitchell of Long Beach tangle in the ten-round main event scheduled at Wilmington tonight. Ramies holds a knock-out victory over the Long Beach scrapper and is being tabbed a 10-6 choice in tonight's mill. Many expect to see the sensational Mexican repeat his former feat.

Jimmy Lundy faces Eddie Gleason in the six-round semifinal. Les Kennedy meets Allie Drisdon in the special. They are heavyweights. The preliminaries show Babe Long vs. Alex Tovar and Kayo McKnight vs. Cecil Bennett.

RABBIT PUNCHES

PAUL LOWRY

FOLLOWING THE TRAIL

PICKING up where the typewriter keys left off two weeks ago one finds a lot of interesting things to chew the rag about, as the boys say. For example, Mickey Walker's easy seven-round knockout of Armand Emanuel; Helen Wills's straight-set conquest of Helen Jacobs; the triumphant return home of the Stars after winning twelve out of fourteen games on the road; Bobby Jones's record practice rounds at Chicago in preparation for the Walker Cup tourney; Billy Gibson's rapid return to active participation in the cauliflower industry after retiring along with Gene Tunney; the cracking of the New York Giants and the slight but sufficient superiority of the St. Louis Cards in the National League and the New York Yanks in the American League; the reneiging of the Yankees on the Lyn Lary-Jimmy Reese deal; the Washington-U.S.C. team-up and last but not least the probable get-together of the two Bills—Wrigley and Lane—over the ladies-free situation.

There was a lot of aftermath to the Olympic Games, mainly an attempt by the American coaches to explain why our boys didn't perform up to their best licks at Amsterdam, but to an innocent observer the most notable occurrence was the stupendous achievement of Emil Hirschfeld at Bochum the other day. Emil up and broke John Kuck's world record of 52ft. 11-16in. with a toss of of 52ft. 7 81-128in. This was very catty of Emil because it was only a couple of days after a sob story appeared explaining that Kuck set his record at the Olympic Games and beat Hirchfeld for his daddy's sake. Emil is a big boy and should have better manners.

* * *

SOMEWHAT ANTICIPATED

THERE'S nothing astonishing about the Walker triumph over Emanuel. It doesn't prove that Walker is a great light-heavyweight because he stopped a man eleven pounds heavier than himself. The Walker of 1925 would have stopped Emanuel in one round or thereabouts.

It only proves what a lot of people already suspected, that the Emanuel ballyhoo, patterned after the line that put Eddie Huffman over as a topnotcher, was without solid foundation. Emanuel is a good, game boy who fights better after he's stung; a fairish boxer with a weak chin and one unlikely ever to stand the gaff of a withering body attack.

* * *

THROWN FOR A LOSS

FAR below the anticipated $80,000 to $100,000 gate receipts announced by Promoter Ancil Hoffman several days before the fight Walker and Emanuel drew approximately $40,000. On that basis you can gamble that the promoter lost money. Jack Kearns will never do business with anybody on a percentage basis. He wants his and he doesn't give a rap whether the other fellow collects or not. A Walker-Hudkins match would have been made in Los Angeles long ago if Kearns hadn't wanted the whole gate. His creed is not—"A fighter is worth just what he will draw at the gate." Rather—"Give me mine, you can take the leavings." Incidentally, my fellow-citizen of Glendale, Mr. Louis Daro, undoubtedly will be glad to pay that wager of an extra shirt that the Walker-Emanuel receipts would run closer to his guess of $75,000 than mine of $35,000.

* * *

POOR HOSPITALITY

ALTHOUGH it's none of my business it does seem that Bobby Jones is displaying a very inhospitable attitude in burning up the Chicago Golf Club course before the Walker Cup matches get under way Thursday and Friday.

This is no way to treat the visiting Britishers after their long trip across the pond, and the S.P.G.A. should investigate those three consecutive rounds of 68-67-68 before the matches begin on Thursday. If, as suspected, Bobby expects to continue shooting such murderous golf, the tourney should be postponed and somebody human installed in Bobby's place on the team.

* * *

FAST COMEBACK

NOBODY believed Billy Gibson when he announced his retirement at the same time as Tunney, but Billy understands publicity and he rode into the newspaper toplines along with Gene. Now he's back in the game again with Knute Hansen, the tall Dane who was such a bum that he could get only one fight in Los Angeles eighteen months ago. Although Mr. Tunney developed into a great heavyweight champion those on the inside have never kidded themselves that Billy wasn't the man that made him. Mr. Tunney might be just where he was three years ago but for Mr. Billy Gibson. And Mr. Tunney probably knows it better than anybody else.

NELSON AND MALCEWICZ TO HOOK UP

Lou Daro to Complete Mat Card Today for Next Show at Olympic

Two of the all-star mat bouts "Carnation" Lou Daro plans to have for his wrestling show at the Olympic a week from tonight have already been scheduled, while the other is expected to be closed some time today, it was reported.

Joe Malcewicz, the "Utica Panther," whose wrestling during the two months he has been on the Coast has established him as the outstanding contender for Champion Ed "Strangler" Lewis's title, was signed yesterday to meet Carl Nelson, a flashy 200-pounder from Ogden, Utah, in the second bout of the card. Nelson was selected from a group of six other better known stars, but whose mat records were not as good as the Mormon grappler's.

Lutze is to defend his position in this mat tournament against Jack Ganson, former Pacific Coast and Olympic heavyweight mat champion. Ganson is a 195-pounder, who is built and wrestles much in the same style as Paul Jones. This match will be the feature event of this card.

FRENZIED FANS JEER DECISION

(Continued from Ninth Page)

servation it looked as if Sanger won six rounds and Zorilla four, although judging the contest strictly on points it was very close, the jungle boy scoring heavier in the second and third rounds than Sanger did in any rounds that he salted away.

There were no knockdowns, but both boys took turns at delivering wallops that made ringsiders gasp and ask what was holding the boys up.

Sangor got off to a good start in the first round, but from then on to the fifth he was plainly pussied at Zorilla's bobbing and weaving. He couldn't hit the jungle boy, who figuratively stood on a dime and rolled his head under or sideways from Joey's smashing hooks.

But after losing the first half of the fifth round when Zorilla backed him in a corner and pummeled him with lefts and rights to the head, Sangor came to life with a jump. Before the round was over he had made up lost ground and gained a slight margin by a devastating attack to the head, winding up the session with a terrific right to the jaw.

From then on to the tenth Sangor landed effectively with his short, sharp half-hooked rights to the head, but in spite of his fierce attack Zorilla never backed up an inch.

He was always coming in. His speed apparently permits no other tactics.

Sangor barely maintained a lead in the ninth, and in the tenth, Zorilla, much the fresher, carried the fight to his foe and won the margin.

The jungle boy had his best chance in the third round when he smashed Sangor to the ropes with a series of head jolts, but let him get away after having him on dizzy street. Throughout the bout Zorilla kept up a steady pounding of Joey's sides at close quarters.

The boys came to the post weighing within one-quarter pound of each other. Sangor scaled 126½; Zorilla 126 1-4.

Before the main event started Philadelphia Jack O'Brien, famous old fighter, was introduced from the ring and made a short speech about his last reception in a Los Angeles ring, compared with the present. Ace Hudkins next took a bow and challenged Mickey Walker to a middleweight title bout in this city.

Joe Rheinhart was awarded a decision over Billy Blake in the six-round semi-wind-up, and the other fights resulted as follows:

MOORE WINS ON FOUL

Tom Moore won on a foul from Jack Gibbs in the fourth round although Moore apparently was unhurt by the blow and Referee Wright received a fine chorus of boos for his verdict.

Phil Blood won an unpopular four-round decision from Joe Arciniega.

Gene Muller knocked out Al Dosser in the first round of a scheduled four-round bout.

Indians Pound Out 12-9 Win

SAN FRANCISCO, Aug. 28. (AP)—Carl Holling and Bill Hughes, usually effective pitchers, were a couple of lambs for the Indians today and Seattle walloped the Missions to the tune of 12 to 9. The Indians scored six runs in the second inning, driving Holling from the mound, and came back with four more in the fourth. Dave Barbee, Seattle right-fielder, helped somewhat in the victory with two homers, a double and single. The Missions nabbed nineteen hits, one more than the Indians, but were unable to take much advantage of the base knocks. Score:

SEATTLE	AB	R	O	A
Cruham,cf	5	1	3	0

Seals Shut Out by Oakland, 3-0

OAKLAND, Aug. 28. (AP)—The Oaks drew first blood today in a nine-game series with the San Francisco Seals when Dumovich allowed only four hits to win a pitching duel from "Dutch" Reuther, leading pitcher of the Coast League. The score was 3 to 0, the Oaks making their runs in the fifth inning when they bunched five or their eight hits. Score:

O'CONNER TO TAKE ON VALDEZ TONIGHT

One of the classiest cards of the year has been posted for the fight tonight at the Ocean Park Athletic Club arena. In the main event Mike O'Conner will meet that hard-punching kid, Silviano Valdez. Jess Hobson, protege of Jack Dempsey, will square off with Manuel Quintero in the semi-wind-up.

A full-blooded Indian, Owen Red Feather, who is said to be good, will go after the scalp of Augustine Paranque, that local Filipino whirlwind. Two good curtain-raisers have been provided in Pete Savedra vs. Pat Varner and Tony Zavers against Jimmy Jones.

NOTICE:

Col. Thos. A. Davis, Pres., will be at the Alexandria Hotel, Mezz. Floor, from 10 a.m. to 4 p.m. and will be pleased to give information regarding the Opening of the

Fall Term of the San Diego Army & Navy Academy Tues., Wed., Thurs., Fri. and Sat.

The West Point of the West. A fully accredited school preparatory to College, West Point and Annapolis, with a Lower School for younger boys. Land and aquatic sports during entire year. Christian influence. The largest private school west of the Mississippi River. For catalogue address:

COL. THOS. A. DAVIS, Pres. (Late Capt. Sixth U.S.V. Infantry)
Pacific Beach, California.

You Can Always Profit from Food

EATING as a *serious* business has merited the attention of dietitians and doctors for years while eating as a *profitable* business for investment has been relatively overlooked.

But just as there are volumes of enlightening information on dietetic problems, there are columns of profitable information on the restaurant and tea room business.

These are the classified "Business Opportunities" columns of The Times.

There established businesses seek new owners, or executives with capital and experience to make more profits for a going concern. Men and women seeking wise employment for their talents and investment for their money meet these offers to mutual advantage.

WANT-AD RATES

EFFECTIVE JANUARY 1, 1927

Rates per line insertion, 20 consecutive times. 21c Daily, 27c Sunday; 7 to 19 consecutive times, 22c Daily, 28c Sunday; 3 to 6 consecutive times, 24c Daily, 30c Sunday; ONE TIME, 34c Daily, 40c Sunday. All SITUATIONS WANTED insertions of more consecutive times, 16c Daily, 20c Sunday; 3 to 6 consecutive times, 17c Daily, 21c Sunday; ONE TIME, 24c Daily, 27c Sunday. Advertisements for the subheadings "EDUCATIONAL," "CONTRACTORS, BUILDERS," "PAINTERING," "DRESSMAKERS & SEAMSTRESSES" and "NURSES" are not classified as Situations Wanted Advertising and will be charged for at the General Want-Ad Rates. 34c Daily and 40c Sunday.

NOTICES OF SPECIAL INTEREST, SOCIETY MEETINGS, "PERSONAL," "SPECIAL NOTICES," "STOCKS AND BONDS," "MONEY TO LOAN," "DIAMONDS & JEWELRY," "PHYSICIANS," "MEDICAL," "PARLORS," "MASSAGE," and "BATHS & MASSAGE," 30 consecutive times. 23c Daily, 31c Sunday; 7 to 29 consecutive times, 27c Daily, 35c Sunday; 3 to 6 consecutive times, 30c Daily, 40c Sunday; ONE TIME, 43c Daily, 50c Sunday.

Advertisements on rate-holder rates on application.

All advertisers from outside of Southern California:

30 times, 24c Daily, 40c Sunday; 7 times, 30c Daily, 50c Sunday; 3 times, 32c Daily, 50c Sunday; 1 time, 43c Daily, 60c Sunday.

MINIMUM CHARGE 3 LINES.

To estimate the cost of want ads count 5 average words per line. Words containing more than 10 letters should be counted as two words.

Advertisers should retain receipts given in the Times for payment of Want Ads, as no mistakes will be rectified without them.

Cancellation of advertisements before appearance cannot be guaranteed to take effect until after the advertisement have appeared once. Countermands must be received by 3:30 p.m. for daily issue and 6 p.m. Friday for Sunday issue.

Rates for display advertising will be furnished on request.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one time.

The inadvertent commission or incorrect publishing of advertising will be rectified only by cancellation of the charge made for the service rendered.

Friday, 5 p.m., is closing hour for the early issue of the Sunday Times.

1929 MODEL

11 Rms. — 4 Bedrms. — 2 Baths.

Brand new, library with real fireplace. Upstairs boudoir and sewing room. Guest lavatory downstairs. This is the most attractive and modern Spanish home we have seen. Kitchen is tiled, equipped with suction fan, electric refrigeration, pass pantry, etc. This home is on an inspiring view lot in Westwood Hills near Beverly Blvd. and not far from the new University. View is permanent. Arrangement is unusual and convenient. Walls are covered with Sanitas, hand decorated. Baths are ultra modern. Decorations are in keeping. This will not last. Drive out Wilshire to Warner. Turn north 2 blocks to LeConte. Then west to Thayer. Drive north to 702 N. Thayer. The house is open. Terms. Call OXford 1307.

IN WESTWOOD HILLS
ARCHITECT'S
SUPER MELTON HOME

Now being completed. Last one advertised sold in 2 days. You must see this at once. On a high top lot, close to Wilshire and University. This typically Spanish home is today's best value. Entry hall of antique tile. Living room with beam ceiling, fireplace, 2 baths. Breakfast room, all decorated by a master artist. Nothing in our experience excels the superb finish of these super Melton homes. Unit heat and electric refrigeration of course. Waterfall enclosed patio encompassed in Melton's best manner. Everything the best. Full price $15,500. Inspect this now. Drive out today. Come out Wilshire to Warner—turn south to 1151 Warner. House is open. Or call OXford 1307.

HANCOCK PARK

AT A POSITIVE BARGAIN AND ON UNUSUALLY EASY TERMS. OPEN FOR INSPECTION 2 TO 5 P.M.

BUY

DIRECT FROM OWNER

NO BROKERS TO PAY

We are the only large L. A. concern who either own or represent exclusively all homes and apartments we offer for sale.

These properties have been acquired by ourselves, banks, mortgage companies, lumber and material concerns, or individuals, on account of failure of contractors, or through foreclosure.

We have sufficient capital to assure you protection in all dealings. Banking references furnished.

We have sold nearly two million dollars worth of our own homes in past 18 months, so we are merchandising homes on real value basis—Not one dissatisfied customer. No high pressure salesmanship—the home must suit you. Come out—we have it at the price you want to pay.

SELL you out in 10 days. No listing fees. Or. 7541. 5000 Hollywood Blvd.

WEALTHY PAIR VANISH ON TRIP

Sobbing Woman Telephones to Friend Here

"We Are in San Bernardino But Don't Tell"

Officers Hint at Kidnaping and Forced Call

A woman's sobbing voice over the telephone, putting in a call that cannot be traced, is the only clew Sheriff's office investigators have to work on in the disappearance of B. M. Kates, Los Angeles business man, and his wife, Susie, who have dropped from all communication with friends and relatives since the 20th inst., when they started on a trip east by automobile.

Authorities and intimate friends of the couple believe that they have been kidnaped and robbed, as they had with them many valuables. Mrs. Kates's telephone call to a friend here, Mrs. Marie Detrich of 235 West Adams street, is one of the most mystifying points of the case, as she protested against having relatives find her and said that she and her husband were well, although at the time her voice was broken by sobs.

FEARS EXPRESSED

"We are in San Bernardino," she told Mrs. Detrich. But a check through the telephone company discloses no San Bernardino calls to the Detrich apartment. This call came in just a few hours after Edward E. Adler, a friend of the Kateses had reported their disappearance and his fears for their safety.

Adler told officials of the Sheriff's office that the couple left their home at 235 West Adams street at 4:30 o'clock on the 20th inst., headed for the East. They told Adler to wire them at Trinidad, Colo., if he needed to communicate with them. They were driving a Lincoln sedan.

At 8 p.m. that same day Mrs. Kates telephoned to Adler and said that they were just outside Pomona. Since then he has not heard from them.

CALL RECEIVED

After a few days Adler became worried and notified the Sheriff. A few hours later Mrs. Kates telephoned to Mrs. Detrich, saying that they were in San Bernardino, where she had been ill. Her husband, she said, had met some very good friends. Mrs. Kates was crying as she talked and appeared agitated when her friend stated that rel
